- **First six months consolidated e-commerce sales increase 7.6%**

ST. LOUIS--(BUSINESS WIRE)--Jul. 26, 2012-- Build-A-Bear Workshop, Inc. (NYSE: BBW), an interactive entertainment retailer, today reported results for the second quarter and first six months ended June 30, 2012.

### **Second Quarter 2012 Highlights (13 weeks ended June 30, 2012):**

- Consolidated net retail sales of \$79.0 million represented a 1.8% decrease compared to \$80.4 million in 2011, excluding the impact of foreign exchange;
- Consolidated comparable store sales declined 1.7% and included a 1.8% decrease in North America and a 1.3% decrease in Europe. Second quarter 2012 net revenue and comparable store sales were negatively impacted by the shift of the Easter holiday and associated school vacations, which moved sales into this year's first quarter;
- Consolidated e-commerce sales rose 5.5%, excluding the impact of foreign exchange. This comes on top of a 22.8% increase in the fiscal 2011 second quarter; and
- Pre-tax loss of \$8.3 million improved from a pre-tax loss of \$10.7 million in the fiscal 2011 second quarter.

Maxine Clark, Build-A-Bear Workshop's Chief Executive Bear commented, "Our first six months results show our progress toward our goals with positive comparable store sales in North America, a sequential improvement in quarterly trend in Europe and strong growth in our e-commerce sales. The execution of our key strategies, including disciplined expense control, has driven a solid improvement in our operating performance in the first half of 2012. While the economic environment continues to be challenging, particularly in Europe, we believe the key components of our strategy are on track to post further improvement in sales productivity and profitability.

"In just over a month, we will open our first newly imagined store design in St. Louis with five additional stores opening in major US markets in the following weeks. The new store merges Build-A-Bear Workshop's hands-on bear-making process with the power of technology to provide a magical new experience for our Guests," concluded Ms. Clark.

Inventory per square foot increased 3.3%, as compared to the prior year period.

In 2012, the Company expects to close approximately ten stores including certain temporary and seasonal locations. The Company also expects to remodel or open approximately 20 stores, with six of the stores in its new design. The Company expects capital expenditures to be \$20 million to \$23 million in fiscal 2012 to

support the refresh and repositioning of stores and investment in infrastructure. Depreciation and amortization is expected to be approximately \$22 million.

## Stores

At quarter end the Company operated 345 company-owned stores - 287 in North America and 58 in Europe, as compared to 289 in North America and 53 in Europe at the end of the fiscal 2011 second quarter. The Company's international franchisees opened five stores, net of closures, to end the first six months of the year with 84 stores in 14 countries.

## 2012 Objectives

To increase long-term shareholder value, the Company continues to expect to:

- **Introduce a new store design** to enhance the bear-making experience and drive store traffic and sales. The Company expects to open six of these stores starting in September.
- **Improve store productivity and profitability** by closing select stores during the year, transferring a percentage of the sales to other stores in the same markets. The Company will also reduce the square footage of other stores by relocating them within the same malls.
- **Increase shopping frequency** by increasing new Guest traffic to its stores by rebalancing its marketing messages to include both product and brand, and by refreshing its loyalty program to increase Guest retention.
- **Reinforce Build-A-Bear Workshop as a top destination for gifts**, capitalizing on its 15th birthday occasion to take this initiative to an entirely new level.
- **Increase the Company's global presence** with the anticipated opening of ten to twelve international franchise locations, net of closures in 2012.
- **Improve cost efficiencies** with approximately \$7 to \$9 million in savings in fiscal 2012, a portion of which will offset expected product cost increases and support sales-driving marketing initiatives.
