

MAKING SMILES

2009 ANNUAL REPORT

SHARING SMILES

Every interaction with our beary special brand makes you smile. For kids, it's the empowerment and creativity of making their own stuffed animal friend...from choosing it, making a wish on its heart and creating its personality with hundreds of outfits and accessories. And for moms, it's knowing she can say YES and have fun too because it's a good value. This experience connects families to their new furry friend and to our brand for life. And most importantly makes them...and us...smile.

WELCOME

Our beary fun and interactive stores have a theme-park in a mall like environment with larger-than-life customized teddy bear fixtures and eight interactive bear-making stations.

Company Profile

Build-A-Bear Workshop, Inc. is the leading and only global company that offers an interactive make-your-own stuffed animal retail-entertainment experience. Founded in 1997, the company and its franchisees currently operate more than 400 stores worldwide, including company-owned stores in the United States, Puerto Rico, Canada, the United Kingdom, Ireland and France, and franchise stores in Europe, Asia, Australia, Africa and the Middle East. The company extends its in-store interactive experience online with its award winning virtual world at buildabearville.com.® Build-A-Bear Workshop (NYSE: BBW) posted total revenue of \$394.4 million in fiscal 2009. The company was named to the 2010 & 2009 FORTUNE 100 Best Companies to Work For® list. For more information, call 888.560.BEAR (2327) or visit buildabear.com.®

REAS

ENGAGING GUESTS

In 2009, we made significant advances in our entertainment initiatives with our first-ever television special, "Holly and Hal Moose™: Our Uplifting Christmas Adventure," airing on ABC Family! Engaging kids in our character stories is important to our success and provides a larger opportunity for growth.

BEARY LIMITED® EDITIONS

Seasonal limited-edition animals and outfits are very successful in driving repeat business, gifters and collectors. In addition to these seasonal offerings, we will introduce very limited edition "stories" building demand and sense of urgency throughout the year at non-holiday times.

ENHANCING OUR EXPERIENCE

Christmas 2009, Build-A-Bear Workshop® officially became Santa's Workshop! This fully integrated marketing program engaged shoppers in holiday fun and our brand while they found personalized gifts for everyone on their list. We continue focused themes and storytelling to keep our store experience fresh using powerful store visuals, interactivity and integrated marketing.

WAYS TO SMILE

FURBULOUS FASHIONS

If a trend is big for kids, our bears are wearing it! From peace signs and pink to accessorizing with Pawtracks Players and camera phones, our outfits and accessories are authentic right down to the beary smallest detail.

POWERFUL PARTNERSHIPS

We are aligned with the most powerful and relevant brands in fashion, entertainment and sports, which appeal to both boys and girls. We continue to partner with pop culture icons like Hello Kitty® by Sanrio®, and successful movie franchises like Star Wars™ and Alvin and the Chipmunks®.

BUILD-A-BEARVILLE®

Our virtual world builds synergies between our real world and online experiences, provides monetization opportunities and increases Guest engagement. The value of the transactions from animals brought to life online exceeded \$64 million in 2009, and traffic and time spent on the site continues to grow.

GIFTS STUFFED WITH HEART

We have personalized, huggable and unforgettable gifts for all occasions and we are capturing more everyday gifting throughout the year. For those short on time, but still wanting a high-quality unique gift, we offer quick, pre-packaged stuffed animal gifts and also our easy to shop Web site at buildabear.com®.

INTERNATIONAL

We are a powerful global brand with broad appeal across many demographics, ages and cultures. We believe continued strength in our European operations and opportunities in both existing and new stores, particularly in the UK and Ireland, are key to our future global growth.

LETTER TO SHAREHOLDERS

Dear Shareholders,

As we began 2009, we expected a challenging year given the difficult global economy, but I am pleased to report that Build-A-Bear Workshop® made steady progress toward achieving our long-term goals. Even with considerable uncertainty on the part of consumers, our stores remained a special place where people came to experience our beary fun world. As our Guests became more focused on necessities and saving money, we delivered millions of smiles by giving Moms more value with product that was priced right, by offering special promotions during periods of high mall traffic, and by engaging kids in fun and exciting new products and events.

As a company, we focused on cost savings and cash management, as we cut back store openings and capital expenditures. Even though we made considerable cuts and changes on the business side, we maintained our fun and engaging experience for our Guests. In 2009 nearly 80 percent of all Guests gave us the top score on overall satisfaction! We were proud to be named to the Fortune 100 Best Places to Work For® list for the second year in a row. We also invested in key talent, naming John Haugh as President and Chief Marketing and Merchandising Bear.

As we move into 2010, we believe our brand is stronger than ever, our financial position is solid and our initiatives are showing continued signs of success.

Our 2009 financial results

- In total, revenues were \$394.4 million and net loss adjusted for certain charges was \$0.10 per share.
- We ended the year with 410 stores, 291 in North America, 54 in Europe and 65 franchise locations.

- In North America, our comparable store sales results improved every quarter from a low of minus 20.5 percent in the first quarter finishing the year at negative 13.3 percent in the fourth quarter. We are pleased to report that this trend continued to improve in the first quarter of 2010.
- We continued to show strength in our European operations. Total revenues were up 9.0 percent, excluding the impact of foreign exchange, and comparable store sales increased by 5.0 percent.
- Through the hard work of our Associates, we saved \$25 million, exceeding our original goal of \$15 million. This savings included \$22 million in lower selling, general and administrative expenses.
- We ended the year with a strong balance sheet that included \$60.4 million in cash, an 11.3 percent reduction in inventory per square foot and we maintained a debt free balance sheet under our revolving credit facility, which we extended until December 31, 2011.

In 2009, we focused on improving our sales trends by showing Moms and kids that Build-A-Bear Workshop® is an affordable, fun and creative place to go. At a time when families were making fewer trips to the mall, we focused our marketing and events around times when kids were out of school to capitalize on mall traffic. Also, knowing that kids were not able to come to the mall as often, we kept them engaged in our brand through our virtual world buildabearville.com.®

We are confident that going into 2010 our brand is strong and well positioned in consumers' minds.

Where we are headed in 2010

Let me walk you through our five key strategies for this year:

■ ***First, we will increase the sales impact of our new products with larger launches, increased in-store excitement and heightened visual presence.***

While we will introduce a similar total number of new animals as in 2009, we will engage our Guests through storytelling and collection building. For example, in April our stores will transform into an enchanted kingdom to showcase our new dragon and pony collection. Guests receive a crown, are "knighted," hear "announcements from the joust" over our in-store radio and more fun. Our Guests and our stuffed animal friends become part of the story.

We ended the year with a strong balance sheet that included \$60.4 million in cash, an 11.3 percent reduction in inventory per square foot and we maintained a debt free balance sheet.

These stories will be created at key times throughout the year with innovative products, larger-than-life signage, music and sound effects, and increased interactivity. As a result, each launch is expected to have higher impact as we focus our inventory and improve price points to drive margin and average transaction amount.

■ ***Our second strategy is to increase conversion and grow transactions with fully aligned product, marketing and operations teams.***

In addition to in-store and product components, we will focus our media and marketing efforts on these collections with a two-pronged approach. We will get kids wanting and talking about our latest hot products. We will show Moms our value and give them a chance to be heroes and say YES about a visit to Build-A-Bear Workshop.

We are confident that going into 2010 our brand is strong and well positioned in consumers' minds.

While we have made significant reductions in our marketing spend to meet our cost savings goals, we are reallocating, using traditional and new media to create a sense of urgency and increased call to action.

- ***Our third strategy is to give people more reasons to come to Build-A-Bear Workshop®! We are expanding our leadership in the experiential toy business with products that reinforce our brand values and broaden our appeal.***

Our first such expansion was Zhu Zhu Pets™ — 2009 Toy of the Year by the Toy Industry Association — and a perfect example of a toy that complements our brand and product line. In addition to products sold at other locations, we will soon carry exclusive items, which tie into Build-A-Bearville® to engage Zhu Zhu shoppers even further with our brand.

We are being very strategic and closely monitoring our Guest reaction, sales metrics and overall results. So far, the average transaction with Zhu Zhu Pets product has been consistent with our historical average transaction. While merchandise margin for this product range has been below our own animals, we expect to drive higher overall profit dollars and enhance our bottom line.

- ***Our fourth strategy is to make it easier for adults to shop at buildabear.com® and even more engaging for kids to play in Build-A-Bearville.***

We began a positive web sales trend in December 2009 that has continued into 2010. To capitalize on this forward momentum, we plan to make buildabear.com easier to navigate, shop, and find the perfect gift for every occasion.

In our virtual world, we will focus on increasing membership, look for new ways to monetize the site to increase store revenue and sell virtual goods, and develop a deeper relationship with our brand.

Our research has shown that one out of every three Guests visit Build-A-Bearville before visiting our store. Over 40 percent of all animals registered in our stores by girls aged eight to 11 are brought to life online in Build-A-Bearville. Traffic to Build-A-Bearville rose throughout 2009 and that trend has continued in 2010.

■ ***Our fifth strategy is to expand our products and revenues from other sources, such as licensing and entertainment.***

We were so excited when “Holly and Hal Moose™: Our Uplifting Christmas Adventure,” aired on ABC Family during the 2009 holiday season! Not only because it was our first character-inspired story on its way to becoming a Christmas classic, but because we know that it was just the beginning of a larger opportunity.

Licensing is an important part of our global brand strategy. We intend to develop an expanded line of license merchandise that will be sold outside our stores. We also plan to develop multi-media entertainment and produce original programming with exclusive Build-A-Bear Workshop® properties.

While we are excited about the growth strategies I’ve outlined and the ongoing improvement in our results, we also recognize that the consumer is still a bit nervous about spending and the economic outlook remains uncertain. We will continue to focus on making additional strategic cost reductions. In 2009 our capital allocation strategy was to use our cash prudently, and stay both unleveraged and liquid in order to position us strongly for the future. We believe this strategy enabled us to end 2009 in a strong financial position. In 2010, we

have planned a modest number of new store openings, limited infrastructure investment, and we will continue to evaluate ways to utilize cash while maintaining a strong balance sheet.

Holding true to our core values and focusing on our Guests has guided us through these turbulent times. As we begin 2010, the actions we are taking will enable us to improve profitable sales trends and increase value for our shareholders.

Finally, I would like to thank each of our Associates for your dedicated commitment during a challenging year. I would also like to thank Joan Ryan, who will retire from our Board of Directors at the end of her term in May, for her service, expertise and commitment. And most importantly, thanks to our pawsome Guests for sharing your smiles, your stories and your love of our beary special brand. We continue to find great inspiration in the thousands of smiles that we are privileged to share every single day.

Beary Best Regards,

Maxine Clark

Forward-Looking Statements

This Annual Report on Form 10-K contains certain statements that are, or may be considered to be, "forward-looking statements" for the purpose of federal securities laws, including, but not limited to, statements that reflect our current views with respect to future events and financial performance. We generally identify these statements by words or phrases such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "intend," "predict," "future," "potential" or "continue," the negative or any derivative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about us, may include, among other things, projections or statements regarding:

- our future financial performance;
- our anticipated operating and growth strategies;
- our future capital expenditures;
- our anticipated rate of store openings;
- our anticipated store opening costs; and
- our franchisees' anticipated rate of international store openings.

These statements are only predictions based on our current expectations and projections about future events. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our

actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by these forward-looking statements, including those factors discussed under the caption entitled "Risk Factors" as well as other places in this Annual Report on Form 10-K.

We operate in a competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all the risk factors, nor can it assess the impact of all the risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not place undue reliance on forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K, as a prediction of actual results.

You should read this Annual Report on Form 10-K completely and with the understanding that our actual results may be materially different from what we expect. Except as required by law, we undertake no duty to update these forward-looking statements, even though our situation may change in the future. We qualify all of our forward-looking statements by these cautionary statements.

PART I

ITEM 1. BUSINESS

OVERVIEW

Build-A-Bear Workshop, Inc., a Delaware C corporation, was formed in 1997 and is the leading, and only international company providing a “make your own stuffed animal” interactive retail-entertainment experience. As of January 2, 2010, we operated 345 company-owned retail stores in the United States, Canada, the United Kingdom, Ireland, and France including 291 Build-A-Bear Workshop® stores in the United States and Canada, 51 Build-A-Bear Workshop stores in the United Kingdom and Ireland and three Build-A-Bear Workshop stores in France. In addition, franchisees operated 65 Build-A-Bear Workshop stores in other international locations. Our core concept is based on our guests making, personalizing and customizing their own stuffed animals, and capitalizes on what we believe is the relatively untapped demand for experience-based shopping as well as the widespread appeal of stuffed animals.

We offer an extensive and coordinated selection of merchandise, including over 30 different styles of animals to be stuffed and a wide variety of clothing, shoes and accessories for the stuffed animals. Our concept appeals to a broad range of age groups and demographics, including children, teens, parents and grandparents. We believe that our stores, which are primarily located in malls, are destination locations and draw guests from a large geographic reach. Our stores average approximately 2,700 square feet in size and have a highly visual and colorful appearance, including custom-designed fixtures featuring teddy bears and other themes relating to the Build-A-Bear Workshop experience.

We also market our products and build our brand awareness and equity in our countries of operation through national multi-media marketing programs that target our core demographic guests, principally parents and children. The program incorporates consistent messaging across a variety of media, and is designed to increase our brand awareness and store traffic and attract more first-time and repeat guests. In addition, our virtual world Web site, buildabearville.com®, promotes brand connection and in-store products and events with branded games, activities and social connectivity features.

Since opening our first store in St. Louis, Missouri in October 1997, we have sold over 80 million stuffed animals. We have grown our store base from 271 stores at the end of fiscal 2006 to 345 as of January 2, 2010.

On March 10, 2008, we announced that the Board of Directors had authorized an increase in our share repurchase program to up to \$50 million. On March 3, 2009, we

announced a twelve month extension of our share repurchase program. On March 3, 2010, we announced an additional extension of our share repurchase program to March 31, 2011.

DESCRIPTION OF OPERATIONS

Guests who visit Build-A-Bear Workshop stores enter a teddy bear-themed environment consisting of eight stuffed animal-making stations: Choose Me, Hear Me, Stuff Me, Stitch Me, Fluff Me, Dress Me, Name Me, and Take Me Home®. To attract our target guests, we have designed our stores to provide a “theme park” destination in the mall that is open and inviting with an entryway that spans the majority of our storefront and highly visual and colorful teddy bear themes and displays. The duration of a guest’s experience can vary greatly depending on his or her preferences. While most guests choose to participate in the full animal-making process and all eight stations, a process which we believe averages 45 minutes to complete, guests can also visit a Build-A-Bear Workshop store and purchase items such as clothing, accessories, our Bear Buck\$® gift certificates, Bearville Outfitters® game cards to buy items in our virtual world or pre-made animals in only a few minutes. We also offer a wide variety of animals and accessories on our e-commerce Web site, buildabear.com.

We offer an extensive and coordinated selection of merchandise including approximately 30 to 35 varieties of animals to be stuffed, as well as a wide variety of other clothing and accessory items for the animals. Our clothing is inspired by human fashion and includes authentic details such as functional buttons, working pockets, belt loops and zippers and has child-friendly, easy-to-dress details such as an opening for the stuffed animal’s tail and adjustable closures to help fit any size animal. We enhance the authentic nature of a number of our products with strategic product licensing relationships with brands that are in demand with our guests such as officially sanctioned NFL®, NBA®, MLB® and FIFA™ team apparel, Skechers® shoes and Justice® clothing. We also tap into pop culture that is relevant to our guests by featuring merchandise such as the iCarly bear or Alvin and the Chipmunks® stuffed animals. There are approximately 450 SKUs in our store at any one time and we intend for each item to be highly productive.

While our concept is a unique combination of experience and product, we selectively promote seasonal products with special offers and promotions intended to maximize sales at peak traffic periods in the year. We expect to build upon our product and store promotions to drive store visits and conversion of shoppers. We also offer frequent shopper discounts associated with our Stuff Fur Stuff® club loyalty program and selectively use coupons and gift-with-purchase promotions to drive traffic to our stores.

GROWTH STRATEGY

Our growth strategy is to develop and expand the reach of the Build-A-Bear Workshop brand. Product innovation is key to our growth, as well as the full integration of our product, marketing and operations teams. We believe this will create a sense of urgency to drive traffic to our stores, increase conversion and improve sales. Additional toy products outside of our core plush animals, yet consistent with our interactive and hands-on experience, will be added to our assortment. We will continue to grow our virtual world engagement, as well as improve our online and e-commerce business. In addition, we are exploring new opportunities for our products to be sold outside of our current store base. We expect to grow our business by opening additional stores in the United States, Canada, the United Kingdom and Ireland, by the addition of new international stores opened through existing and new franchise agreements, and through the development of third party licensed products that promote Build-A-Bear Workshop as a lifestyle brand and build overall brand awareness.

We have increased our company-owned store locations throughout the United States, Canada and Puerto Rico from 271 at the end of fiscal 2006 to 291 as of January 2, 2010. In April 2006, we acquired Amsbra Limited, our former franchisee in the United Kingdom, as well as The Bear Factory Limited (collectively, the UK Acquisition), a stuffed animal retailer in the United Kingdom whose store locations we subsequently rebranded to the Build-A-Bear Workshop brand. In 2007, we discontinued our franchise agreement in France and opened our first company-owned stores there. As of January 2, 2010, we operated 51 stores in the United Kingdom and Ireland and three stores in France all under the Build-A-Bear Workshop brand. Due primarily to challenging economic conditions in North America and Europe, in fiscal 2010, we expect to open one new store in North America, the same as in 2009, and two new stores in Europe, compared to opening no new stores in 2009. We believe there is a market potential for at least 350 Build-A-Bear Workshop stores in North America and approximately 70 in the United Kingdom and Ireland. In addition, we also currently operate Build-A-Bear Workshop stores in non-traditional retail locations including four Major League Baseball® ballparks, one store located in the Saint Louis Zoo and one store in a museum at the St. Louis Science Center. Build-A-Bear Workshop stores are also operated within select Rain Forest Café® and T-Rex Café locations under licensing agreements with Landry's® Restaurants.

