

Build-A-Bear Workshop, Inc. Reports Fiscal 2011 Fourth Quarter and Full-Year Results

February 16, 2012

ST. LOUIS--(BUSINESS WIRE)--Feb. 16, 2012-- Build-A-Bear Workshop, Inc. (NYSE: BBW), an interactive entertainment retailer, today reported results for the 2011 fourth quarter and full year ended December 31, 2011.

Fourth Quarter Fiscal 2011 Highlights:

- Consolidated net retail sales of \$117.1 million represented a 5.8% decline compared to the fourth quarter of 2010, excluding the impact of foreign currency;
- Consolidated comparable store sales declined 4.9% and included a 6.0% decline in North America and a 0.6% decline in Europe;
- Consolidated pre-tax income increased 6.3% to \$9.8 million;
- Loss per share of \$0.56 compared to earnings per diluted share of \$0.42 in the fourth quarter of 2010. Fourth quarter net loss for 2011 included a \$15.6 million non-cash income tax charge, or \$0.93 per share, related to a valuation allowance against net deferred tax assets; and
- Adjusted earnings per diluted share were \$0.34, compared to adjusted earnings per diluted share of \$0.35 in the fourth quarter of 2010 (See Reconciliation of Net Income (Loss) to Adjusted Net Income (Loss)).

Fiscal Year 2011 Highlights

- Consolidated net retail sales of \$387.0 million were essentially flat with fiscal 2010, excluding the impact of foreign currency;
- Consolidated comparable store sales declined 2.1% and included a 2.5% decline in North America and a 0.2% decline in Europe;
- Loss per share of \$0.98 compared to earnings per diluted share of \$0.01 in 2010. Net loss for 2011 included a \$15.6 million non-cash income tax charge, or \$0.88 per share, related to a valuation allowance against net deferred tax assets;
- Adjusted loss per share of \$0.03 compared to adjusted loss per share of \$0.03 in fiscal 2010 (See Reconciliation of Net Income (Loss) to Adjusted Net Income (Loss)); and
- Achieved cost savings of \$3.0 million.

“While our annual net retail sales were essentially flat with the prior year, I am disappointed to report a decrease in our fourth quarter sales after the increases we achieved in the second and third quarters,” stated

Maxine Clark, Build-A-Bear Workshop Chief Executive Bear. “Our key holiday products tied into major theatrical releases, a strategy that has been highly successful for us in the past. However, the films underperformed at the box office, which led to lower consumer demand and negatively impacted our fourth quarter sales and earnings. On a positive note, our gift card sales increased in 2011, reflecting the strength of our experience and the subsequent redemptions have been a benefit for our post-Christmas business.

“We have demonstrated that we have been able to grow our sales both in our stores and online when we have the right product, make it easy for Moms to say yes and deliver our signature Guest experience,” Ms. Clark continued. “We also continue to focus on increasing the efficiency of our business and expect to realize approximately \$9 million in additional cost savings in 2012, a portion of which will offset expected product cost increases and support sales-driving marketing initiatives. We remain confident that our strategies will drive long term value for all Build-A-Bear Workshop stakeholders.”

Fiscal 2011 fourth-quarter (13 weeks ended December 31, 2011 compared to 13 weeks ended January 1, 2011):

- Total revenues were \$119.1 million, compared to \$125.8 million in the fiscal 2010 fourth quarter. The fourth quarter of fiscal 2011 included \$1.5 million in net retail sales due to an adjustment to deferred revenue related to the loyalty program, compared to a \$4.3 million adjustment in the fourth quarter of fiscal 2010. Excluding the impact of foreign exchange, total revenues declined 6.0%.
- Consolidated comparable store sales decreased 4.9%, including a 6.0% decrease in North America and a 0.6% decrease in Europe.
- Net retail sales from European operations totaled \$27.0 million in the 2011 fourth quarter, compared to \$25.5 million in the 2010 fourth quarter, an increase of 5.9%. Excluding the impact of foreign exchange, European operations net retail sales increased 6.2%.
- Consolidated e-commerce sales rose 3.5%, excluding the impact of foreign exchange.
- Consolidated pre-tax income of \$9.8 million increased 6.3% from \$9.2 million in the fiscal 2010 fourth quarter.

