

Build-A-Bear Workshop, Inc. Reports Second Quarter Results for Fiscal 2016 in Line with Guidance, Including the Negative Impact of Foreign Exchange

August 4, 2016

For Second Quarter 2016:

- **Pre-tax loss is \$6.2 million, in line with guidance, including the unexpected negative impact of foreign exchange**
- **Consolidated comparable sales decrease as expected; the 8.6% decrease follows an 8.8% increase in the fiscal 2015 second quarter**
- **Stores remodeled in the new Discovery format on average deliver positive sales versus prior year in both North America and the United Kingdom**

ST. LOUIS--(BUSINESS WIRE)--Aug. 4, 2016-- Build-A-Bear Workshop, Inc. (NYSE:BBW) today reported results for the 2016 second quarter and 26 weeks ended July 2, 2016. Second quarter results included expansion in merchandise margin with consolidated comparable sales and pre-tax loss in line with guidance, including a negative impact of \$0.5 million in currency losses due to the re-measurement of the Company's balance sheet driven by the unexpected weakening of the British pound sterling versus the U.S. dollar at quarter end.

Sharon Price John, Build-A-Bear Workshop President and Chief Executive Officer, commented, "In the quarter, we continued to focus on executing our strategy of positioning our stores and company to achieve our long term sales and profitability goals. With that in mind, our results included an anticipated decline in consolidated comparable sales given the strength of last year's Minions collection and an expected pre-tax loss within our guidance, inclusive of the unexpected negative foreign exchange impact.

"Our Discovery format stores continued to deliver positive results compared to our heritage stores on key metrics including sales growth and contribution margin. This positive performance, along with our strong merchandise lineup in the second half, positions us to achieve pre-tax income expansion for fiscal 2016 of 15% to 25%, which excludes the impact of foreign exchange given that we are unable to predict future fluctuations," concluded Ms. John.

Second Quarter Fiscal 2016 Highlights (13 weeks ended July 2, 2016, compared to the 13 weeks ended July 4, 2015):

- Total revenues were \$75.1 million compared to \$81.0 million in the fiscal 2015 second quarter;
- Consolidated net retail sales were \$73.9 million compared to \$80.3 million in the fiscal 2015 second quarter;

- Consolidated comparable sales (stores and e-commerce) decreased 8.6% following an 8.8% increase in the fiscal 2015 second quarter. The fiscal 2016 second quarter included an 8.3% decrease in North America, following a 6.4% increase in the fiscal 2015 second quarter and a 10.0% decrease in Europe, following an increase of 19.0% in the fiscal 2015 second quarter;
- Sales from stores remodeled in the Company's new Discovery format increased an average of 0.6% in North America and the United Kingdom;
- Consolidated comparable e-commerce sales increased 11.7%, following an 11.4% increase in the fiscal 2015 second quarter;

The increase in SG&A versus the prior year's second quarter is primarily due to unrealized currency losses due to the re-measurement of the Company's balance sheet driven by the significant movement in the British pound sterling, investments in new business initiatives, international expansion, the timing of marketing expenditures and the costs associated with the review of strategic alternatives;
- Total business expansion expenses were \$1.7 million, including store preopening expenses of \$1.2 million related to the opening of new and remodeled stores, including the Discovery format stores. This compared to \$0.2 million in business expansion expenses in the fiscal 2015 second quarter;
- Pre-tax loss was \$6.2 million, which included \$1.7 million in business expansion costs and \$0.5 million in currency losses due to the re-measurement of the Company's balance sheet driven by the unexpected weakening of the British pound sterling versus the U.S. dollar at quarter end. This compares to a pre-tax loss of \$0.4 million in the fiscal 2015 second quarter;
- Tax benefit was \$1.9 million with a tax rate of 31.1% compared to a tax expense of \$0.2 million with a tax rate of negative 43.4% in the fiscal 2015 second quarter; and
- Net loss was \$4.3 million, or \$0.28 per share compared to net loss of \$0.6 million, or \$0.04 per share in the fiscal 2015 second quarter.