We believe that there is continued opportunity to grow our Build-A-Bear Workshop concept and brand outside of North America, the United Kingdom, Ireland and France primarily through franchise agreements. Our goal is to have franchisees that are well capitalized and bring extensive retail and/or real estate experience. Our franchisees currently

operate 65 Build-A-Bear Workshop stores in several foreign countries under master franchise agreements on a country-by-country basis. We expect our franchisees to open approximately three new stores in fiscal 2010, net of closures, under existing and anticipated franchise agreements. We believe there is a market potential for approximately 300 franchised stores outside North America, the United Kingdom, Ireland and France. Although we expect to continue to open international stores primarily through franchise agreements, we may open additional company-owned stores outside of the United States, Canada, Puerto Rico, the United Kingdom, Ireland and France, as our international plans adjust as our expansion continues.

We believe there are also growth opportunities to sell Build-A-Bear Workshop products in other retail stores. Over the past 13 years, we have established our store as a place where children can have a hands-on experience, express their creativity and use their imagination. We believe our brand is one that parents value and trust and kids love. We believe that our expertise in product development and the reputation and quality of our brand will drive sales of plush and other branded products in locations other than our own stores. We expect to be able to leverage our extensive guest database to market these new products and build demand for them.

We hold a minority interest in Ridemakerz, LLC (previously Retail Entertainment Concepts, LLC). Ridemakerz® is an early-stage company that has developed an interactive retail concept that allows guests, or customizers, to build and personalize their own model cars. The concept capitalizes on the universal love of cars and a widely popular car culture that crosses ages and demographics, although the primary targets are children and their families. In 2009, Ridemakerz undertook a major restructuring of its operations that included significant store closings. As of January 2, 2010, Ridemakerz operated six stores, including one temporary location in Downtown Disney® District at the Disneyland® Resort in Anaheim, California and one store that closed in January 2010. We are currently providing advisory and support services to Ridemakerz in exchange for additional equity. In 2009, we wrote off our entire equity method investment and receivable balance while Ridemakerz continues to develop their repositioning strategies.

In fiscal 2003, we began testing in certain markets a proprietary collection of Friends 2B Made® make-your-own dolls and related products. In the fiscal 2008 third quarter, we announced plans to close the Friends 2B Made concept. The closure plan affected our nine Friends 2B Made locations, separate Friends 2B Made fixtures in approximately 50 Build-A-Bear Workshop stores, and the concept's website. As of January 2, 2010, all Friends 2B Made locations were closed. Eight of these locations were in or adjacent to a Build-A-Bear Workshop store and were not considered a separate store.

In response to an emerging trend of kids' interaction and play increasingly occurring in the online space, in 2007 we updated our virtual world Web site used primarily by children, buildabearville.com[®], and we continue to enhance the site. The site is highly complementary to our store experience and positively enhances our core brand values while offering activity options and features that are tied back to in-store events. We believe that the launch of our "virtual world" Web site is a critical business strategy to further enhance our brand appeal with children and grow our store sales and that we have a unique competitive advantage over other virtual world products due to our ability to provide both real world and virtual world experiences. We also believe the virtual world platform enhances our entertainment options. For example, in 2008 we introduced our stuffed animals Holly & Hal Moose[®] and their storybook. While the book was distributed through our stores and e-commerce websites, the virtual world allowed us to promote the characters and feature animated "webisodes" of the story for children to view throughout the holiday season. In 2009, the webisodes were expanded into a full length holiday TV special that aired on national television in the United States exposing our brand to millions of viewers.

We also believe that we will be able to generate revenue directly related to the sale of products used exclusively on line in the virtual world space. Our research has shown that one out of every three guests visit Build-A-Bearville before visiting our store and that over 40% of all animals registered in our stores by our key demographic come on-line at Build-A-Bearville, enhancing value for parents and engagement for kids. In 2008, we introduced the first virtual world products which are sold on-line and in our stores and in 2009 we expanded the offerings to include additional game cards as well as monthly and annual subscriptions to the site. Game cards can be used to buy exclusive virtual items, including rides, homes, furniture, clothing and accessories. Online subscriptions provide monthly credits and bonuses to members.

PRODUCT DEVELOPMENT

Through our in-house design and product development team, we have developed a coordinated, creative and broad merchandise assortment, including a variety of animals, clothing, shoes and accessories. We believe our merchandise is an integral part of our concept and that the proprietary design of many of the products we offer is a critical element of our success, while the authentic and fashionable nature of our products greatly enhances our brand's appeal to our guests. Our product development team regularly monitors current fashion and cultural trends in order to create products that we believe are most appealing to our guests, often reflecting

similar styling to the clothes our guests wear themselves. We test our products on an ongoing basis to ensure guest demand supports order quantities. Through our focused vendor relationships, we are able to source our merchandise in a manner that is cost-effective, maximizes our speed to market and facilitates rapid reorder of our best-selling items.

Our stuffed animal skins and clothing are produced from high quality man-made materials or natural fibers such as cotton, and the stuffing is made of a high-grade polyester fiber. We believe all of our products meet Consumer Product Safety Commission requirements including the Consumer Product Safety Improvement Act (CPSIA) for Children's Products. We also comply with American Society for Testing and Materials (ASTM), EN71 (European standards) and Canadian specifications for toy safety in all material respects. Our products are tested through an independent third-party testing lab for compliance with toy safety standards. We believe we comply with toy safety government requirements specific to each country where we have stores. Packaging and labels for each product tell our guests the age grading for the product and any special warnings in accordance with guidelines established by the Consumer Product Safety Commission.

Plush animals are not likely to contain lead, which is found in paint and surface coatings. In rare instances, a plush animal may be airbrushed or have painted eyes, and in some cases our bear clothing and accessories have screen prints that are paint. In all cases, we take steps to assure that our products meet or exceed all toy safety standards. The CPSIA, EN71 and Canadian Toy Safety Regulations specifically limit lead content in products. We believe we comply with these regulations.

We notify guests when a product contains a magnet with our "I have a magnet" product hangtag or sticker. In most cases, the magnets utilized in our products are embedded inside a toy (animal, scarf or plush accessory). They are not loose or easily detached as free magnets.

Our products have earned the Good Housekeeping Seal of Approval. The Good Housekeeping Seal, introduced in 1909, is earned by products that pass Good Housekeeping Institute review and is one of America's most trusted consumer icons assuring consumers of a quality product. Seal-backed products are covered by Good Housekeeping's two-year money-back warranty.

We expect to expand our product assortment and our leadership in the toy industry by offering toy products in addition to our core plush animals that are consistent with our interactive and hands-on experience to increase guest visits and give guests additional reasons for purchasing at Build-A-Bear Workshop stores. We believe the addition of complementary toy products will allow us to drive sales, transaction value and overall profitability.

MARKETING

We believe that the strength of the Build-A-Bear Workshop brand is a competitive advantage and an integral part of our business strategy. Unlike other mall-based retailers that frequently use markdowns or sale events to drive sales, at Build-A-Bear Workshop we use value-added marketing to raise brand awareness and drive traffic to our stores and make strategic use of markdowns. Our goal is to continue to build brand recognition as a destination that provides affordable, experience-based retail stores that appeal to a broad range of age groups and demographics.

Since February 2004, we have utilized a fully integrated marketing program that includes direct marketing, online advertising, and other components as well as national television advertising in the United States. Our advertising expenditures were \$24.4 million (6.3% of net retail sales) in fiscal 2009, \$33.4 million (7.2% of net retail sales) in fiscal 2008 and \$34.7 million (7.4% of net retail sales) in fiscal 2007, reflecting the continuation and further refinement of our marketing initiatives.

We employ a variety of different marketing tools and programs to drive traffic to our stores and raise brand awareness. We use television advertising that targets both children and adults to keep our experience and Build-A-Bear Workshop products top of mind, and periodically feature specific new product introductions and promotions as a call-to-action to visit our stores. We also have used radio, print and online advertising integrating our message across various touch points to maximize our reach to new and existing guests. We leverage the database from our Stuff Fur Stuff club loyalty program of over four million active members in our direct mail and e-mail programs and provide information and e-commerce on our website, www.buildabear.com. In 2009, we expanded our use of social media to better reach our mom target audience.

In 2007, we created a new extension of our experience in the virtual world, buildabearville.com, with enhanced capabilities customization options and social connectivity features which we use to promote brand connection and raise awareness of in-store products and events.

Our Stuff Fur Stuff club electronically-tracked loyalty program was introduced in the United States in 2007 and rolled out to Canada in 2008. The program is designed to reward repeat guest visits. The program currently provides one point for each \$1 spent, with a \$10 discount certificate awarded for every 100 points. The data collected gives us insight into the overall purchasing history of members including visit frequency, items purchased and amounts spent on each visit and cumulatively over time. We continue to leverage this information and improve our direct mail effectiveness and response rates through additional targeting

and personalization of communications and offers. We launched a version of the Stuff Fur Stuff program in the United Kingdom in fall of 2008.

We leverage our marketing initiatives including direct mail and e-mail communication programs, print advertising, in-store events and public relations in our European operations to raise brand awareness in our countries of operation and drive traffic to our store locations. We expect to continue to expand and enhance our European marketing initiatives to continue to grow our business.

LICENSING AND STRATEGIC RELATIONSHIPS

We have developed licensing and strategic relationships with some of the leading retail and cultural organizations in North America and Europe. We believe that our guest base and our position in our industry category makes us an attractive partner and our customer research and insight allows us to focus on strategic relationships with other companies that we believe are appealing to our guests. We plan to continue to add strategic relationships on a selective basis with companies that have strong, family-oriented brands and provide us with attractive marketing and merchandising opportunities. These relationships for specific products are generally reflected in contractual arrangements for limited terms that are terminable by either party upon specified notice.

Product and Merchandise Licensing. We have key strategic relationships with select companies, including World Wildlife Fund US and Canada, Skechers, Sanrio®, the NBA, the WNBA®, MLB, Justice stores, Disney®, NFL, the NHL®, FIFA and First Book®, in which we feature their brands on products sold in our stores. These strategic relationships allow both parties to generate awareness around their brands. We have also offered selected character-oriented products including Disney's JONAS, Fox's Alvin and the Chipmunks, The Squeakquel, Nickelodeon's iCarly as well as the classic movie character, Frosty the Snowman®.

Promotional Arrangements. We have also developed promotional arrangements with select organizations. Our arrangements with Major League Baseball teams, including the Chicago Cubs®, St. Louis Cardinals™ and New York Mets® have featured stuffed animal giveaways at each club's ballpark on a day in which our brand is highly promoted within the stadium. In 2009 and 2007, we partnered with McDonald's® to feature limited edition, collectible mini Build-A-Bear Workshop animals in Happy Meals®. We also have had arrangements featuring product sampling, cross promotions and shared media with companies such as Macy's and Shutterfly as well as targeted promotions with key media brands like National Geographic Kids®, Good Housekeeping and Radio Disney.

Third Party Licensing. We have entered into a series of licensing arrangements with leading manufacturers to develop a collection of lifestyle Build-A-Bear Workshop branded products including children's furniture, fruit snacks, Nintendo® games, scrapbooking products and craft kits. We believe that each of these initiatives has the potential to enhance our brand, raise brand awareness, and drive increased revenues and profitability. We select companies for licensing relationships that we believe are leaders in their respective sectors and that understand and share our strategic vision for offering guests exciting and interactive merchandise. We have policies and practices in place intended to ensure that the products manufactured under the Build-A-Bear Workshop brand adhere to our quality, value and usability standards. We have entered into or maintained licensing arrangements for our branded products with leading manufacturers including Pulaski Furniture, ConAgra Foods, The Game Factory, Colorbok and Ellison Educational. Many of our licensed products include a tie-in with our interactive Web site, buildabearville.com.

INDUSTRY AND GUEST DEMOGRAPHICS

While Build-A-Bear Workshop offers consumers an interactive and personalized experience, our tangible product is stuffed animals, including our flagship product, the teddy bear, a widely adored stuffed animal for over 100 years. According to data published by the Toy Industry Association and The NPD Group, sales of the traditional toy market were \$22.2 billion in the United States (excluding video games) in 2008 with plush and doll sales having a combined 20% share of the traditional toy market. According to further data provided by The NPD Group, worldwide toy sales topped \$71.96 billion dollars in 2007. Build-A-Bear Workshop ranks as the ninth largest toy retailer for retailers with continuing operations as published by Playthings Magazine.

Our guests are diverse, spanning broad age ranges and socio-economic categories. Major guest segments include families with children, primarily ages three to twelve, grandparents, aunts and uncles, teen girls who occasionally bring along their boyfriends and child-centric organizations looking for interactive entertainment options such as scouting organizations and schools. Based on information compiled from our guest database for 2009, the average age of the recipient of our stuffed animals at the time of purchase is nine years old and children aged one to fourteen are the recipients of approximately 80% of our stuffed animals.

According to the United States Census Bureau, in 2006 there were over 60 million children age 14 and under in the United States. The size of this population group is projected to remain relatively stable over the next decade. Industry sources estimate direct spending by children in the United States at over \$50 billion annually and that parents and family members spend an additional \$170 billion annually on

children. In addition, children influence billions of dollars in other family spending.

EMPLOYEES AND TRAINING

In January 2010, we were recognized by Fortune magazine for the second consecutive year as one of 100 Best Companies to Work For. We believe that this honor is the result of our commitment to providing a great experience for our diverse team of associates as well as our guests. We have a distinctive culture that we believe encourages contribution and collaboration. We take great pride in our culture and feel it is critical in encouraging creativity, communication, and strong store performance. All store managers receive comprehensive training through our Bear University program, which is designed to promote a friendly and personable environment in our stores and a consistent experience across our stores. We extensively train our associates on the bear-making process and the guest experience. In fiscal 2009, we hired less than 2% of applicants for store manager positions. We focus on employing and retaining people who are friendly and focused on guest service. Our high employee retention rates contribute to the consistency and quality of the guest experience. Our store teams are evaluated and compensated not only on sales results but also the results from our regular guest satisfaction surveys. Each store has a recognition fund so that exceptional guest service can be immediately recognized and rewarded. We are committed to providing compensation structures that recognize individual accomplishments as well as overall team success.

As of January 2, 2010, we employed approximately 1,100 full-time and 5,000 part-time employees. We divide our store base into four geographic regions, with the United Kingdom, Ireland and France representing one of those regions. The regions are supervised by our Chief Operations and Financial Bear and four Regional Workshop Directors. Bearitory Leaders are responsible for each of our 31 bearitories consisting of on average, 11 stores. Historically, each of our stores generally has had a full-time Chief Workshop Manager and one full-time Assistant Workshop Manager in addition to hourly Bear Builder® associates, most of whom work part-time. The number of part-time employees fluctuates depending on our seasonal needs. In addition to the approximately 5,800 employees at our store locations, we employ approximately 200 associates in general administrative functions at our World Bearquarters in St. Louis, Missouri, approximately 100 associates at our Bearhouse distribution center in Groveport, Ohio, and approximately 30 associates in our European Bearquarters in Windsor, England. We are committed to innovation and invention and generally have confidentiality agreements with our employees and consultants. Store managers and Bearquarters associates pass specific profile assessments. None of our employees are represented by a labor union, and we believe our relationship with our employees is good.

INTERNATIONAL FRANCHISES

In 2003, we began to expand the Build-A-Bear Workshop brand outside of the United States, opening company-owned stores in Canada and our first franchised location in the United Kingdom. As of January 2, 2010, there were 65 Build-A-Bear Workshop franchised stores located in the following countries:

Japan	10
South Africa	9
Denmark	9
Australia	8
Germany	7
Thailand	6
Singapore	4
Russia	3
Norway	3
Other	6

All stores outside of the U.S., Canada, the United Kingdom, Ireland and France are currently operated by third party franchisees under separate master franchise agreements covering each country. Master franchise rights are typically granted to a franchisee for an entire country or group of countries for a specified term. The terms of these master franchise agreements vary by country but typically provide that we receive an initial, one-time franchise fee and continuing royalties based on a percentage of sales made by the franchisees' stores. The terms of these agreements range up to 25 years with a franchisee option to renew for an additional term if certain conditions are met. All franchised stores have similar signage, store layout and merchandise characteristics to our company-owned stores. Our goal is to have well-capitalized franchisees with expertise in retail operations and real estate in their respective country. We work in conjunction with our franchisees in the development of their business, marketing and store growth plans. We approve all franchisees' orders for merchandise and have oversight of their operational and business practices in an effort to ensure they are in compliance with our standards. We expect our current and anticipated franchisees to open approximately three new stores, net of closures, in fiscal 2010 in both existing and new countries.

SOURCING AND INVENTORY MANAGEMENT

We do not own or operate any manufacturing facilities. Our animal skins, stuffing, clothing and accessories are produced by factories located primarily in China. We purchased approximately 80% of our inventory in fiscal 2009, approximately 81% in fiscal 2008 and approximately 82% in fiscal 2007 from three long standing vendors. After specifying the details and requirements for our products, our vendors contract orders with multiple manufacturing facilities in China that are approved by us in accordance with our quality control and labor standards. Our supplier factories are compliant with the International Council of Toy Industries (ICTI) CARE certification.