Fiscal 2011 full-year (52 weeks ended December 31, 2011 compared to 52 weeks ended January 1, 2011):

- Total revenues were \$394.4 million compared to \$401.5 million in the fiscal 2010. Fiscal 2011 included \$1.5 million in net retail sales due to an adjustment to deferred revenue related to the loyalty program, compared to a \$4.3 million adjustment in fiscal 2010. Fiscal 2010 total revenues included \$6.4 million from non-recurring commercial transactions. Excluding the impact of foreign exchange and the non-recurring commercial transactions in fiscal 2010, total revenues declined 1.2%.
- On a consolidated basis, comparable store sales declined 2.1% and included a 2.5% decline in North America and a 0.2% decline in Europe.
- Net retail sales from European operations totaled \$74.6 million in fiscal 2011, compared to \$69.5 million in fiscal 2010, an increase of 7.3%. Excluding the impact of foreign exchange, European operations net retail sales increased 3.9%.
- Consolidated e-commerce sales rose 8.5%, excluding the impact of foreign exchange.
- Consolidated pre-tax loss was \$2.7 million, compared to a pre-tax loss of \$2.5 million in fiscal 2010.

At year end the Company operated 346 company-owned stores – 288 in North America and 58 in Europe, compared to 290 in North America and 54 in Europe at the end of fiscal 2010. In fiscal 2011, the Company’s international franchisees opened 16 stores, net of closures, finishing the year with 79 stores.

Income Tax Valuation Allowance

In the fourth quarter of 2011, the Company recorded a valuation allowance on its net deferred tax assets in the amount of \$15.6 million. The non-cash charge to establish a valuation allowance does not have any impact on the Company's consolidated operating income or cash flow, nor does such an allowance preclude the Company from using the deferred tax assets in the future. It is also important to note that the establishment of this valuation allowance does not reflect a change in the Company's long-term outlook.

Balance Sheet

The Company ended the year with a strong balance sheet and no borrowings under its revolving credit facility. As of December 31, 2011, cash and cash equivalents totaled \$46.4 million, nearly half of which was domiciled outside the U.S. Inventory at fiscal 2011 year end was \$51.9 million, representing a 12.5% increase on a per square foot basis, as compared to year-end fiscal 2010.

In addition, at year end, the Company renewed its credit facility with US Bank extending the expiration date from December 31, 2012 to December 31, 2013. Availability under the line of credit remains unchanged at \$40 million for the first half of each calendar year with a \$50 million seasonal overline on the line of credit for the second half of each calendar year.

In 2012, the Company expects to open four to six new stores, relocate ten to fifteen stores, remodel approximately five stores in a new design and close fifteen to twenty stores in North America. The Company's capital expenditures will be approximately \$20 to \$25 million in 2012, compared to capital spending of \$12 million in 2011, reflecting this store activity and other investments in infrastructure. Depreciation and amortization will be approximately \$22 million, compared to \$24 million in 2011.

During fiscal 2011, the Company repurchased approximately 2.5 million shares of its common stock at a total cost of \$15 million. At year end, the Company had \$8.7 million of availability under the current stock repurchase program.

