Sharon John, Build-A-Bear Workshop's Chief Executive Officer commented, "I am pleased with the execution of our strategies in the first quarter, which led to an increase in net income of \$5.0 million, or \$3.1 million on an adjusted basis. A combination of real estate optimization, retail gross margin expansion and SG&A reduction drove the profitability increase. With these results, we now have five consecutive quarters of operating improvement and we look forward to continuing our progress through the balance of the year."

Additional First Quarter Operating Highlights (13 weeks ended March 29, 2014):

- Total revenues were \$97.9 million with 17 fewer stores at quarter's end compared to \$104.3 million in the 2013 first quarter; and
- Selling, general and administrative expenses ("SG&A") totaled \$37.8 million, or 38.6% of total

revenues, including \$0.4 million in management transition and store closing expenses. This compares to \$43.7 million or 41.9% of total revenues in the 2013 first quarter including \$2.3 million in management transition and store closing expenses. Excluding these costs in both periods, SG&A improved 160 basis points to 38.1% of total revenues in the 2014 first quarter.

Store Activity

During the quarter, the Company closed seven stores to end the period with 316 company-owned stores, including 256 in North America and 60 in Europe. (See Company-Owned Store Activity Schedule.) The Company's international franchisees ended the 2014 first quarter with 83 stores in 14 countries. Separately, the Company announced today the signing of a new franchise agreement in Turkey with the first store expected to open this June.

Balance Sheet

The Company ended the 2014 first quarter with cash and cash equivalents totaling \$41.9 million and no borrowings under its revolving credit facility. Total inventory at quarter end was \$44.1 million. Inventory per square foot increased 24% as the Company prepared for the Easter selling season and followed a 10% decrease in inventory per square foot in the first quarter last year.

The Company repurchased approximately 90,000 shares of its common stock at a total cost of \$0.7 million, leaving \$6.4 million of availability under the current stock repurchase program at quarter end.

In 2014, the Company expects capital expenditures to be between \$12 million and \$15 million and depreciation and amortization is expected to be approximately \$18 million.

2014 Key Strategic Objectives:

To increase shareholder value, the Company expects to continue to:

- **Optimize real estate** to improve store productivity. In fiscal 2014, the Company expects to close approximately 15 stores, primarily in North America, and transfer a portion of sales to other stores in the same markets. In conjunction with lease renewals, the Company will selectively upgrade stores with key features while reducing the cost of capital that is needed for the improvements. The Company expects to strategically open new stores on an opportunistic basis.
- **Refine the consumer value equation** by continuing to reposition its marketing programs. The Company expects to expand its integrated brand building marketing initiatives and to increase the impact of its loyalty program which currently has over 4 million active members.
- **Rationalize expense structure** to leverage its SG&A expenses and enhance product margins with end-to-end improvements in its supply chain and ongoing value engineering of product designs.
- **Build on core competencies and leverage brand equity** into new revenue streams. The Company expects to make continual improvements to its high touch retail service model and customizable product offerings. It expects to lay the ground work to further leverage the strength of the Build-A-Bear brand as it begins to develop new product categories to generate incremental profit and revenue streams.