The CARE (Caring, Awareness, Responsible, Ethical) Process is the ICTI program to promote ethical manufacturing, in the form of fair labor treatment, as well as employee health and safety, in the toy industry supply chain worldwide. Its initial focus is in China, where 70 percent of the world's toy volume is manufactured. In order to obtain this certification each factory completed a rigorous evaluation performed by an accredited ICTI agent. Our suppliers can be used interchangeably as each has a sourcing network for multiple product categories and can expand its factory network as needed. Our relationships with our vendors generally are on a purchase order basis and do not provide a contractual obligation to provide adequate supply or acceptable pricing on a long-term basis.

The average time from the beginning of production to arrival of the products into our stores is approximately 90 to 120 days. Our weekly tracking and reporting tools give us the capability to adjust to shifts in demand. Through an ongoing analysis of selling trends, we regularly update our product assortment by increasing quantities of productive styles and eliminating orders of less productive items. Our distribution centers provide further logistical efficiencies for delivering merchandise to our stores.

DISTRIBUTION AND LOGISTICS

We have a 350,000-square-foot distribution center near Columbus, Ohio which replaced the third-party warehouse as well as a smaller third-party distribution center previously used in Los Angeles, California. We continue to have a third-party distribution center in Toronto, Canada under an agreement that may be terminated with 120-day notice or when no work has been performed for 180 days. In Europe, we contract with a third-party distribution center in Selby, England under a renewable annual agreement.

Transportation from the warehouses to the stores is managed by several third-party logistics providers. In the United States and Canada, merchandise is shipped by a variety of distribution methods and the method is alternated depending on the store and seasonal inventory demand. Key delivery methods are direct trucks through third-party pool points, 'LTL' (less-than truck load) deliveries, and direct parcel deliveries. Shipments from our third-party distribution centers are scheduled throughout the week in order to smooth workflow and stores that are part of the same shipping route are grouped together to reduce freight costs. All items in our assortment are eligible for distribution, depending on allocation and fulfillment requirements, and we typically distribute merchandise and supplies to each store once a week on a regular schedule, which allows us to consolidate shipments in order to reduce distribution and shipping costs. Back-up supplies, such as Cub Condo® carrying cases and stuffing for the animals, are often stored in limited amounts at the local pool points.

MANAGEMENT INFORMATION SYSTEMS AND TECHNOLOGY

Technology is a key component of our business strategy, and we are committed to utilizing technology to enhance our competitive position. Our information and operational systems utilize a broad range of both purchased and internally developed applications which support our guest relationships, marketing, financial, retail operations, real estate, merchandising, and inventory management processes. Our employees can securely access these systems over a company-wide network. Sales, daily deposit and guest information are automatically collected from the stores' point-of-sale terminals and kiosks on a near real time basis. We have developed proprietary software including domestic and international versions of our Name Me kiosk, which populates our Find-A-Bear® identification system, and our party scheduling system. Data from these systems are used to support key decisions in all areas of our business, including merchandising, allocation and operations.

We regularly evaluate strategic information technology initiatives focused on competitive differentiation, support of corporate strategy and reinforcement of our internal support systems. Our critical systems are reviewed on a regular basis to evaluate disaster recovery plans and the security of our systems.

COMPETITION

We view our Build-A-Bear Workshop experience as a distinctive combination of entertainment and retail. Because we are mall-based, we see our competition as those mall-based retailers that compete for prime mall locations, including various apparel, footwear and specialty retailers. We also compete with toy retailers, such as Wal-Mart, Toys "R" Us, Target, Kmart and Sears and other discount chains, as well as with a number of companies that sell teddy bears and dolls in the United States, including, but not limited to, Ty, Fisher Price, Mattel, Ganz, Russ Berrie, Applause, Boyd's, Hasbro, Commonwealth, Gund and Vermont Teddy Bear. Since we sell a product that integrates merchandise and experience, we also view our competition as any company that competes for our guests' time and entertainment dollars, such as movie theaters, amusement parks and arcades, other mall-based entertainment venues and on line entertainment.

We are aware of several small companies that operate "make your own" teddy bear and stuffed animal stores or kiosks in retail locations, but we believe none of those companies offer the breadth and depth of the Build-A-Bear Workshop experience or operate as a national or international retail company.

We also believe that there is an emerging trend within children's play patterns towards internet and online play. According to Emarketer.com, kids aged 8 to 11 reported that they spend between one and two hours online each day. In 2007, 24% of US child and teen Internet users visited virtual worlds. By 2011, an estimated 53% will do so. Therefore, we believe we compete with other companies and internet sites

that vie for children's attention in the online space including webkinz.com, clubpenguin.com and neopets.com.

INTELLECTUAL PROPERTY AND TRADEMARKS

As of January 2, 2010, we had obtained over 273 U.S. trademark registrations, including Build-A-Bear Workshop for stuffed animals and accessories for the animals, retail store services and other goods and services, 37 issued U.S. patents with expirations ranging from 2013 through 2024 and over 321 copyright registrations. In addition, we have over 49 U.S. trademark and one U.S. patent applications pending. We also license three patents from third-parties, including a patent for the pre-stitching system used for closing up our stuffed animals after they have been stuffed (U.S. Patent No. 6,109,196). Pursuant to an exclusive patent license agreement with Tonyco, Inc. dated March 12, 2001, we were granted an exclusive license for use of the patent in retail stores similar to ours. While we have the right to sublicense the patent, the licensor has agreed not to grant competing license rights to any of our competitors. In the event that we or the licensor has reason to believe that a third party is infringing upon the patent, the licensor is generally required to bear the expenses required to maintain and defend the patent. The term of the agreement is for the full life of the patent and any improvements thereon. The term will expire in 2019 unless we terminate the agreement, upon notice to the licensor, in the event that the patent lapses due to the licensor's non-payment of maintenance taxes and fees for the patent. We paid the licensor \$760,000 for the license. All payments due under the license have been made and no ongoing payments are required by us.

We believe our copyrights, service marks, trademarks, trade secrets, patents and similar intellectual property are critical to our success, and we intend, directly or indirectly, to maintain and protect these marks and, where applicable, license the intellectual property and the registrations for the intellectual property. We rely on trademark, copyright and other intellectual property law to protect our proprietary rights to the extent available in any relevant jurisdiction. We also depend on trade secret protection through confidentiality and license agreements with our employees, subsidiaries, licensees, licensors and others. We may not have agreements containing adequate protective provisions in every case, and the contractual provisions that are in place may not provide us with adequate protection in all circumstances. Any infringement or misappropriation of our intellectual property rights or breach of our confidentiality or license agreements could result in significant litigation costs, and any failure to adequately protect our proprietary rights could result in our competitors offering similar products, potentially resulting in loss of one or more competitive advantages and decreased revenues. In addition, intellectual property litigation or claims could force us to do one or more of the following: cease selling or using any of our products that incorporate the challenged intellectual property, which would adversely

affect our revenue; obtain a license from the holder of the intellectual property right alleged to have been infringed, which license may not be available on reasonable terms, if at all; and redesign or, in the case of trademark claims, rename our products to avoid infringing the intellectual property rights of third parties, which may not be possible and time-consuming if it is possible to do so.

Despite our efforts to protect our intellectual property rights, intellectual property laws afford us only limited protection. A third party could copy or otherwise obtain information from us without authorization. Accordingly, we may not be able to prevent misappropriation of our intellectual property or to deter others from developing similar products or services. Further, monitoring the unauthorized use of our intellectual property is difficult. Litigation has been and may continue to be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Litigation of this type could result in substantial costs and diversion of resources, may result in counterclaims or other claims against us and could significantly harm our results of operations. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as do the laws of the United States.

We also conduct business in foreign countries to the extent our merchandise is manufactured or sold outside the United States and we have opened stores outside the United States either directly or indirectly through franchisees. We filed, obtained or plan to file for registration of marks in foreign countries to the degree necessary to protect these marks, although our efforts may not be successful and further there may be restrictions on the use of these marks in some jurisdictions.

SEGMENTS AND GEOGRAPHIC AREAS

We conduct our operations through three reportable segments consisting of retail, international franchising, and licensing and entertainment. The retail segment includes the operating activities of company-owned stores in the United States, Canada, the United Kingdom, Ireland and France, and other retail delivery operations, including our web-store and non-traditional store locations such as tourist venues and ballpark stores. The international franchising segment includes the licensing activities of our franchise agreements with locations in Asia, Australia, Africa and Europe, outside of the United Kingdom, Ireland and France. The licensing and entertainment segment has been established to market the naming and branding rights of our intellectual properties for third party use.

Our reportable segments are primarily determined by the types of products and services that they offer. Each reportable segment may operate in many geographic areas. See the financial statements included elsewhere in this Annual Report on Form 10-K for further discussion and financial information related to our segments and the geographic areas in which we operate.

AVAILABILITY OF INFORMATION

We make certain filings with the SEC, including our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments and exhibits to those reports, available free of charge in the Investor Relations section of our corporate website, <http://ir.buildabear.com>, as soon as reasonably practicable after they are filed with the SEC. The filings are also available through the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or by calling 1-800-SEC-0330. Also, these filings are available on the internet at <http://www.sec.gov>. Our Annual Reports to shareholders, press releases and recent analyst presentations are also available on our website, free of charge, in the Investor Relations section or by writing to the Investor Relations department at World Bearquarters, 1954 Innerbelt Business Center Dr., St. Louis, MO 63114.

ITEM 1A. RISK FACTORS

We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially affect our operations. The risks, uncertainties and other factors set forth below may cause our actual results, performances or achievements to be materially different from those expressed or implied by our forward-looking statements. If any of these risks or events occur, our business, financial condition or results of operations may be adversely affected.

RISKS RELATED TO OUR BUSINESS

A continued decline in general global economic conditions could lead to disproportionately reduced consumer demand for our products, which represent relatively discretionary spending, and have an adverse effect on our liquidity and profitability.

Since purchases of our merchandise are dependent upon discretionary spending by our guests, our financial performance is sensitive to changes in overall economic conditions that affect consumer spending. Consumer spending habits are affected by, among other things, prevailing economic conditions, levels of employment, salaries and wage rates, consumer confidence and consumer perception of economic conditions. A continued slowdown in the United States, Canadian or European economies or uncertainty as to the economic outlook could reduce discretionary spending or cause a shift in consumer discretionary spending to other products. Any of these factors would likely cause us to delay or slow our expansion plans, result in lower net sales and could also result in excess inventories, which could, in turn, lead to increased merchandise markdowns and related costs associated with higher levels of inventory and adversely affect our liquidity and profitability.

A continued decrease in the customer traffic generated by the shopping malls in which we are located, which we depend upon to attract guests to our stores, could adversely affect our financial condition and profitability.

While we invest heavily in integrated marketing efforts and believe we are more of a destination location than traditional retailers, we rely to a great extent on customer traffic in the malls in which our stores are located. In order to generate guest traffic, we generally attempt to locate our stores in prominent locations within high traffic shopping malls. We rely on the ability of the malls' anchor tenants, generally large department stores, and on the continuing popularity of malls as shopping destinations. We cannot control the development of new shopping malls, the addition or loss of anchors and co-tenants, the availability or cost of appropriate locations within existing or new shopping malls or the desirability, safety or success of shopping malls. In addition, customer mall traffic may be reduced due to a loss of consumer confidence because of the economy, terrorism or war. If we are unable to generate sufficient guest traffic, our sales and results of operations would be harmed. A significant decrease in shopping mall traffic could have a material adverse effect on our financial condition and profitability. For example, the slower economy has caused us to slow our growth plans.

If we are unable to generate interest in and demand for our interactive retail experience, including being able to identify and respond to consumer preferences in a timely manner, our financial condition and profitability could be adversely affected.

We believe that our success depends in large part upon our ability to continue to attract guests with our interactive shopping experience and our ability to anticipate, gauge and respond in a timely manner to changing consumer preferences and fashion trends. We cannot assure you that our past success will be sustained or there will continue to be a demand for our "make-your-own stuffed animal" interactive experience, or for our stuffed animals, animal apparel and accessories. A decline in demand for our interactive shopping experience, our animals, animal apparel or accessories, or a misjudgment of consumer preferences or fashion trends, could have a negative impact on our business, financial condition and results of operations. For example, in 2008 we announced plans to close the Friends 2B Made concept. The closure was completed by the end of the fiscal 2009 third quarter with pre-tax charges totaling \$3.9 million. In addition, if we miscalculate the market for our merchandise or the purchasing preferences of our guests, we may be required to sell a significant amount of our inventory at discounted prices or even below costs, thereby adversely affecting our financial condition and profitability. For example, in 2007, we wrote-off \$1.6 million, net of tax, of inventory, including excess Shrek® merchandise.

Our future growth and profitability could be adversely affected if our marketing and online initiatives are not effective in generating sufficient levels of brand awareness and guest traffic.

We continue to update and evaluate our marketing initiatives, focusing on brand awareness and rapidly changing consumer preferences. We may not be able to successfully engage children in our virtual world website, buildabearville.com, and achieve high enough traffic levels nor be able to leverage the site to drive traffic to our stores. Our future growth and profitability will depend in large part upon the effectiveness and efficiency of our marketing programs and future marketing efforts that we undertake, including our ability to:

- create greater awareness of our brand, interactive shopping experience and products;
- identify the most effective and efficient level of spending in each market;
- determine the appropriate creative message and media mix for marketing expenditures;
- effectively manage marketing costs (including creative and media) in order to maintain acceptable operating margins and return on marketing investment;
- select the right geographic areas in which to market;
- convert consumer awareness into actual store visits and product purchases; and
- reach a level of engagement on the virtual world website with large numbers of unique visitors with frequent visitation that drives visits to our retail stores resulting in purchases.

Our planned marketing expenditures may not result in increased total or comparable store sales or generate sufficient levels of product and brand name awareness. We may not be able to manage our marketing expenditures on a cost-effective basis.

If we are not able to reverse or significantly reduce negative comparable store sales trends, our results of operations and financial condition could be adversely affected.

Our comparable store sales for fiscal 2009 declined 13.4% following a 14.0% decline in fiscal 2008, a 9.9% decline in fiscal 2007, a 6.5% decline in fiscal 2006, and a 0.2% decline in fiscal 2005. We believe that the decrease in fiscal 2009 was primarily attributable to the continued economic recession and dramatic decrease in consumer sentiment and the decline in North American shopping mall traffic. We believe that the decrease in 2008 was primarily attributable to the economic recession and decrease in consumer wealth, a continued decline in shopping mall customer traffic and changes in media strategies, online entertainment, children's media consumption and play patterns. We believe that the decrease in 2007 was primarily attributable to a decline in shopping mall customer traffic and consumer spending on

discretionary products, changes in media strategies, online entertainment, children's media consumption and play patterns, competitive plush animal products and lower than expected customer purchases of select licensed movie products introduced in the fiscal 2007 second quarter. We believe that the decrease in 2006 was primarily the result of changing customer preferences, a decline in customer traffic, and the more difficult macro economic conditions generally impacting consumer confidence and spending patterns. In 2005, ongoing programs in advertising were successful in maintaining our comparable store sales levels. We believe the principal factors that will affect comparable store results include the following:

- the continuing appeal of our concept;
- the effectiveness of our marketing efforts to attract new and repeat guests;
- consumer confidence and general economic conditions;
- our ability to anticipate and to respond, in a timely manner, to consumer trends;
- the continued introduction and expansion of our merchandise offerings;
- the impact of new stores that we open in existing markets;
- mall traffic;
- competition for product offerings including in the online space;
- the timing and frequency of national media appearances and other public relations events; and
- weather conditions.

As a result of these and other factors, we may not be able to generate or achieve comparable stores sales growth in the future. If we are unable to do so, our results of operations could be significantly harmed and we may be required to record significant impairment charges.

If we are unable to renew, renegotiate or replace our store leases or enter into leases for new stores on favorable terms, or if we violate any of the terms of our current leases, our growth and profitability could be harmed.

We lease all of our store locations. The majority of our store leases contain provisions for base rent plus percentage rent based on sales in excess of an agreed upon minimum annual sales level. A number of our leases include a termination provision which applies if we do not meet certain sales levels during a specified period, typically in the third to fourth year and the sixth to seventh year of the lease, at either the landlord's options or ours. Furthermore, some of our leases contain various restrictions relating to change of control of our company. Our leases also subject us to risks relating to compliance with changing mall rules and the exercise of discretion by our landlords on various matters within the malls. In addition, the lease for our store in the Downtown

Disney® District at the Disneyland® Resort in Anaheim, California provides that the landlord may terminate the lease at any time, subject to the payment of an early termination fee. As a result, we cannot assure you that the landlord will not exercise its right to terminate this lease.

In addition, most of our leases will expire within the next ten years and our initial leases are near completion and do not contain options to renew. We may not be offered a lease renewal by our landlord, may not be able to renew leases under favorable economic terms or maintain our existing store location thereby requiring additional capital expenditure to move the store location within the mall. Those locations may be in parts of the mall that have less traffic or be positioned further from our desired co-tenants and our ongoing sales and profitability results may be negatively affected. The terms of new leases may not be as favorable, increasing store expenses and impacting overall profitability.

Our growth strategy requires us to operate a significant number of stores in the United States, Canada, the United Kingdom, Ireland and France each year as well as open new store locations in these countries. If we are not able to operate these stores or to effectively manage the growth of additional stores, it could adversely affect our ability to grow and could significantly harm our profitability.