2012 Objectives

To increase long-term shareholder value, the Company expects to:

- **Improve store productivity** and profitability by closing fifteen to twenty stores during the year, transferring a percentage of the sales to other stores in the same markets. The Company will also reduce the square footage of select stores by relocating them within the same malls.
- **Introduce a new store design** to enhance the bear-making experience and drive store traffic and sales. The Company expects to open approximately five of these stores in the second half of the year.
- **Increase shopping frequency** by increasing new Guest traffic to its stores, specifically targeting families with children, and by refreshing its loyalty program to increase Guest retention.
- **Reinforce Build-A-Bear Workshop as the top destination for gifts**, capitalizing on its 15th birthday occasion to take this initiative to an entirely new level.
- **Increase the Company's global presence** with the planned opening of ten to twelve additional international franchise locations, net of closures.
- **Improve cost efficiencies** with approximately \$9 million in additional savings expected in fiscal 2012, a portion of which will offset expected product cost increases and support sales-driving marketing initiatives.

Forward-Looking Statements

This press release contains "forward-looking statements" (within the meaning of the federal securities laws) which represent Build-A-Bear Workshop expectations or beliefs with respect to future events. Our actual results may differ materially from the results discussed in the forward-looking statements. These risks and uncertainties include, without limitation, those detailed under the caption "Risk Factors" in our annual report on Form 10-K for the fiscal year ended January 1, 2011, as filed with the SEC, and the following: general global economic conditions may continue to deteriorate, which could lead to disproportionately reduced consumer demand for our products, which represent relatively discretionary spending; customer traffic may decrease in the shopping malls where we are located, on which we depend to attract guests to our stores; we may be unable to generate interest in and demand for our interactive retail experience, or to identify and respond to consumer preferences in a timely fashion; our marketing and on-line initiatives may not be effective in generating sufficient levels of brand awareness and guest traffic; we may be unable to generate comparable store sales growth; the availability and costs of our products could be adversely affected by risks associated with international manufacturing and trade, including foreign currency fluctuation; we may be unable to renew or replace our store leases, or enter into leases for new stores on favorable terms or in favorable locations, or may violate the terms of our current leases; we may be unable to effectively manage the operations, growth and profitability of our company-owned stores; we are susceptible to disruption in our inventory flow due to our reliance on a few vendors; high petroleum products prices could increase our inventory transportation costs and adversely affect our profitability; we may be unable to effectively manage our international franchises or laws relating to those franchises may change; fluctuations in our quarterly results of operations could cause the price of our common stock to substantially decline; we may be unable to repurchase shares of our common stock at the times or in the amounts we currently anticipate or the results of the share repurchase program may not be as beneficial as we currently anticipate; our products could become subject to recalls or product liability claims that could adversely impact our financial performance and harm our reputation among consumers; we may improperly obtain or be unable to protect information from our guests in violation of privacy or security laws or expectations; we may suffer negative publicity or be sued due to violations of labor laws or unethical practices by manufacturers of our merchandise; we may suffer negative publicity or negative sales if the non-proprietary toy products we sell in our stores do not meet our quality or sales expectations; we may lose key personnel, be unable to hire

qualified additional personnel, or experience turnover of our management team; we may be unable to operate our company-owned distribution center efficiently or our third-party distribution center providers may perform poorly; our market share could be adversely affected by a significant, or increased, number of competitors; we may fail to renew, register or otherwise protect our trademarks or other intellectual property; we may have disputes with, or be sued by, third parties for infringement or misappropriation of their proprietary rights; and poor global economic conditions could have a material adverse effect on our liquidity and capital resources. These risks, uncertainties and other factors may adversely affect our business, growth, financial condition or profitability, or subject us to potential liability, and cause our actual results, performance or achievements to be materially different from those expressed or implied by our forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

*** Non-GAAP Financial Measures**

In this press release, the Company's financial results are provided both in accordance with generally accepted accounting principles (GAAP) and using certain non-GAAP financial measures. In particular, the Company provides historic earnings (loss) and earnings (loss) per diluted share adjusted to exclude certain costs and accounting adjustments, which are non-GAAP financial measures. These results are included as a complement to results provided in accordance with GAAP because management believes these non-GAAP financial measures help identify underlying trends in the Company's business and provide useful information to both management and investors by excluding certain items that may not be indicative of the Company's core operating results. These measures should not be considered a substitute for or superior to GAAP results.