- Sales from stores remodeled in the Company's new Discovery format increased an average of 5.8% in North America and the United Kingdom;
- Consolidated comparable e-commerce sales increased 5.6%, following a 9.9% increase in the first six months of fiscal 2015;
- Retail gross margin expanded 40 basis points to 45.6% from 45.2% in the first six months of fiscal

- Tax benefit was \$0.2 million with a tax rate of 19.4% compared to a tax expense of \$0.4 million with a tax rate of 6.4% in the first six months of fiscal 2015; and
- Net loss was \$0.8 million or \$0.05 per share, compared to net income of \$6.2 million, or \$0.35 per diluted share in the first six months of 2015.

Review of Strategic Alternatives

In May 2016, the Company announced that its Board of Directors had authorized an exploration of a full range of strategic alternatives. The Company retained Guggenheim Securities, LLC as its financial advisor and Bryan Cave LLP as its legal counsel to assist with the strategic review.

No timetable has been set for the Company's review process. The Company does not expect to comment further or update the market with any additional information on the process unless and until its Board of Directors deems disclosure appropriate or necessary. There is no assurance that this exploration will result in any strategic alternatives being announced or executed.

Fiscal 2016 Outlook

For fiscal 2016, the Company has adjusted certain expectations in consideration of the recent unexpected fluctuations of foreign exchange. The Company's current expectations are as follows:

- Total revenue to increase in the low single-digit range compared to the prior year;
- Consolidated comparable sales to increase in the low single-digit range;
- Pre-tax income to grow 10% to 20% compared to the prior year GAAP results, which reflects its current estimate of foreign exchange. Excluding the impact of foreign exchange, pre-tax income is expected to grow 15% to 25%;
- A tax rate of approximately 34%;

- Capital expenditures in the range of \$25 million to \$30 million and depreciation and amortization in the range of \$17 million to \$19 million; and
- To end the year with approximately 345 to 350 stores, 50 to 55 of which are expected to be in its new Discovery format.

2016 Key Strategic Initiatives

To increase shareholder value, the Company expects to continue to execute its “MORE” strategic plan with key initiatives in four areas outlined below:

Expanding into More Places

The Company is focused on expanding its owned and operated locations in 2016 by adding approximately 15 to 20 stores, net of closures. Through a combination of remodels and new openings, the Company finished the quarter with 31 Discovery locations including the Company’s first store in mainland China at Disneytown at the Shanghai Disney Resort which opened in June. The Company also plans to continue to diversify its real estate portfolio with the addition of outlet format stores, shop-in-shops and seasonal pop-up locations. The Company also launched a branded experience on board Carnival Cruise Line ships through a wholesale agreement. The Company expects Carnival to expand the Build-A-Bear branded experience to 10 ships by the end of 2016.

Developing More Products

The Company plans to continue to develop and expand its offering of intellectual property concepts designed to appeal to key consumer segments. To that end, the Company’s new Horses & Hearts Riding Club collection was launched for its older girl segment delivering higher than average dollars per transaction. In addition, the Company recently launched another proprietary collection called Monster Mixters which allows consumers to add colorful arms and legs to cute monster bodies. Separately, as part of the Company’s expanding outbound licensing programs, Spin Master Corp. has launched a new Build-A-Bear branded toy line which is expected to be supported with national television advertising in the second half of 2016.

Attracting More People

The Company expects to leverage its relationships with key licensors to reach more people through a compelling offering of affinity, collectible, entertainment, sports and fashion properties. The Company has key second half offerings of licensed products, including an updated Disney Princess collection, a product line tied to DreamWorks Animation’s film, *Trolls*, and updated Star Wars products in advance of the next film release expected in December. The Company also expects to build on its eight consecutive quarters of consolidated e-commerce growth with enhanced enterprise selling capabilities which will allow consumers to order in store for home delivery. This program is rolling out in stores across the U.S. in advance of the holiday season.

Driving More Profitability

The Company expects to increase its 2016 pre-tax income by 10% to 20% compared to the prior year GAAP results, which reflects its current estimate of foreign exchange. Excluding the impact of foreign exchange, pre-tax income is expected to grow 15% to 25% by the disciplined execution of its stated strategies, including those initiatives detailed above as well as its on-going efforts in process improvement and organizational efficiency, system upgrades, value engineering and strategic pricing to enhance merchandise margins.