Our growth will largely depend on our ability to operate our stores successfully in the United States, Canada, the United Kingdom, Ireland and France as well as open additional stores in those countries. We opened 25, 50, and 35 stores in fiscal 2008, 2007 and 2006, respectively. We slowed new store growth in fiscal 2009 to include opening one new store in North America and no new stores in Europe and plan to continue a slowed expansion in 2010. Our ability to identify and open new stores in future years in desirable locations and operate such new stores profitably is a key factor in our ability to grow successfully. We cannot assure you as to when or whether desirable locations will become available, the number of Build-A-Bear Workshop stores that we can or will ultimately open, or whether any such new stores can be profitably operated. We have not always succeeded in identifying desirable locations or in operating our stores successfully in those locations. For example, as of January 2, 2010, we have closed four stores since our inception (not including four stores that we closed in connection with our 2006 acquisition of Amsbra and The Bear Factory). We may decide to close other stores in the future. In addition, our ability to open new stores and manage our growth will be limited to some extent by market saturation of our stores. Our ability to open new stores and to manage our growth also depends on our ability to:

- negotiate acceptable lease terms, including desired tenant improvement allowances;
- finance the preopening costs, capital expenditures and working capital requirements of the stores;

- manage inventory to meet the needs of new and existing stores on a timely basis;
- hire, train and retain qualified store personnel;
- develop cooperative relationships with our landlords; and
- successfully integrate new stores into our existing operations.

In July 2005, we opened our flagship store in New York City. This store is much larger than our typical mall-based stores and originally included additional facilities, such as a restaurant, that we do not operate in our typical mall-based stores. Because of these differences, we may be unable to generate revenues from this store at a level that justifies keeping the store open. In 2007, we closed the restaurant in the store. Closing this store could not only have an adverse impact on our profitability, as the costs of opening this store were much larger than those for a typical store, but, as our flagship store, it could also have an adverse impact on the Build-A-Bear Workshop brand and consumer perception of our brand.

Increased demands on our operational, managerial and administrative resources as a result of our growth strategy could cause us to operate our business less effectively, which in turn could cause deterioration in our profitability.

If we are not able to franchise new stores outside of the United States, Canada, the U.K., Ireland and France, if we are unable to effectively manage our international franchises or if the laws relating to our international franchises change, our growth and profitability could be adversely affected and we could be exposed to additional liability.

In 2003, we began to expand the Build-A-Bear Workshop brand outside of the United States, opening our own stores in Canada and our first franchised location in the United Kingdom. We intend to continue expanding outside of our company-owned regions through franchising in several countries over the next several years. As of January 2, 2010, there were 65 Build-A-Bear Workshop franchised stores located outside of the United States, Canada, the U.K., Ireland and France. We cannot assure you that our franchisees will be successful in identifying and securing desirable locations or in operating their stores. International markets frequently have different demographic characteristics, competitive conditions, consumer tastes and discretionary spending patterns than our existing North American and European markets, which may cause these stores to be less successful than those in our existing markets. Additionally, our franchisees may experience merchandising and distribution expenses and challenges that are different from those we currently encounter in our existing markets. The operations and results of our franchisees could be negatively impacted by the economic or political factors in the countries in which they operate or foreign currency fluctuations. These

challenges, as well as others, could have a material adverse effect on our business, financial condition and results of operations.

The success of our franchising strategy will depend upon our ability to attract and maintain qualified franchisees with sufficient financial resources to develop and grow the franchise operation and upon the ability of those franchisees to successfully develop and operate their franchised stores. Franchisees may not operate stores in a manner consistent with our standards and requirements, may not hire and train qualified managers and other store personnel and may not operate their stores profitably. As a result, our franchising strategy may not be profitable to us. Moreover, our brand image and reputation may suffer. When franchisees perform below expectations we may transfer those agreements to other parties or discontinue the franchise agreement. Furthermore, even if our international franchising strategy is successful, the interests of franchisees might sometimes conflict with our interests. For example, whereas franchisees are concerned with their individual business strategies and objectives, we are responsible for ensuring the success of the Build-A-Bear Workshop brand and all of our stores.

The laws of the various foreign countries in which our franchisees operate govern our relationships with our franchisees. These laws, and any new laws that may be enacted, may detrimentally affect the rights and obligations between us and our franchisees and could expose us to additional liability.

Our merchandise is manufactured by foreign manufacturers and we transact business in various foreign countries; therefore the availability and costs of our products, as well as our product pricing, may be negatively affected by risks associated with international manufacturing and trade and foreign currency fluctuations.

We purchase our merchandise from domestic vendors who contract with manufacturers in foreign countries, primarily in China. Any event causing a disruption of imports, including the imposition of import restrictions or labor strikes or lock-outs, could adversely affect our business. For example, in fiscal 2002, we experienced disruption to our import of merchandise as well as increased shipping costs associated with a dock-worker labor dispute. The flow of merchandise from our vendors could also be adversely affected by financial or political instability in any of the countries in which the goods we purchase are manufactured, especially China, if the instability affects the production or export of merchandise from those countries. Trade restrictions in the form of tariffs or quotas, or both, applicable to the products we sell could also affect the importation of those products and could increase the cost and reduce the supply of products available to us. In addition, decreases in the value of the U.S. dollar against foreign currencies, particularly the Chinese renminbi, could increase the cost of products we purchase from overseas

vendors. The pricing of our products in our stores may also be affected by changes in foreign currency rates and require us to make adjustments which would impact our revenue and profit in various markets.

We rely on a few vendors to supply substantially all of our merchandise, and any disruption in their ability to deliver merchandise could harm our ability to source products and supply inventory to our stores.

We do not own or operate any manufacturing facilities. We purchased approximately 80 % of our merchandise in fiscal 2009, approximately 81% in fiscal 2008 and approximately 82% in fiscal 2007, from three vendors. These vendors in turn contract for our orders with multiple manufacturing facilities located primarily in China for the production of merchandise. Our relationships with our vendors generally are on a purchase order basis and do not provide a contractual obligation to provide adequate supply or acceptable pricing on a long-term basis. Our vendors could discontinue sourcing merchandise for us at any time. If any of our significant vendors were to discontinue their relationship with us, or if the factories with which they contract were to suffer a disruption in their production, we may be unable to replace the vendors in a timely manner, which could result in short-term disruption to our inventory flow as we transition our orders to new vendors or factories which could, in turn, disrupt our store operations and have an adverse effect on our business, financial condition and results of operations.

Our profitability could be adversely affected by high petroleum products prices.

The profitability of our business depends to a certain degree upon the price of petroleum products, both as a component of the transportation costs for delivery of inventory from our vendors to our stores and as a raw material used in the production of our animal skins and stuffing. For example, our results in fiscal 2008 and 2007 were impacted by significant increases in fuel surcharges due to higher petroleum products prices. We are unable to predict what the price of crude oil and the resulting petroleum products will be in the future. We may be unable to pass along to our customers the increased costs that would result from higher petroleum prices. Therefore, any such increase could have an adverse impact on our business and profitability.

We may not be able to operate our European company-owned stores profitably.

In April 2006, we acquired The Bear Factory Limited, a stuffed animal retailer in the U.K. owned by The Hamleys Group Limited, and Amsbra Limited, our former U.K. franchisee. Both The Bear Factory and Amsbra had losses in 2006, 2005 and prior fiscal years. In 2007, we terminated our French franchise agreement and opened our first company-owned stores in France. Although we have realized

benefits from these operations as part of our larger company, we may be unable to continue to do so on a consistent basis. In particular, we face business, regulatory and cultural differences from our domestic business, such as economic conditions in the U.K. and France, changes in foreign government policies and regulations in the U.K. and France and potential restrictions and costs to convert and repatriate currency, as well as other risks that we may not anticipate. We also face difficulties realizing benefits in the U.K. and France because we have less brand awareness than in the U.S., face higher labor and rent costs, and have different holiday schedules.

Our leases in the U.K. and Ireland also typically contain provisions requiring rent reviews every five years in which the base rent that we pay is adjusted to current market rates. These rent reviews require that base rents cannot be reduced if market conditions have deteriorated but can be changed "upwards only". We may be required to pay base rents that are significantly higher than we have forecast. For example, past rent reviews have resulted in increases as high as 40% in select locations within the U.K. Additionally, leases in France may require us to pay an entry fee to the landlord or make key money payments to secure lease assignments from current tenants. French leases also are subject to annual indexation increases that are typically tied to French economic metrics. As a result of these and other factors, we may not be able to operate our European store locations profitably. If we are unable to do so, our results of operations and financial condition could be harmed and we may be required to record significant additional impairment charges.

Portions of our business are subject to privacy and security risks. If we improperly obtain, or are unable to protect, information from our guests, in violation of privacy or security laws or expectations, we could be subject to liability and damage to our reputation.

In addition to serving as an online sales portal, our website, buildabearville.com, features children's games, e-cards and printable party invitations and thank-you notes, and provides an opportunity for children under the age of 13 to sign up, with the consent of their parent or guardian, to receive our online newsletter. We currently obtain and retain personal information about our website users. In addition, we obtain personal information about our guests as part of their registration in our Find-A-Bear identification system. Federal, state and foreign governments have enacted or may enact laws or regulations regarding the collection and use of personal information, with particular emphasis on the collection of information regarding minors. Such regulations include or may include requirements that companies establish procedures to:

- give adequate notice regarding information collection and disclosure practices;
- allow consumers to have personal information deleted from a company's database;

- provide consumers with access to their personal information and the ability to rectify inaccurate information;
- obtain express parental consent prior to collecting and using personal information from children; and
- comply with the Federal Children's Online Privacy Protection Act.

Such regulation may also include enforcement and redress provisions. While we have implemented programs and procedures designed to protect the privacy of people, including children, from whom we collect information, and our websites are designed to be fully compliant with the Federal Children's Online Privacy Protection Act, there can be no assurance that such programs will conform to all applicable laws or regulations. If we fail to fully comply, we may be subjected to liability and damage to our reputation.

We have a stringent privacy policy covering the information we collect from our guests and have established security features to protect our guest database and website. However, our security measures may not prevent security breaches. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. If unauthorized third parties were able to penetrate our network security and gain access to, or otherwise misappropriate, our guests' personal information, it could harm our reputation and, therefore, our business and we could be subject to liability. Such liability could include claims for misuse of personal information or unauthorized use of credit cards. These claims could result in litigation, our involvement in which, regardless of the outcome, could require us to expend significant financial resources. In addition, because our guest database primarily includes personal information of young children and young children frequently interact with our website, we are potentially vulnerable to charges from parents, children's organizations, governmental entities, and the media of engaging in inappropriate collection, distribution or other use of data collected from children. Such charges could adversely impact guest relationships and ultimately cause a decrease in net sales and also expose us to litigation and possible liability.

Our virtual world website, primarily for children, buildabearville.com, allows social interaction between users. While we have security features and chat monitoring, our security measures may not protect users' identities and our online safety measures may be questioned which may result in negative publicity or a decrease in visitors to our site. If site users act inappropriately or seek unauthorized contact with other users of the site, it could harm our reputation and, therefore, our business and we could be subject to liability. Internet privacy is a rapidly changing area and we may be subject to future requirements and legislation that are costly to implement and negatively impact our results.

We may suffer negative publicity or be sued if the manufacturers of our merchandise violate labor laws or engage in practices that our guests believe are unethical.

We rely on our sourcing personnel to select manufacturers with legal and ethical labor practices, but we cannot control the business and labor practices of our manufacturers. If one of these manufacturers violates labor laws or other applicable regulations or is accused of violating these laws and regulations, or if such a manufacturer engages in labor or other practices that diverge from those typically acceptable in the United States, we could in turn experience negative publicity or be sued.

We may suffer negative publicity or negative sales if the non-proprietary toy products we sell in our stores do not meet our quality standards or fails to achieve our sales expectations.

We expect to expand our product assortment to include interactive toy products manufactured by other toy companies. For example, we recently added the line of Zhu Zhu pets, an interactive line of toy hamsters, to our stores. If sales do not meet our expectations or are impacted by competitors' pricing, we may have to take markdowns or other liquidation strategies to sell the product. If other toy companies do not meet quality standards or violate any manufacturing or labor laws, we suffer negative publicity and not realize our sales plans.

We may suffer negative publicity or be sued if the manufacturers of our merchandise ship any products that do not meet current safety standards or production requirements or if our products are recalled or cause injuries.

Although we require our manufacturers to meet specific product safety standards and submit our products for testing, we cannot control the materials used by our manufacturers. If one of these manufacturers ships merchandise that does not meet our required standards, we could in turn experience negative publicity or be sued.

Many of our products are used by small children and infants who may be injured from usage. We may decide or be required to recall products or be subject to claims or lawsuits resulting from injuries. For example, in 2009 we voluntarily recalled a product due to a possible safety issue, for which a vendor reimbursed us for certain related expenses. Negative publicity in the event of any recall or if any children are injured from our products could have a material adverse effect on sales of our products and our business, and related recalls or lawsuits with respect to such injuries could have a material adverse effect on our financial position. Although we currently have liability insurance, we cannot assure you that it would cover product recalls, and we face the risk that claims or liabilities will exceed our insurance coverage. Furthermore, we may not be able to maintain adequate liability insurance in the future.

We may not be able to operate successfully if we lose key personnel, are unable to hire qualified additional personnel, or experience turnover of our management team.

The success of our business depends upon our senior management closely supervising all aspects of our business, in particular the operation of our stores and the design, procurement and allocation of our merchandise. Also, because guest service is a defining feature of the Build-A-Bear Workshop corporate culture, we must be able to hire and train qualified managers and Bear Builder associates to succeed. The loss of certain key employees, in particular Maxine Clark, our founder and Chief Executive Bear, as well as other members of our senior management, our inability to attract and retain other qualified key employees or a labor shortage that reduces the pool of qualified store associates could have a material adverse effect on our business, financial condition and results of operations. We generally do not maintain key person insurance with respect to our executives, management or other personnel, except for limited coverage of Ms. Clark, which we do not believe would be sufficient to completely protect us against losses we may suffer if her services were to become unavailable to us in the future.

We rely on a single company-owned distribution center to service the majority of our stores in North America, and our third-party distribution center providers used in Canada and Europe may perform poorly.

The efficient operation of our stores is dependent on our ability to distribute merchandise to locations throughout the United States, Canada and Europe in a timely manner. We have a 350,000-square-foot distribution center in Groveport, Ohio. We rely on this company-owned distribution center to receive, store and distribute merchandise for the majority of our North America stores. We rely on third parties to manage all of the warehousing and distribution aspects of our business in Europe and a portion of our operations in Canada. Any significant interruption in the operation of the distribution center due to natural disasters and severe weather, as well as events such as fire, accidents, power outages, system failures or other unforeseen causes could damage a significant portion of our inventory. These factors may also impair our ability to adequately stock our stores and could increase our costs associated with our supply chain.

Our market share may be adversely impacted at any time by a significant number of competitors.

We operate in a highly competitive environment characterized by low barriers to entry. We compete against a diverse group of competitors. Because we are mall-based, we see our competition as those mall-based retailers that compete for prime mall locations, including various apparel, footwear and specialty retailers. We also compete with toy retailers, such as Wal-Mart, Toys "R" Us, Target, Kmart and Sears and other discount chains, as well as with a number of

manufacturers that sell plush toys in the United States and Canada, including, but not limited to, Ty, Fisher Price, Mattel, Ganz, Russ Berrie, Applause, Boyds, Hasbro, Commonwealth, Gund and Vermont Teddy Bear. Since we offer our guests an experience as well as merchandise, we also view our competition as any company that competes for our guests' time and entertainment dollars, such as movie theaters, restaurants, amusement parks and arcades. In addition, there are several small companies that operate "make your own" teddy bear and stuffed animal experiences in retail stores and kiosks. Although we believe that currently none of these companies offers the breadth and depth of the Build-A-Bear Workshop products and experience, we cannot assure you that they will not compete directly with us in the future.

Many of our competitors have longer operating histories, significantly greater financial, marketing and other resources, and greater name recognition. We cannot assure you that we will be able to compete successfully with them in the future, particularly in geographic locations that represent new markets for us. If we fail to compete successfully, our market share and results of operations could be materially and adversely affected.

We also believe that there is an emerging trend within children's play patterns towards internet and online play. According to Emarketer.com, kids aged 8 to 11 reported that they spend between one and two hours online each day. In 2007, 24% of US child and teen Internet users will visit virtual worlds. By 2011, an estimated 53% will do so. Therefore, we believe we compete with other companies and internet sites that vie for children's attention in the online space including webkinz.com, clubpenguin.com and neopets.com. A growing number of traditional children's toy and entertainment companies have also developed their own virtual world online play sites including Barbie.com® and McWorld. We cannot assure you that children's preferences for our products will remain strong or that our on line Web site for children, buildabearville.com, will be successful in attracting children to our brand. If children decide to engage with other products or Web sites, our sales will be negatively impacted and our results will be materially impacted.

We may fail to renew, register or otherwise protect our trademarks or other intellectual property and may be sued by third parties for infringement or, misappropriation of their proprietary rights, which could be costly, distract our management and personnel and which could result in the diminution in value of our trademarks and other important intellectual property.

Other parties have asserted in the past, and may assert in the future, trademark, patent, copyright or other intellectual property rights that are important to our business. We cannot assure you that others will not seek to block the use of or seek monetary damages or other remedies for the prior use of our brand names or other intellectual property or the sale of our

products or services as a violation of their trademark, patent or other proprietary rights. Defending any claims, even claims without merit, could be time-consuming, result in costly settlements, litigation or restrictions on our business and damage our reputation.

In addition, there may be prior registrations or use of intellectual property in the U.S. or foreign countries for similar or competing marks or other proprietary rights of which we are not aware. In all such countries it may be possible for any third party owner of a national trademark registration or other proprietary right to enjoin or limit our expansion into those countries or to seek damages for our use of such intellectual property in such countries. In the event a claim against us were successful and we could not obtain a license to the relevant intellectual property or redesign or rename our products or operations to avoid infringement, our business, financial condition or results of operations could be harmed. Securing registrations does not fully insulate us against intellectual property claims, as another party may have rights superior to our registration or our registration may be vulnerable to attack on various grounds.

Poor global economic conditions could have a material adverse effect on our liquidity and capital resources.

In 2008 and 2009, the general economic and capital market conditions in the United States and other parts of the world deteriorated significantly. These conditions adversely affected borrowers' access to capital and increased the cost of capital. Although we believe that our capital structure and credit facilities will provide sufficient liquidity, there can be no assurance that our liquidity will not be affected by changes in the capital markets or that our capital resources will at all times be sufficient to satisfy our liquidity needs. Capital market conditions may affect the renewal or replacement of our credit agreement, which was originally entered into in 2000 and has been extended annually since then and currently expires December 31, 2011.

If our affiliate, Ridemakerz LLC, continues to incur losses, our financial condition and profitability could be adversely affected.

We hold a minority interest in Ridemakerz, LLC, which is accounted for under the equity method of accounting. Ridemakerz is an early-stage company that has developed an interactive retail concept that allows children and families to build and customize their own personalized cars. Under current agreements, we are the sole member of an equity class that is allocated losses only following the allocation of losses to all other common and preferred equity holders to the extent of their capital contributions. All of the priority equity members' capital was reduced to zero in the fiscal 2009 second quarter. As a result, in fiscal 2009, we recorded non-cash pre-tax charges of \$7.5 million, included in "Losses from investment in affiliate" in our Consolidated Statements of Operations. Additional charges related to impairment and

bad debts of \$2.1 million were recorded in the 2009 fourth quarter. While as of January 2, 2010, the book value of our investment in Ridemakerz had been reduced to zero, we continue to provide services to Ridemakerz in exchange for equity. This additional investment is subject to ongoing loss allocations and impairment review.

RISKS RELATED TO OWNING OUR COMMON STOCK

Fluctuations in our quarterly results of operations could cause the price of our common stock to substantially decline.

Retailers generally are subject to fluctuations in quarterly results. Our operating results for one period may not be indicative of results for other periods, and may fluctuate significantly due to a variety of factors, including:

- the profitability of our stores;
- increases or decreases in comparable store sales;
- changes in general economic conditions and consumer spending patterns;
- seasonal shopping patterns, including whether the Easter holiday occurs in the first or second quarter and other vacation schedules;
- the effectiveness of our inventory management;
- the timing and frequency of our marketing initiatives;
- changes in consumer preferences;
- the continued introduction and expansion of merchandise offerings;
- actions of competitors or mall anchors and co-tenants;
- weather conditions;
- the timing of new store openings and related expenses; and
- the timing and frequency of national media appearances and other public relations events.

If our future quarterly results fluctuate significantly or fail to meet the expectations of the investment community, then the market price of our common stock could decline substantially.

Fluctuations in our operating results could reduce our cash flow and we may be unable to repurchase shares at all or at the times or in the amounts we desire or the results of the share repurchase program may not be as beneficial as we would like.

Our Board of Directors has implemented a \$50 million share repurchase program. The program does not require the Company to repurchase any specific number of shares of our common stock, and may be modified, suspended or terminated at any time without prior notice. Shares repurchased under the program will be subsequently retired. If our cash flow decreases as a result of decreased sales, increased expenses or capital expenditures or other uses of cash, we may not be able to repurchase shares of our common stock at all or at times or in the amounts we desire.

As a result, the results of the share repurchase program may not be as beneficial as we would like.

Our certificate of incorporation and bylaws and Delaware law contain provisions that may prevent or frustrate attempts to replace or remove our current management by our stockholders, even if such replacement or removal may be in our stockholders' best interests.

Our basic corporate documents and Delaware law contain provisions that might enable our management to resist a takeover. These provisions:

- restrict various types of business combinations with significant stockholders;
- provide for a classified board of directors;
- limit the right of stockholders to remove directors or change the size of the board of directors;
- limit the right of stockholders to fill vacancies on the board of directors;
- limit the right of stockholders to act by written consent and to call a special meeting of stockholders or propose other actions;
- require a higher percentage of stockholders than would otherwise be required to amend, alter, change or repeal our bylaws and certain provisions of our certificate of incorporation; and
- authorize the issuance of preferred stock with any voting rights, dividend rights, conversion privileges, redemption rights and liquidation rights and other rights, preferences, privileges, powers, qualifications, limitations or restrictions as may be specified by our board of directors.

These provisions may:

- discourage, delay or prevent a change in the control of our company or a change in our management, even if such change may be in the best interests of our stockholders;
- adversely affect the voting power of holders of common stock; and
- limit the price that investors might be willing to pay in the future for shares of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

STORES

As of January 2, 2010, we operated 291 retail stores located primarily in major malls throughout the United States, Canada and Puerto Rico, 50 stores located in the United Kingdom, three stores in France and one store in Ireland. Our North American mall-based stores generally range in size from

2,000 to 4,000 gross square feet and average approximately 2,800 square feet, while our tourist location stores currently range up to 7,000 square feet and our flagship store in New York City is approximately 20,000 square feet. Our stores are highly visual and colorful featuring a teddy bear theme and larger than life details including a "sentry bear" at the front entry, custom-designed fixtures as well as a customized Build-A-Bear Workshop tile logo in our entryway. Our stores are designed to be open and inviting so that guests can fully immerse in the shopping experience and actively participate in the creation and customization of their purchase. Our typical store features one or two stuffing machines, five Name Me computer stations and numerous displays of fully-dressed stuffed animals throughout the store. We select malls and make site selections within the mall based upon demographic analysis, market research, site visits and mall dynamics as well as a proprietary forecasting model that projects a potential location's first year sales. We have identified additional target sites that meet our criteria for new stores in new and existing markets. We seek to locate our mall-based stores in areas with maximum customer traffic, often near to or in the center of the mall, as well as offering adjacencies to other children, teen and family retailers. After we approve a site, it typically takes approximately 26 weeks to finalize the lease, design the layout, build out the site, hire and train associates, and stock the store for opening.

We lease all of our store locations. Due to our attraction as a family-oriented entertainment destination concept, we have received numerous requests from mall owners and developers to locate a Build-A-Bear Workshop store in their malls. We believe that we generally have negotiated favorable lease terms including provisions providing for exclusivity of operation of our concept in the mall. Our stores are located in a variety of shopping center types. As of January 2, 2010, the distribution of our stores is as follows:

Super regional center	217
Regional center	81
Open air lifestyle center	23
Outlet center ⁽¹⁾	10
Other (theme, NYC, concession)	14
Total	345

(1) Build-A-Bear Workshop stores in outlet centers are not merchandised with outlet merchandise.

Most of our leases have an initial term of ten years and do not have renewal options or clauses although our leases in the U.K. and France are typically covered by laws and regulations that give us priority rights of renewal. A number of our leases provide a lease termination or "kick out" option, which may be mutual, allowing either party to exercise the option in a pre-determined year or years, typically the third or fourth year and sixth or seventh year of the lease, if we do not meet certain agreed upon minimum sales levels. In addition, our leases typically require us to pay personal property taxes, our pro rata share of real property taxes of the shopping mall,

our own utilities, repairs and maintenance in our store, a pro rata share of the malls' common area maintenance and, in some instances, merchant association fees and media fund contributions. Most of our leases in North America also require the payment of a fixed minimum rent as well as percentage rent based on sales in excess of agreed upon minimum annual sales levels. Our leases in the United Kingdom and Ireland typically have rent reviews every five years in which the base rental rate is adjusted to current market rates if they are higher than the original rent agreed. Leases in France may require us to pay an entry fee to the landlord or make key money payments to secure lease assignments from current tenants. French leases also are subject to annual indexation increases that are typically tied to French economic metrics.

Following is a list of our 345 company-owned stores in the United States, Canada, the United Kingdom, Ireland and France as of January 2, 2010:

State	Number of Stores	State	Number of Stores
Alabama	5	Missouri	7
Alaska	1	Montana	1
Arizona	5	Nebraska	1
Arkansas	3	Nevada	4
California	26	New Hampshire	2
Colorado	6	New Jersey	12
Connecticut	5	New Mexico	1

British Columbia	3	England	42
Manitoba	1	Scotland	6
Nova Scotia	1	Wales	1
Ontario	10	Northern Ireland	1
Quebec	3	Ireland	1
Saskatchewan	1	France	3

NON-STORE PROPERTIES

In addition to leasing all of our store locations, we lease approximately 59,000 square feet for our corporate headquarters, or World Bearquarters, in St. Louis, Missouri. Our World Bearquarters houses our corporate staff, our call center and our on-site training facilities. The lease was amended, effective January 1, 2008 with a five-year term, and may be extended for two additional five-year terms. In September 2006, we completed construction of a company-owned warehouse and distribution center, or Bearhouse, in Groveport, Ohio. The facility is approximately 350,000 square feet. In 2007, our web fulfillment site moved to the Bearhouse.

In the United Kingdom, we lease approximately 2,000 square feet for our regional headquarters, or U.K. Bearquarters, in Windsor, England. The lease commenced in August 2003. The lease can be terminated at any time by either party giving notice of termination six months prior to cancellation.

ITEM 3. LEGAL PROCEEDINGS

From time to time we are involved in ordinary routine litigation typical for companies engaged in our line of business. We are involved in several court actions seeking to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. As of the date of this Annual Report on Form 10-K, we are not involved in any pending legal proceedings that we believe would be likely, individually or in the aggregate, to have a material adverse effect on our financial condition or results of operations.

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is listed on the New York Stock Exchange (NYSE) under the symbol “BBW.” Our common stock commenced trading on the NYSE on October 28, 2004. The following table sets forth the high and low sale prices of our common stock for the periods indicated.

	Fiscal 2009		Fiscal 2008	
	High	Low	High	Low
First Quarter	\$6.65	\$3.34	\$14.48	\$7.89
Second Quarter	\$7.27	\$4.05	\$11.45	\$7.14
Third Quarter	\$5.62	\$4.12	\$ 8.49	\$5.61
Fourth Quarter	\$6.78	\$4.45	\$ 8.05	\$3.02

As of March 15, 2010, the number of holders of record of the Company’s common stock totaled approximately 2,052.

PERFORMANCE GRAPH

The following performance graph compares the 50-month cumulative total stockholder return of our common stock, with the cumulative total return on the Russell 2000® Index and an SEC-defined peer group of companies identified as SIC Code 5600-5699 (the “Peer Group”). The Peer Group consists of companies whose primary business is the operation of apparel and accessory retail stores. Build-A-Bear Workshop is not strictly a merchandise retailer and there is a strong interactive, entertainment component to our business which differentiates it from retailers in the Peer Group. However, in the absence of any other readily identifiable peer group, we believe the use of the Peer Group is appropriate.

The performance graph starts on January 1, 2005 and ends on December 31, 2009, the last trading day prior to January 2, 2010, the end of our fiscal 2009. The graph assumes that \$100 was invested on January 1, 2005 in each of our common stock, the Russell 2000 Index and the Peer Group, and that all dividends were reinvested.

These indices are included only for comparative purposes as required by Securities and Exchange Commission rules and do not necessarily reflect management’s opinion that such indices are an appropriate measure of the relative performance of the common stock. They are not intended to forecast the possible future performance of our common stock.

Total	1,156	\$5.58	—	\$30,987,872

(1) Includes shares of our common stock delivered to us in satisfaction of the tax withholding obligation of holders of restricted shares which vested during the quarter. Our equity incentive plans provide that the value of shares delivered to us to pay the withheld to cover tax obligations is calculated as the average of the high and low trading price of our common stock on the date the relevant transaction occurs.

(2) On March 3, 2010, we announced the further extension of our \$50 million share repurchase program of our outstanding common stock until March 31, 2011. The program was authorized by our board of directors. Purchases may be made in the open market or in privately negotiated transactions, with the level and timing of activity depending on market conditions, applicable regulatory requirements, and other factors. Purchase activity may be increased, decreased or discontinued at any time without notice. Shares purchased under the program are subsequently retired.

RECENT SALES OF UNREGISTERED SECURITIES

There were no sales of unregistered securities during the fourth quarter of fiscal 2009.

DIVIDEND POLICY

We anticipate that we will retain any future earnings to support operations, to finance the growth and development of our business and to repurchase shares of our common stock from time to time and we do not expect, at this time, to pay cash dividends in the future. Any future determination relating to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, financial conditions, future prospects and other factors that the board of directors may deem relevant. Additionally, under our credit agreement, we are prohibited from declaring dividends without the prior consent of our lender, subject to certain exceptions, as described in "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources."

ITEM 6. SELECTED FINANCIAL DATA

Throughout this Annual Report on Form 10-K, we refer to our fiscal years ended January 2, 2010, January 3, 2009, December 29, 2007, December 30, 2006 and December 31, 2005, as fiscal years 2009, 2008, 2007, 2006 and 2005, respectively. Our fiscal year consists of 52

or 53 weeks, and ends on the Saturday nearest December 31 in each year. Fiscal years 2009, 2007, 2006 and 2005 included 52 weeks and fiscal year 2008 included 53 weeks. All of our fiscal quarters presented in this Annual Report on Form 10-K included 13 weeks, with the exception of the fourth quarter of fiscal 2008 which included 14 weeks. When we refer to our fiscal quarters, or any three month period ending as of a specified date, we are referring to the 13-week or 14-week period prior to that date.

The following table sets forth, for the periods and dates indicated, our selected consolidated financial and operating data. The balance sheet data as of January 2, 2010 and January 3, 2009 and the statement of operations and other financial data for our fiscal years ended January 2, 2010, January 3, 2009 and December 29, 2007 are derived from our audited financial statements included elsewhere in this Annual Report on Form 10-K. The balance sheet data as of December 29, 2007, December 30, 2006 and December 31, 2005, and the statement of income and other financial data for our fiscal years ended December 30, 2006 and December 31, 2005 are derived from our audited consolidated financial statements that are not included in this Annual Report on Form 10-K. You should read our selected consolidated financial and operating data in conjunction with our consolidated financial statements and related notes and with "Management's Discussion and Analysis of Financial Condition and Results of Operations" appearing elsewhere in this Annual Report on Form 10-K.

Total stockholders' equity	164,780	167,725	193,608	170,443	130,357

(1) Gross margin represents net retail sales less cost of merchandise sold. Gross margin percentage represents gross margin divided by net retail sales.

(2) Capital expenditures, net consist of leasehold improvements, furniture and fixtures, land, buildings, computer equipment and software purchases, as well as trademarks, intellectual property, key money deposits and deferred leasing fees.

(3) Excludes our webstore and seasonal and event-based locations.

(4) Square footage for stores located in Europe is estimated selling square footage and includes stores in the United Kingdom, Ireland and France.

(5) Average net retail sales per store represents net retail sales from stores open throughout the entire period in North America divided by the total number of such stores.

(6) When we refer to average net retail sales per store and net retail sales per gross square foot for any period, we include in those calculations only those stores that have been open for that entire period in North America. European stores are not included.

(7) Net retail sales per gross square foot represents net retail sales from stores open throughout the entire period in North America divided by the total gross square footage of such stores. European stores are not included.

(8) Comparable store sales percentage changes are based on net retail sales and stores are considered comparable beginning in their thirteenth full month of operation. Fiscal 2008 first quarter was the first quarter that our European operations met the criteria for inclusion in our comparable store calculation. As such, fiscal 2008 is the first period to include comparable store sales change for Europe in the consolidated comparable store sales change.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed in "Risk Factors" and elsewhere in this Annual Report on Form 10-K. The following section is qualified in its entirety by the more detailed information, including our financial statements and the notes thereto, which appears elsewhere in this Annual Report on Form 10-K.

OVERVIEW

We are the leading, and only international, company providing a "make your own stuffed animal" interactive entertainment experience under the Build-A-Bear Workshop brand, in which our guests stuff, fluff, dress, accessorize and name their own teddy bears and other stuffed animals. Our concept, which we developed for mall-based retailing, capitalizes on what we believe is the relatively untapped demand for experience-based shopping as well as the widespread appeal of stuffed animals. The Build-A-Bear Workshop experience appeals to a broad range of age groups and demographics, including children, teens, their parents and grandparents. As of January 2, 2010, we operated 291 stores in the United States, Canada and Puerto Rico, 50 stores in the United Kingdom, one store in Ireland and three stores in France, and had 65 franchised stores operating in international locations under the Build-A-Bear Workshop brand. In addition to our stores, we sell our products on our e-commerce Web site, *buildabear.com* and market our products and build our brand through our "virtual world" Web site, *buildabearville.com*, which complements our interactive shopping experience and positively enhances our core brand value. We also operate non-traditional store locations in Major League Baseball ballparks, one location in a zoo and one location in a science center.

On April 2, 2006, we acquired all of the outstanding shares of The Bear Factory Limited, a stuffed animal retailer in the United Kingdom, and Amsbra Limited, our former U.K. franchisee. The results of the acquisitions' operations have been included in the consolidated financial statements since that date. We are currently operating 36 of the acquired stores, having permanently closed four locations during transition. Since 2006, our European operations have grown to 54 stores, including three in France. We have improved sales performance and adopted internal best practices in the areas of merchandising, marketing, purchasing and store operations, across the acquired store base that resulted in improved sales and earnings from the acquisition.

We operate in three segments that share the same infrastructure, including management, systems, merchandising and marketing, and generate revenues as follows:

- Company-owned retail stores located in the United States, Canada, Puerto Rico, the United Kingdom, Ireland, and France, a webstore and seasonal, event-based locations;
- International stores operated under franchise agreements; and
- License arrangements with third parties which manufacture and sell to other retailers merchandise carrying the Build-A-Bear Workshop brand.

Selected financial data attributable to each segment for fiscal 2009, 2008 and 2007, are set forth in Note 18 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

For a discussion of the key trends and uncertainties that have affected our revenues, income and liquidity, see the "— Revenues," "— Costs and Expenses" and "— Expansion and Growth Potential" subsections of this Overview.

We believe that we have developed an appealing retail store concept that, for North American stores open for the entire year, averaged \$1.0 million in fiscal 2009, \$1.3 million in fiscal 2008 and \$1.6 million in fiscal 2007 in net retail sales per store. For a discussion of the changes in comparable store sales in fiscal years 2009, 2008 and 2007, see "— Revenues" below. Store contribution, which consists of income (loss) before income tax expense (benefit); interest; store depreciation, amortization and impairment; store reopening expense; store closing expense; losses from investment in affiliate and general and administrative expense, excluding franchise fees, income from licensing activities and contribution from our webstore and seasonal event-based locations, as a percentage of net retail sales, excluding revenue from our webstore and seasonal and event-based locations, was 12.4% for fiscal 2009, 16.0% for fiscal 2008 and 21.5% for fiscal 2007. Total company net loss as a percentage of total revenues was 3.2% for fiscal 2009. Total company net income as a percentage of total revenues was 1.0% for fiscal 2008 and 4.7% for fiscal 2007. See "— Non-GAAP Financial Measures" for a reconciliation of store contribution to net income. Net income declined in 2009, 2008 and 2007 due primarily to the decrease in comparable store sales. As we have added stores and grown our sales volume, the quantities of merchandise and supplies we purchase have increased which has created economies of scale for our vendors allowing us to obtain reduced costs for these items and increase our merchandise margin. In 2009, 2008 and 2007, merchandise margin improvement was more than offset by fixed occupancy cost deleverage due primarily to the decrease in comparable store sales. The store contribution of our average store, coupled with the fact that

we have opened or acquired 175 company-owned stores since the beginning of fiscal 2005 had been the primary reasons for our net income increasing in fiscal 2006 and fiscal 2005.

In 2008 and 2009, our results reflect the challenging retail environment – economic recession, declining mall traffic, and slowing consumer spending – factors impacting many retailers and particularly our company given the discretionary nature of our products and our experience. Our total store contribution declined, primarily due to 13.4% and 14.0% decreases in comparable store sales in 2009 and 2008, respectively. This decrease in total store contribution was partially offset by approximately \$25 million in cost reductions in North America in 2009.

Our 2010 plan balances our long term business goals while recognizing the near term challenges of the retail environment. While our full market potential in North America remains more than 350 stores, we will open one new store in North America in 2010, the same as in 2009. In the United Kingdom and Ireland, we believe our full market potential is approximately 70 locations and we plan to open two new stores in 2010, as compared to no new European stores in 2009. Slowing new store growth allows us to refocus on our business and align all operations around our goals of new guest acquisition and guest retention aimed at improving our comparable stores sales performance, while also building our long term brand value. Our growth strategy is to develop and expand the reach of the Build-A-Bear Workshop brand through product innovation and the full integration of product, marketing and operations to create a sense of urgency to drive traffic, increase conversion and improve sales.

Additional toy products outside of our core plush animals, yet consistent with our interactive and hands-on experience, will be added to our assortment. We plan to continue to grow our virtual world engagement through buildabearville.com, as well as improve our online and e-commerce business. We intend to refine our marketing programs balancing communication with new and existing guests and place emphasis on our product newness and collectability, a fundamental strength of our brand. Recognizing the severity of the economic recession, we implemented cost reduction initiatives that resulted in approximately \$25 million in pre-tax savings in 2009. We ended fiscal 2009 with no borrowings under our bank loan agreement and with \$60 million in cash and cash equivalents after investing \$8 million in capital projects including one new store. While our current sales trends reflect the continuing decline in consumer spending, we believe that our business strategies, superior store contribution model, strong cash flow and flexible capital structure will deliver long term sales and earnings growth.

Following is a description and discussion of the major components of our statement of operations:

REVENUES

Net retail sales: Net retail sales are revenues from retail sales (including our webstore and other non-store locations), are net of discounts, exclude sales tax, include shipping and handling costs billed to customers, and are recognized at the time of sale. Revenues from gift cards are recognized at the time of redemption. Our guests use cash, checks, gift cards and third party credit cards to make purchases. We classify stores as new or comparable stores and do not include our webstore or seasonal, event-based locations in our store count or in our comparable store calculations. Stores enter the comparable store calculation in their thirteenth full month of operation and as such, European stores were not included for 2007. If a store relocation or remodel results in a significant change in square footage, the net retail sales for that location are excluded from comparable store sales calculations until the thirteenth full month of operation after the date of the change. In the fiscal 2008 third quarter, we announced plans to close the Friends 2B Made concept. As of January 2, 2010, all Friends 2B Made locations were closed. All but one of these locations were inside or adjacent to a Build-A-Bear Workshop store and shared common store management, employees and infrastructure. Other than our stand-alone store in Ontario, California, these locations were considered expansions of the existing Build-A-Bear Workshop store and were not considered an addition to our total store count. The net retail sales of these expanded Build-A-Bear Workshop stores were excluded from comparable store sales calculations until the thirteenth full month of operation after the date of the expansion.

We have an automated loyalty program with a frequent shopper reward feature in North America, the Stuff Fur Stuff club, whereby guests enroll in the program and receive one point for every dollar or partial dollar spent and after reaching 100 points receive a \$10 discount on a future purchase. An estimate of the obligation related to the program, based on historical redemption rates, is recorded as deferred revenue and a reduction of net retail sales at the time of purchase. The deferred revenue obligation is reduced, and a corresponding amount is recognized in net retail sales, in the amount of and at the time of redemption of the \$10 discount. As the reward certificates can be earned or redeemed at any of our store locations, we account for changes in the deferred revenue account at the total company level only. Therefore, when we refer to net retail sales by location, such as comparable stores or new stores, these amounts do not include any changes in the deferred revenue amount. See “Critical Accounting Estimates” for additional details on the accounting for the deferred revenue program.

We use net retail sales per gross square foot and comparable store sales as performance measures for our business. The following table details net retail sales per gross square foot by age of store for the periods presented:

	Fiscal 2009	Fiscal 2008	Fiscal 2007
Net retail sales per gross square foot – North America ⁽¹⁾⁽²⁾			
Store Age > 5 years (164, 145 and 103 stores, respectively)	\$372	\$448	\$517
Store Age 3-5 years (62, 54 and 65 stores, respectively)	\$341	\$455	\$537
Store Age <3 years (59, 73 and 65 stores, respectively)	\$333	\$432	\$497
All comparable stores	\$358	\$445	\$516

(1) Net retail sales per gross square foot represents net retail sales from stores open throughout the entire period divided by the total gross square footage of such stores. European stores are excluded from the calculation. Calculated on an annual basis only.

(2) Excludes our webstore and seasonal and event-based locations.

The percentage increase (or decrease) in comparable store sales for the periods presented below is as follows:

	Fiscal 2009	Fiscal 2008	Fiscal 2007
Comparable store sales change – North America (%) ⁽¹⁾⁽²⁾			
Store Age > 5 years (164, 145 and 103 stores, respectively)	(15.1)%	(16.0)%	(8.3)%
Store Age 3-5 years (62, 54 and 65 stores, respectively)	(17.7)%	(16.0)%	(10.2)%
Store Age <3 years (59, 73 and 65 stores, respectively)	(22.2)%	(20.2)%	(13.0)%
Total comparable store sales change	(16.7)%	(16.8)%	(9.9)%
Comparable store sales change – Europe (%) ⁽¹⁾⁽²⁾	5.0%	7.7%	–
Comparable store sales change – Consolidated (%) ⁽¹⁾⁽²⁾	(13.4)%	(14.0)%	(9.9)%

(1) Comparable store sales percentage changes are based on net retail sales and stores are considered comparable beginning in their thirteenth full month of operation. Fiscal 2008 first quarter was the first quarter that our European operations met the criteria for inclusion in our comparable store calculation. As such, there is no comparable data for Europe for fiscal 2007.

(2) Excludes our webstore and seasonal and event-based locations.

Prior to 2007, as a group our younger stores have performed at the highest sales per square foot level, above the chain-wide average. Often our stores open with strong sales performance in their first year of operation and show comparable store sales declines in years two and three; new stores typically pay for themselves between their first and second year of operation. Our older stores consistently perform the best on a comparable store sales basis.

Fiscal 2009 consolidated comparable store sales decreased by 13.4%, including a 5.0% increase in Europe and a 16.7% decline in North America (full year comparable store sales are compared to the 52 week period ended Jan. 3, 2009). We believe the decline in consolidated comparable store sales was attributed primarily to the following factors:

- the economic recession and dramatic decrease in consumer sentiment has resulted in a pullback in consumer spending and impacted our comparable store sales; and
- the slowdown in North America shopping mall customer traffic during fiscal 2009 compared to fiscal 2008 has impacted the number of new and returning guests visiting our stores and therefore our comparable store sales. The comparable store sales decline included both a decrease in the number of transactions and a decrease in the average transaction value.

Fiscal 2008 consolidated comparable store sales decreased by 14.0%, including a 7.7% increase in Europe and a 16.8% decline in North America (full year comparable store sales are compared to the 53 week period ended Jan. 5, 2008). Fiscal 2008 was the first year that our European operations met the criteria for inclusion in our comparable store calculation. The growth in comparable store sales in Europe largely reflects increases in brand awareness and improvements in merchandise, store operations, guest satisfaction and inventory flow since we completed the UK acquisition in 2006.

We believe the decline in consolidated comparable store sales was attributed primarily to the following factors:

- the economic recession and dramatic decrease in consumer wealth has resulted in a significant decline in consumer sentiment resulting in a pullback in consumer spending;
- the decline in shopping mall customer traffic during fiscal 2008 compared to fiscal 2007 has impacted the number of new and returning guests visiting our stores; and
- changes in media, online entertainment, children's media consumption, and play patterns, particularly for girls, have increased the interactive play alternatives available to children.

Franchise fees: We receive an initial, one-time franchise fee for each master franchise agreement which is amortized to revenue over the life of the respective franchise agreements, which extend for periods up to 25 years. Master franchise rights are typically granted to a franchisee for an entire country or countries. Continuing franchise fees are based on a percentage of sales (generally 7.5%) made by the franchisees' stores and are recognized as revenue at the time of those sales.

As of January 2, 2010, we had 65 stores, including 10 opened and seven closed in fiscal 2009, operating under franchise arrangements in the following countries:

Japan	10
South Africa	9
Denmark	9
Australia	8
Germany	7
Thailand	6
Singapore	4
Russia	3
Norway	3
Other	6

Licensing revenue: Licensing revenue is based on a percentage of sales made by licensees to third parties and is recognized at the time the product is shipped by the licensee or at the point of sale. We have entered into a number of licensing arrangements whereby third parties manufacture and sell to other retailers merchandise carrying the Build-A-Bear Workshop trademark. Licensing revenue also includes revenue from merchandise sold at stores operated by Landry's restaurants.

COSTS AND EXPENSES

Cost of merchandise sold and gross margin: Cost of merchandise sold includes the cost of the merchandise, including royalties paid to licensors of third party branded merchandise; store occupancy cost, including store depreciation and store asset impairment charges; freight costs from the manufacturer to the warehouse; cost of warehousing and distribution; packaging; stuffing; damages and shortages; and shipping and handling costs incurred in shipment to customers. Gross margin is defined as net retail sales less the cost of merchandise sold.

Selling, general and administrative expense: These expenses include store payroll and benefits, advertising, credit card fees, and store supplies, as well as central office general and administrative expenses, including costs associated with the review of strategic alternatives, virtual world maintenance costs, management payroll, benefits, stock-based compensation, travel, information systems, accounting, insurance, legal and public relations. These expenses also include depreciation and amortization of central office leasehold improvements, furniture, fixtures and equipment as well as the amortization of intellectual property costs.

Central office general and administrative expenses grew over time in order to support the increased number of stores in operation. In 2009, we achieved \$22 million in savings in selling, general and administrative expenses including marketing, central office payroll and outside services. Advertising increased significantly with the introduction in fiscal 2004 of our national television and online advertising campaign. We decreased the level of advertising expense as a percentage of net retail sales in fiscal 2009 as compared to fiscal 2008 and fiscal 2007. We anticipate continued

reductions in advertising expense as a percentage of net retail sales in 2010. Other store expenses such as credit card fees and supplies historically have increased or decreased proportionately with net retail sales.

We have share-based compensation plans covering the majority of our management groups and our Board of Directors. We account for share-based payments utilizing the fair value recognition provisions of Accounting Standards Codification (ASC) Section 718. We recognize compensation cost for equity awards on a straight-line basis over the requisite service period for the entire award. In 2009, we recorded stock-based compensation of approximately \$4.3 million (\$2.6 million net of taxes). In 2008, we recorded stock based compensation of \$3.6 million (\$2.2 million net of tax). In 2007, we recorded stock based compensation of approximately \$3.0 million (\$1.9 million net of tax).

Store preopening: Preopening costs are expensed as incurred and include store set-up, certain labor and hiring costs, and rental charges incurred prior to a store's opening.

Store closing: Store closing costs include costs associated with the closure of our Friends 2B Made concept including, but not limited to, long-lived asset impairment, lease termination and other costs.

Losses from investment in affiliate: Equity losses from investment in affiliate are the result of the allocation of losses related to our investment in Ridemakerz, LLC. Ridemakerz, an early-stage company still in its start-up phase, has incurred substantial losses including charges resulting from a major restructuring of its operations that included store closings. Under current agreements, we are the sole member of an equity class that is allocated losses only following the allocation of losses to all other common and preferred equity holders to the extent of their capital contributions. All of the priority equity members' capital was reduced to zero in the fiscal 2009 second quarter. While as of January 2, 2010, the book value of the Company's investment in Ridemakerz, including receivables, had been reduced to zero, we continue to provide services to Ridemakerz in exchange for equity. This additional investment is subject to ongoing loss allocations and impairment review.

EXPANSION AND GROWTH POTENTIAL

Company-owned stores: The number of Build-A-Bear Workshop stores in the United States, Canada, Puerto Rico, the United Kingdom, Ireland and France for the last three fiscal years can be summarized as follows:

	Fiscal 2009	Fiscal 2008	Fiscal 2007
Beginning of period	346	321	271
Opened	1	25	50
Closed	(2)	—	—
End of period	345	346	321

On April 2, 2006 we acquired all of the outstanding shares of The Bear Factory Limited, a stuffed animal retailer in the United Kingdom and Ireland, and Amsbra Limited, our former United Kingdom franchisee. We are currently operating 36 of the acquired stores, having permanently closed four locations during transition. We currently operate 50 stores in the United Kingdom, one store in Ireland and three stores in France.

The Friends 2B Made stores are not included in the number of store openings in fiscal 2009, 2008 or 2007 as noted above but rather are considered expansions of Build-A-Bear Workshop stores. In the fiscal 2008 third quarter, we announced plans to close the Friends 2B Made concept; concept closure was completed in the fiscal 2009 third quarter.

In fiscal 2009, we opened one Build-A-Bear Workshop store in North America and none in the United Kingdom. In fiscal 2010, we anticipate opening one Build-A-Bear Workshop store in North America and two in the United Kingdom. We believe there is a market potential for at least 350 Build-A-Bear Workshop stores in the United States, Puerto Rico and Canada and 70 stores in the United Kingdom and Ireland.

Non-store locations: In 2004 we began offering merchandise in seasonal, event-based locations such as Major League Baseball ballparks. We expect to expand our future presence at select seasonal locations contingent on their availability. As of January 2, 2010, we had a total of four ballpark locations. We also opened up our first store in a science center during fiscal 2007 and our first store in a zoo during fiscal 2006.

International franchise revenue: Our first franchisee location was opened in November 2003. The number of international, franchised stores opened and closed for the periods presented below can be summarized as follows:

	Fiscal 2009	Fiscal 2008	Fiscal 2007
Beginning of period	62	53	34
Opened	10	16	22
Closed	(7)	(7)	(3)
End of period	65	62	53

As of January 2, 2010, we had 14 master franchise agreements, which typically grant franchise rights for a particular country or countries, covering 20 countries. In the ordinary course of business, we anticipate signing additional master franchise agreements in the future and terminating other such agreements. We expect our current and future franchisees to open three stores in fiscal 2010, net of closures. We believe there is a market potential for approximately 300 franchised stores outside of the United States, Canada, the United Kingdom, Ireland and France.

Licensing revenue: In fiscal 2004, we began entering into license agreements pursuant to which we receive royalties on Build-A-Bear Workshop brand products. These agreements

generated revenue of \$2.5 million in 2009, \$2.7 million in 2008 and \$2.6 million in 2007. We anticipate entering into additional license agreements in the future.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, selected statement of operation data expressed as a percentage of total revenues, except where otherwise indicated. Percentages will not total due to cost of merchandise sold being expressed as a percentage of net retail sales and rounding:

	Fiscal 2009	Fiscal 2008	Fiscal 2007
Revenues:			
Net retail sales	98.5%	98.5%	98.7%
Franchise fees	0.9	0.9	0.8
Licensing revenues	0.6	0.6	0.5
Total revenues	100.0	100.0	100.0
Costs and expenses:			
Cost of merchandise sold ⁽¹⁾	63.3	58.7	53.3
Selling, general, and administrative	41.0	39.7	37.4
Store preopening	—	0.5	0.9
Store closing	0.2	0.6	—
Losses from investment in affiliate	2.4	—	—
Interest expense (income), net	—	(0.2)	(0.3)
Total costs and expenses	106.0	98.5	92.6
Income (loss) before income taxes	(6.0)	1.5	7.4
Income tax expense (benefit)	(2.9)	0.6	2.6
Net income (loss)	(3.2)%	1.0%	4.7%
Gross margin (%) ⁽²⁾	36.7%	41.3%	44.7%

(1) Cost of merchandise sold is expressed as a percentage of net retail sales.

(2) Gross margin represents net retail sales less cost of merchandise sold, which includes store asset impairment charges in 2009 and 2008. Gross margin percentage represents gross margin divided by net retail sales.

Fiscal Year Ended January 2, 2010 (52 weeks) Compared to Fiscal Year Ended January 3, 2009 (53 weeks)

Total revenues. Net retail sales decreased to \$388.6 million for fiscal 2009 from \$461.0 million for fiscal 2008, a decrease of \$72.4 million, or 15.7%. Sales from new stores contributed an \$11.0 million increase in net retail sales. Offsetting these increases, comparable store sales decreased \$55.7 million, or 13.4% and a \$10.0 million impact of foreign currency exchange rates. Other changes in net retail sales totaled \$17.7 million and included the impact of the 53rd week in fiscal 2008, changes in deferred revenue, sales from non-store locations, and sales over the Internet.

Revenue from international franchise fees decreased to \$3.4 million for fiscal 2009 from \$4.2 million for fiscal 2008, a decrease of \$0.8 million. This decrease was primarily due to the global economic slowdown. Licensing revenue was

\$2.5 million in fiscal 2009 compared to \$2.7 million in fiscal 2008. This decrease was primarily due to the anniversary of the Nintendo DS and Wii games from December 2008 with new launches for both scheduled for spring 2010.

Gross margin. Gross margin decreased to \$142.6 million for fiscal 2009 from \$190.5 million for fiscal 2008, a decrease of \$47.9 million, or 25.1%. As a percentage of net retail sales, gross margin decreased to 36.7% for fiscal 2009 from 41.3% for fiscal 2008, a decrease of 460 basis points as a percentage of net retail sales (bps). This decrease resulted primarily from higher occupancy costs in the U.S. and Canada as a percentage of net retail sales resulting from the decline in comparable store sales as well as a slight decline in merchandise margins. Store asset impairment charges of \$5.3 million also contributed to the decline. Improvements in warehousing and distribution slightly offset the decline.

Selling, general and administrative. Selling, general and administrative expenses were \$161.7 million for fiscal 2009 as compared to \$185.6 million for fiscal 2008, a decrease of \$23.9 million, or 12.9%. As a percentage of total revenues, selling, general and administrative expenses increased to 41.0% for fiscal 2009 as compared to 39.7% for fiscal 2008, an increase of 130 bps. The dollar decrease was primarily due to North American cost reductions in marketing and store payroll, and central office expenses, including reductions in salary, outside services and travel expenses. Selling, general and administrative expense as a percentage of total revenues was slightly higher primarily due to lack of leverage on store and central office salaries including stock-based compensation expense.

Store preopening. Store preopening expense was \$0.1 million for fiscal 2009 as compared to \$2.4 million for fiscal 2008. The decrease was primarily due to opening one store in fiscal 2009 as compared to 25 in 2008. These amounts include preopening rent expense of \$9,000 for fiscal 2009 and \$0.4 million for fiscal 2008. Preopening expenses include expenses for stores that have opened as well as some expenses incurred for stores that will be opened at a later date.

Store closing. Store closing expenses of \$1.0 million for fiscal 2009 and \$3.0 million for fiscal 2008 related to the closure of the Friends 2B Made concept and consisted primarily of lease termination charges, inventory write-offs and construction costs incurred to reformat locations for return to the landlord in 2009 and asset impairment charges in fiscal 2008.

Losses from investment in affiliate. Losses from investment in affiliate of \$9.6 million fiscal 2009 are losses related to our investment in Ridemakerz. Ridemakerz is a young company still in its start-up phase. In 2009, Ridemakerz undertook a major restructuring of its operations that included significant store closings. The losses incurred in 2009 are comprised of a \$7.5 million non-cash charge of Ridemakerz net loss allocations, a \$1.0 million non-cash impairment charge and a \$1.1 million write-off of Ridemakerz outstanding receivable. While as of January 2, 2010, the book value of the

Company's investment in Ridemakerz, including receivables, had been reduced to zero, the Company continues to provide services to Ridemakerz in exchange for equity. This additional investment is subject to ongoing loss allocations and impairment review.

Interest expense (income), net. Interest income, net of interest expense, was \$0.1 million for fiscal 2009 as compared to \$0.8 million for fiscal 2008.

Provision for income taxes. The income tax benefit was \$11.4 million for fiscal 2009 as compared to income tax expense of \$2.7 million for fiscal 2008. The effective rate was 47.7% in 2009 and 36.8% for fiscal 2008. The increase in the effective tax rate was primarily attributable to a release of valuation allowances on net operating loss carryforwards associated with our UK operations as a result of management's determination that it is more likely than not that the benefit of these losses will be realized.

Fiscal Year Ended January 3, 2009 (53 weeks) Compared to Fiscal Year Ended December 29, 2007 (52 weeks)

Total revenues. Net retail sales decreased to \$461.0 million for fiscal 2008 from \$468.2 million for fiscal 2007, a decrease of \$7.2 million, or 1.5%. Sales from new stores contributed a \$47.6 million increase in net retail sales. Included in net retail sales in fiscal 2008 is an adjustment to deferred revenue of \$1.8 million, effective at the beginning of fiscal 2008, related to the assessment of redemption rates on our customer loyalty program. Offsetting these increases, comparable store sales decreased \$63.5 million, or 14.0%. Other changes in net retail sales totaled \$6.9 million and included the impact of the 53rd week in fiscal 2008, the impact of currency exchange rates, sales from non-store locations, and sales over the Internet.

Revenue from international franchise fees increased to \$4.2 million for fiscal 2008 from \$3.6 million for fiscal 2007, an increase of \$0.6 million. This increase was primarily due to the addition of new franchisees and new franchised stores in fiscal 2008. Licensing revenue was \$2.7 million in fiscal 2008 compared to \$2.6 million in fiscal 2007. This increase was primarily due to the addition of new licensing agreements.

Gross margin. Gross margin decreased to \$190.5 million for fiscal 2008 from \$209.1 million for fiscal 2007, a decrease of \$18.6 million, or 8.9%. As a percentage of net retail sales, gross margin decreased to 41.3% for fiscal 2008 from 44.7% for fiscal 2007, a decrease of 340 bps. This decrease resulted primarily from higher occupancy costs in the U.S. and Canada as a percentage of net retail sales resulting from the decline in comparable store sales as well as a decline in merchandise margins. Store asset impairment charges of \$1.8 million also contributed to the decline.

Selling, general and administrative. Selling, general and administrative expenses were \$185.6 million for fiscal 2008 as compared to \$177.4 million for fiscal 2007, an increase of \$8.2 million, or 4.6%. As a percentage of total revenues,

selling, general and administrative expenses increased to 39.7% for fiscal 2008 as compared to 37.4% for fiscal 2007, an increase of 230 bps. The dollar increase was primarily due to 25 more stores in operation at January 3, 2009 as compared to December 29, 2007 with the increased salaries at the stores and central office to support the larger store base, severance costs related to central office staff reductions, as well as additional costs related to the virtual world, partially offset by a decrease in advertising. Selling, general and administrative expense as a percentage of total revenues was higher primarily due to lack of leverage on store and central office salaries including stock-based compensation expense.

Store preopening. Store preopening expense was \$2.4 million for fiscal 2008 as compared to \$4.4 million for fiscal 2007. The \$2.0 million decrease was primarily due to opening 25 stores in fiscal 2008 as compared to 50 in 2007. These amounts include preopening rent expense of \$0.4 million for fiscal 2008 and \$1.0 million for fiscal 2007. Preopening expenses include expenses for stores that have opened as well as some expenses incurred for stores that will be opened at a later date.

Store closing. Store closing expense was \$3.0 million for fiscal 2008 and consisted primarily of asset impairment charges related to the closure of the Friends 2B Made concept.

Interest expense (income), net. Interest income, net of interest expense, was \$0.8 million for fiscal 2008 as compared to \$1.5 million for fiscal 2007.

Provision for income taxes. The provision for income taxes was \$2.7 million for fiscal 2008 as compared to \$12.5 million for fiscal 2007. The effective rate was 36.8% in 2008 and 35.7% for fiscal 2007. The increase in the effective tax

rate was primarily attributable to an increase of valuation allowances on net operating loss carryforwards offset by the release of tax reserves and the favorable impact of lower foreign taxes.

NON-GAAP FINANCIAL MEASURES

We use the term "store contribution" throughout this Annual Report on Form 10-K. Store contribution consists of income before income tax expense, interest, store depreciation and amortization, store preopening expense, store closing expense and general and administrative expense, excluding franchise fees, income from licensing activities and contribution from our webstore and seasonal and event-based locations. This term, as we define it, may not be comparable to similarly titled measures used by other companies and is not a measure of performance presented in accordance with U.S. generally accepted accounting principles (GAAP).

We use store contribution as a measure of our stores' operating performance. Store contribution should not be considered a substitute for net income, net income per store, cash flows provided by operating activities, cash flows provided by operating activities per store, or other income or cash flow data prepared in accordance with U.S. GAAP.

We believe store contribution is useful to investors in evaluating our operating performance because it, along with the number of stores in operation, directly impacts our profitability.

The following table sets forth a reconciliation of store contribution to net income for our company-owned stores located in the United States, Canada and Puerto Rico (North America), stores located in the U.K., Ireland and France (Europe) and for our consolidated store base (dollars in thousands):

	Fiscal 2009			Fiscal 2008		
	North America	Europe	Total	North America	Europe	Total
Net income (loss)	\$ (14,384)	\$ 1,911	\$ (12,473)	\$ 4,150	\$ 414	\$ 4,564
Income tax expense (benefit)	(9,434)	(1,933)	(11,367)	1,806	857	2,663
Interest expense (income)	(93)	(50)	(143)	(494)	(305)	(799)

Franchising and licensing revenues from external customers	(6,193)	—	(6,193)
Revenues from non-store activities ⁽⁶⁾	(16,321)	(1,149)	(17,470)
Store location net retail sales	\$392,845	\$57,855	\$450,700
Store contribution as a percentage of store location net retail sales	22.9%	11.4%	21.5%
Total net income as a percentage of total revenues	5.3%	1.1%	4.7%

(1) Store depreciation, amortization and impairment includes depreciation and amortization of all capitalized assets in store locations, including leasehold improvements, furniture and fixtures, and computer hardware and software and store asset impairment charges.

(2) Store closing expense represents asset impairment and other charges related to the closure of the Friends 2B Made concept.

(3) Losses from investment in affiliate represent the Company's portion of losses of Ridemakerz.

(4) General and administrative expenses consist of non-store, central office general and administrative functions such as management payroll and related benefits, travel, information systems, accounting, purchasing and legal costs as well as the depreciation and amortization of central office leasehold improvements, furniture and fixtures, computer hardware and software, including assets related to the virtual world, and intellectual property. General and administrative expenses also include a central office marketing department, primarily payroll and related benefits expense, but exclude advertising expenses, such as direct mail catalogs and television advertising, which are included in store contribution.

(5) Franchising and licensing contribution includes franchising and licensing revenues and all expenses attributable to the international franchising and licensing and entertainment segments other than depreciation, amortization and interest expense/income. Depreciation and amortization related to franchising and licensing is included in the general and administrative expense caption. Interest expense/income related to franchising and licensing is included in the interest expense (income) caption.

(6) Non-store activities include our webstores and seasonal and event-based locations as well as intercompany transfer pricing charges.

SEASONALITY AND QUARTERLY RESULTS

The following is a summary of certain unaudited quarterly results of operations data for each of the last two fiscal years.

	Fiscal 2009				Fiscal 2008			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
(Dollars in millions, except per share data)								
Total revenues	\$ 97.3	\$ 82.4	\$ 91.7	\$ 123.0	\$ 123.8	\$ 94.7	\$ 107.2	\$ 142.2
Gross margin ⁽¹⁾	35.3	26.7	32.7	47.9	53.1	34.0	42.3	61.1
Losses from investment in affiliate	—	0.5	4.6	4.5	—	—	—	—
Net income (loss)	(0.8)	(6.0)	(4.8)	(0.9)	6.4	(4.8)	(2.0)	5.0
Earnings (loss) per common share:								
Basic	(0.04)	(0.32)	(0.25)	(0.05)	0.32	(0.25)	(0.11)	0.28
Diluted	(0.04)	(0.32)	(0.25)	(0.05)	0.32	(0.25)	(0.11)	0.28
Number of stores (end of quarter)	346	345	345	345	325	330	341	346

(1) Gross margin represents net retail sales less cost of merchandise sold.

Our operating results for one period may not be indicative of results for other periods, and may fluctuate significantly because of a variety of factors, including those discussed under "Risk Factors — Risks Related to Owning Our Common Stock - Fluctuations in our quarterly results of operations could cause the price of our common stock to substantially decline."

The timing of new store openings may result in fluctuations in quarterly results as a result of the revenues and expenses associated with each new store location. We typically incur most preopening costs for a new store in the three months immediately preceding the store's opening. We expect our growth, operating results and profitability to depend in some degree on our ability to increase our number of stores.

For accounting purposes, the quarters of each fiscal year consist of 13 weeks, although we will have a 14-week quarter approximately once every six years. The fiscal 2008 fourth quarter was a 14-week quarter. Quarterly fluctuations and seasonality may cause our operating results to fall below the expectations of securities analysts and investors, which could cause our stock price to fall.

LIQUIDITY AND CAPITAL RESOURCES

Our cash requirements are primarily for the opening of new stores, information systems and working capital. Over the past several years, we have met these requirements through capital generated from cash flow provided by operations. We have access to additional cash through our revolving line of credit that has been in place since 2000. From our inception to December 2001, we raised at various times a total of \$44.9 million in capital from several private investors. In 2004, we raised \$25.7 million from the initial public offering of our common stock.

Operating Activities. Cash flows provided by operating activities were \$24.0 million in fiscal 2009, \$23.6 million in fiscal 2008 and \$56.4 million in fiscal 2007. Cash flows from operating activities increased slightly in fiscal 2009 as compared to 2008 as net losses were offset by cost reductions. Cash flows from operating activities decreased in fiscal 2008 as compared to 2007 primarily due to the decrease in net income, higher redemption of gift cards

during the 53rd week of fiscal 2008 and increases in inventory due to the larger store base.

Investing Activities. Cash flows used in investing activities were \$8.9 million in fiscal 2009, \$26.6 million in fiscal 2008 and \$40.9 million in fiscal 2007. Cash used in investing activities in 2009 related primarily to the continued installation and upgrades of central office information technology systems, acquisition of intangible assets, repurposing existing Friends 2B Made locations to Build-A-Bear Workshop stores, the opening of one new store and the relocation of one store. Cash used in investing activities in fiscal 2008 and 2007 relates primarily to opening 25 and 50 new stores, respectively, and additional investments in Ridemakerz.

Financing Activities. There was no cash from financing activities in 2009. Financing activities used cash of \$14.0 million in fiscal 2008 and \$3.1 million in fiscal 2007. Purchases of our stock in fiscal 2008 and 2007 used cash of \$14.3 million and \$4.7 million, respectively. In fiscal 2007, exercises of employee stock options and employee stock purchases and related tax benefits provided cash of \$1.6 million. No employee stock options were exercised in fiscal 2009 or fiscal 2008.

Capital Resources. As of January 2, 2010, we had a cash balance of \$60.4 million, approximately half of which was domiciled outside of the United States. We also have a line of credit, which we can use to finance capital expenditures and working capital needs throughout the year. The credit agreement is with U.S. Bank, National Association and was amended effective October 28, 2009. The bank line continues to provide availability of \$40 million for the first half of the fiscal year and a seasonal overline of \$50 million. The seasonal overline is in effect from July 1 to December 31 each year. Borrowings under the credit agreement are secured by our assets and a pledge of 65% of our ownership interest in our foreign subsidiaries. The credit agreement expires on December 31, 2011 and contains various restrictions on indebtedness, liens, guarantees, redemptions, mergers, acquisitions or sale of assets, loans, transactions with affiliates, and investments. It also prohibits us from

declaring dividends without the bank's prior consent, unless such payment of dividends would not violate any terms of the credit agreement. Borrowings bear interest at LIBOR plus 2.05%. Financial covenants include maintaining a minimum tangible net worth, maintaining a minimum fixed charge coverage ratio (as defined in the credit agreement) and not exceeding a maximum funded debt to earnings before interest, depreciation and amortization ratio. As of January 2, 2010: (i) we were in compliance with these covenants; (ii) there were no borrowings under our line of credit; (iii) there was a standby letter of credit of approximately \$1.1 million outstanding under the credit agreement and (iv) there was approximately \$38.9 million available for borrowing under the line of credit.

Most of our retail stores are located within shopping malls and all are operated under leases classified as operating leases. Our leases in North America typically have a ten-year term and contain provisions for base rent plus percentage rent based on defined sales levels. Many of the leases contain a provision whereby either we or the landlord may terminate the lease after a certain time, typically in the third to fourth year of the lease, if a certain minimum sales volume is not achieved. Many leases contain incentives to help defray the cost of construction of a new store. Typically, a portion of the incentive must be repaid to the landlord if we choose to terminate the lease. In addition, some of these leases contain various restrictions relating to change of control of our company. Our leases also subject us to risks relating to compliance with changing mall rules and the exercise of discretion by our landlords on various matters, including rights of termination in some cases.

Our leases in the United Kingdom and Ireland typically have terms of 10 to 15 years and generally contain a provision whereby every fifth year the rental rate can be adjusted to reflect the current market rates. The leases typically provide the lessee with the first right for renewal at the end of the lease. We may also be required to make deposits and rent guarantees to secure new leases as we expand. Real estate taxes also change according to government time schedules to reflect current market rental rates for the locations we lease. Rents are charged quarterly and paid in advance.

Our French leases each have terms of 10 years. French leases for premier retail properties frequently have entry fees and/or key money payments required to be made in conjunction with signature of the leases. Such entry fees or key money payments may be recovered, in whole or in part, upon disposal of the leases. The leases typically provide the lessee with the first right for renewal at the end of the lease. Rent deposits consisting of three months rent are also required to be paid on execution of the leases. Rents are negotiated on a fixed basis, but are reviewed annually in relation to an inflation index and therefore also have a variable rent component. Rents are charged quarterly and paid in advance.

In fiscal 2010, we expect to spend approximately \$12 million on capital expenditures. Capital spending in fiscal 2009 totaled \$8.1 million. Capital spending in fiscal 2009 was primarily for the continued installation and upgrades of central office information technology systems, acquisition of intangible assets, repurposing existing Friends 2B Made locations to Build-A-Bear Workshop stores, the opening of one new store and the relocation of one store.

On February 20, 2007, we announced a \$25 million share repurchase program of our outstanding common stock over the following twelve months. The program was authorized by our board of directors. On March 10, 2008, we announced an expansion of our share repurchase program to \$50 million for an additional twelve months. On March 3, 2009, we announced a twelve month extension of our share repurchase program. On March 3, 2010, we announced that our share repurchase program had been extended to March 31, 2011. We currently intend to purchase up to an aggregate of \$50 million of our common stock in the open market (including through 10b5-1 plans), through privately negotiated transactions or through an accelerated repurchase transaction. The primary source of funding for the program is expected to be cash on hand. The timing and amount of share repurchases, if any, will depend on price, market conditions, applicable regulatory requirements, and other factors. The program does not require us to repurchase any specific number of shares and may be modified, suspended or terminated at any time without prior notice. Shares repurchased under the program will be subsequently retired. As of March 15, 2010, approximately 2,072,000 shares at an average price of \$9.83 per share have been repurchased under this program for an aggregate amount of \$20.4 million.

We believe that cash generated from operations and borrowings under our credit agreement will be sufficient to fund our working capital and other cash flow requirements for the near future. Our credit agreement expires on December 31, 2011.

Off-Balance Sheet Arrangements

We hold a minority interest in Ridemakerz, which is accounted for under the equity method. We purchased a call option from a group of other Ridemakerz investors for \$150,000 for 1.25 million Ridemakerz common units at an exercise price of \$1.25 per unit. The call option was immediately exercisable and expires April 30, 2012. Simultaneously, we granted a put option to the same group of investors for 1.25 million common units at an exercise price of \$0.50 per unit. The put option was exercisable on April 30, 2008 and expires on April 30, 2012. As of January 2, 2010, the book value of our investment in Ridemakerz had been reduced to zero. We still retained an ownership interest of approximately 25%. Under the current agreements, we could own up to approximately 33% of fully diluted equity in Ridemakerz. See Note 16 — Investment in Affiliate to the Consolidated Financial Statements for additional information.

Contractual Obligations and Commercial Commitments

Our contractual obligations and commercial commitments include future minimum obligations under operating leases and purchase obligations. Our purchase obligations primarily consist of purchase orders for merchandise inventory and obligations associated with building out our stores. The future minimum payments for these obligations as of January 2, 2010 for periods subsequent to this date are as follows:

(In thousands)	Payments Due by Fiscal Period as of January 2, 2010						
	Total	2010	2011	2012	2013	2014	Beyond
Operating lease obligations	\$282,577	\$50,651	\$47,107	\$42,345	\$35,469	\$31,319	\$75,686
Purchase obligations	29,384	28,884	250	250	—	—	—
Total	\$311,961	\$79,535	\$47,357	\$42,595	\$35,469	\$31,319	\$75,686

Our total liability for uncertain tax positions under the Financial Accounting Standards Board Accounting Standards Codification (ASC) section 740-10-25 was \$0.6 million as of January 2, 2010. During the next fiscal year, it is reasonably possible that the unrecognized tax benefits will be reduced by \$0.3 million either because the tax positions are sustained on audit or expiration of statute of limitations. At this time, we do not expect a significant payment related to these obligations within the next year. See Note 8 - Income Taxes to the Consolidated Financial Statements for additional information.

INFLATION

We do not believe that inflation has had a material adverse impact on our business or operating results during the periods presented. We cannot assure you, however, that our business will not be affected by inflation in the future.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the appropriate application of certain accounting policies, which require us to make estimates and assumptions about future events and their impact on amounts reported in our financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the financial statements.

We believe application of accounting policies, and the estimates inherently required therein, are reasonable. These accounting policies and estimates are periodically reevaluated, and adjustments are made when facts and circumstances dictate a change. Historically, we have found our application of accounting policies to be appropriate, and actual results have not differed materially from those determined using necessary estimates.

Our accounting policies are more fully described in Note 2 to our Consolidated Financial Statements, which appear elsewhere in this Annual Report on Form 10-K. We have identified the following critical accounting estimates:

Inventory

Inventory is stated at the lower of cost or market, with cost determined on an average cost basis. Historically, we have not conducted sales whereby we offer products below cost.

Throughout the year we record an estimated cost of shortage based on past experience. The amount accrued for shortage each period is based on detailed historical averages. The accrual rate remained unchanged for fiscal 2009, 2008 and 2007. Periodic physical inventories are taken and any difference between the actual physical count of merchandise and the recorded amount in our records are adjusted and recorded as shortage. Historically, including fiscal years 2009, 2008 and 2007, the timing of the physical inventory has been in the fourth quarter so that no material amount of shortage was required to be estimated on activity between the date of the physical count and year-end. However, future physical counts of merchandise may not be at times at or near the end of a fiscal quarter or fiscal year-end, and our estimate of shortage for the intervening period may be material based on the amount of time between the date of the physical inventory and the date of the fiscal quarter or year-end.

Long-Lived Assets

In accordance with ASC section 360-10-35 we assess the potential impairment of long-lived assets annually or when events or changes in circumstances indicate that the carrying value may not be recoverable. Recoverability is measured by comparing the carrying amount of an asset, or asset group, to expected future net cash flows generated by the asset, or asset group. If the carrying amount exceeds its estimated undiscounted future cash flows, the carrying amount is compared to its fair value and an impairment charge is recognized to the extent of the difference. For purposes of evaluating store assets for impairment, we have determined that each store location is an asset group. As of January 2, 2010, store assets represented approximately \$70.0 million, or approximately 70% of total property, plant and equipment, net. Factors that we consider important which could

individually or in combination trigger an impairment review include, but are not limited to, the following: (1) significant underperformance relative to historical or projected future operating results; (2) significant changes in the manner of our use of the acquired assets or the strategy for our overall business; and (3) significant changes in our business strategies and/or negative industry or economic trends. We assess events and changes in circumstances or strategy that could potentially indicate that the carrying value of long-lived assets may not be recoverable as they occur. Due to the seasonality of operations, we assess store performance annually, using the full year's results. We consider a historical and/or projected negative cash flow trend for a store location to be an indicator that the carrying value of that asset group may not be recoverable.

As a result of our 2009 review, we determined that several stores would not be able to recover the carrying value of certain store leasehold improvements through expected undiscounted cash flows over the remaining life of the related assets. Accordingly, we reduced the carrying value of the assets to fair value, calculated as the present value of estimated future cash flows for each asset group and recorded asset impairment charges of \$3.3 million in the fourth quarter of fiscal 2009, which is included in cost of merchandise sold. The calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, such as changes in the financial performance of the asset group, future growth rate and discount rate. In order to evaluate the sensitivity of the fair value assumptions on store asset impairment, we applied a hypothetical decrease of 1% in the comparable stores sales trend and in margin, which we believe is appropriate. Based on the analysis performed as of January 2, 2010, the changes in our assumptions would have resulted in additional impairment charges of \$0.8 million.

As a result of our 2008 review, we determined that several stores would not be able to recover the carrying value of certain store leasehold improvements through expected undiscounted cash flows over the remaining life of the related assets. Accordingly, we reduced the carrying value of the assets to fair value, calculated as the present value of estimated future cash flows for each asset group, and recorded asset impairment charges of \$1.8 million in the fourth quarter of fiscal 2008, which is included in cost of merchandise sold. No store assets were impaired in fiscal 2007.

In the event that we decide to close any or all of these stores in the future, we may be required to record additional impairment, lease termination charges, severance charges and other charges. Impairment losses in the future are dependent on a number of factors such as site selection and general economic trends, and thus could be significantly different than historical results. As we continue to face a challenging retail environment and general uncertainty in the global economy, the assumptions used in future calculations of fair value may change significantly which could result in further impairment charges in future periods.

In the fiscal 2008 third quarter, we announced plans to close our Friends 2B Made concept. During the third quarter of fiscal 2008, we recorded an impairment charge of \$2.9 million, related to the closures. In 2009, we incurred additional pre-tax charges of approximately \$1.0 million, primarily attributable to lease termination charges, inventory write-offs and construction costs incurred to reformat locations for return to the landlord.

Corporate assets, including computer hardware and software and the Company-owned distribution center (approximately \$31.0 million as of January 2, 2010), and certain intangible assets, such as trademarks and intellectual property, net, (approximately \$2.6 million as of January 2, 2010), have a broad applicability and generally considered to be recoverable, unless abandoned. Other long-lived assets, including deferred franchise and lease costs, key money and long-term rent deposits, (approximately \$5.7 million as of January 2, 2010), are monitored in relation to the relevant franchisee or store location. In 2009, we determined that certain key money and long-term lease deposits were no longer fully recoverable. Accordingly, we reduced the carrying value of the assets to their estimated fair value and recorded asset impairment charges of \$1.8 million in the fourth quarter of fiscal 2009, which is included in cost of merchandise sold. None of these other long-lived assets were impaired in fiscal 2008 or 2007.

Goodwill and Other Intangibles

We record goodwill related to the excess of the purchase price over the fair value of net assets acquired. All of our recorded goodwill, which is associated with our UK Acquisition, is recorded in the European reporting unit. At January 2, 2010 and January 3, 2009, our goodwill balance was \$33.8 million and \$30.5 million, respectively. The increase is due to foreign currency translation adjustments. Goodwill is subject to periodic evaluation for impairment when circumstances warrant, or at least once per year. We perform our annual impairment assessment as of the end of the fourth quarter of each year. Impairment is tested in accordance with ASC section 350-20-35, by comparison of the carrying value of the reporting unit to its estimated fair value. As there are not quoted prices for our reporting unit, fair value is estimated based upon a present value technique using estimated discounted future cash flows, forecasted over the reasonably assured lease terms for retail stores, with growth rates forecasted for the reporting unit and using a credit adjusted discount rate. We use current results, trends, future prospects, and other economic factors as the basis for expected future cash flows.

Assumptions in estimating future cash flows are subject to a high degree of judgment and complexity. We make every effort to forecast these future cash flows as accurately as possible with the information available at the time the forecast is developed. However, changes in the assumptions and estimates may affect the carrying value of goodwill, and could

result in additional impairment charges in future periods. Factors that have the potential to create variances between forecasted cash flows and actual results include but are not limited to (i) fluctuations in sales volumes, (ii) long-term growth in the number of stores; and (iii) distribution costs, including fuel, and other product costs. Refer to "Forward-Looking Statements" included in the beginning of this Form 10-K for further information regarding the impact of estimates of future cash flows.

The calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, such as changes in the financial performance of the reporting unit, future growth rate, and discount rate. In order to evaluate the sensitivity of the fair value calculations on the goodwill impairment test, we applied a hypothetical decrease in cash flows, and made changes to our projected growth rate and discount rate which we believe are considered appropriate. Based on the goodwill analysis performed as of January 2, 2010, the outlined changes in our assumptions would not affect the results of the impairment test, as the reporting unit still had an excess of fair value over the carrying value. However, as we continue to face a challenging retail environment and general uncertainty in the global economy, the assumptions used in future calculations of fair value may change significantly which could result in impairment charges in future periods.

Revenue Recognition

Revenues from retail sales, net of discounts and excluding sales tax, are recognized at the time of sale. Guest returns have not been significant. Revenues from gift certificates are recognized at the time of redemption. Unredeemed gift cards are included in current liabilities on the consolidated balance sheets.

We have an automated frequent shopper program in North America, the Stuff Fur Stuff club, whereby guests enroll in the program and receive one point for every dollar or partial dollar spent and after reaching 100 points receive a \$10 discount on a future purchase. An estimate of the obligation related to the program, based on historical redemption rates, is recorded as deferred revenue and a reduction of net retail sales at the time of purchase. The deferred revenue obligation is reduced, and a corresponding amount is recognized in net retail sales, in the amount of and at the time of redemption of the \$10 discount.

We use actual redemption rates and historical results to estimate how much revenue to defer. We review these redemption rates and assess the adequacy of the deferred revenue account at the end of each fiscal quarter. Due to the estimates involved in these assessments, adjustments to the deferral rate are generally made no more often than bi-annually in order to allow time for more definite trends to emerge.

Based on the most recent assessment at the end of fiscal 2009, no adjustment was made to the deferral rate. The

calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, specifically, expected redemption rates. In order to evaluate the sensitivity of the estimates used in the recognition of deferred revenue, we applied a hypothetical decrease of 25 bps in the redemption rate which we believe is appropriate. Based on the analysis performed as of January 2, 2010, the change in our assumptions would have resulted in a \$0.7 million reduction of net retail sales.

Based on the assessment at the end of fiscal 2008, the deferred revenue liability was adjusted downward by \$1.8 million, effective at the beginning of fiscal 2008, with a corresponding increase to net retail sales, and a \$1.2 million increase in net income. Additionally, the amount of revenue being deferred for future periods was decreased by 33 bps to give effect to the change in redemption experience and the increased visibility of the redemptions with the automated system.

In 2007, we reduced the estimated liability by \$0.4 million.

Recent Accounting Pronouncements

There are no recently issued but not yet adopted accounting pronouncements that are expected to significantly impact our financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our market risks relate primarily to changes in interest rates, and we bear this risk in two specific ways. First, our revolving credit facility carries a variable interest rate that is tied to market indices and, therefore, our results of operations and our cash flows can be impacted by changes in interest rates. Outstanding balances under our credit facility bear interest at LIBOR plus 2.05%. We had no borrowings outstanding during fiscal 2009. Accordingly, a 100 basis point change in interest rates would result in no material change to our annual interest expense. The second component of interest rate risk involves the short term investment of excess cash in short term, investment grade interest-bearing securities. These investments are considered to be cash equivalents and are shown that way on our balance sheet. If there are changes in interest rates, those changes would affect the investment income we earn on these investments and, therefore, impact our cash flows and results of operations.

We conduct operations in various countries, which expose us to changes in foreign exchange rates. The financial results of our foreign subsidiaries and franchisees may be materially impacted by exposure to fluctuating exchange rates. Reported sales, costs and expenses at our foreign subsidiaries, when translated into U.S. dollars for financial reporting purposes, can fluctuate due to exchange rate movement. While exchange rate fluctuations can have a material impact on reported revenues, costs and expenses, and earnings, this impact is principally the result of the

translation effect and does not materially impact our short-term cash flows.

Although we enter into a significant amount of purchase obligations outside of the U.S., these obligations are settled primarily in U.S. dollars and, therefore, we believe we have only minimal exposure at present to foreign currency exchange risks for our purchase obligations. Historically, we have not hedged our currency risk and do not currently anticipate doing so in the future.

We do not engage in financial transactions for trading or speculative purposes.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and schedules are listed under Item 15(a) and filed as part of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Bear and Chief Operations and Financial Bear, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Our management, with the participation of our Chief Executive Bear and Chief Operations and Financial Bear, also conducted an evaluation of our internal control over financial reporting to determine whether any changes occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on this evaluation, our management, including the Chief Executive Bear and Chief Operations and Financial Bear, concluded that our disclosure controls and procedures were effective as of January 2, 2010, the end of the period covered by this Annual Report.

It should be noted that our management, including the Chief Executive Bear and the Chief Operations and Financial Bear, do not expect that our disclosure controls and procedures or internal controls will prevent all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Under the supervision and with the participation of our management, including the Chief Executive Bear and the Chief Operations and Financial Bear, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of January 2, 2010. All internal control systems have inherent limitations, including the possibility of circumvention and overriding the control. Accordingly, even effective internal control can provide only reasonable assurance as to the reliability of financial statement preparation and presentation. Further, because of changes in conditions, the effectiveness of internal control may vary over time.

In making its evaluation, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in *Internal Control-Integrated Framework*. Based upon this evaluation, our management has concluded that our internal control over financial reporting as of January 2, 2010 is effective.

Our independent registered public accounting firm, KPMG LLP, has audited the effectiveness of our internal control over financial reporting, as stated in its report which is included herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Build-A-Bear Workshop, Inc.:

We have audited Build-A-Bear Workshop, Inc. and subsidiaries' (the Company's) internal control over financial reporting as of January 2, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of

management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Build-A-Bear Workshop, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of January 2, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company as of January 2, 2010 and January 3, 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended January 2, 2010, and our report dated March 18, 2010 expressed an unqualified opinion on those consolidated financial statements.

/s/ KPMG LLP

St. Louis, Missouri
March 18, 2010

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the fourth quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information concerning directors, appearing under the caption “Directors”, “Board of Directors and its Committees”, “Committee Charters, Corporate Governance Guidelines, Business Conduct Policy and Code of Ethics” and “Section 16(a) Beneficial Ownership Reporting Compliance” in our Proxy Statement (the “Proxy Statement”) to be filed with the SEC in connection with our Annual Meeting of Shareholders scheduled to be held on May 13, 2010 is incorporated by reference in response to this Item 10.

BUSINESS CONDUCT POLICY

The Board of Directors has adopted a Business Conduct Policy applicable to our directors, officers and employees, including all executive officers. The Business Conduct Policy has been posted in the Investor Relations section of our corporate website at <http://ir.buildabear.com>. We intend to satisfy the amendment and waiver disclosure requirements under applicable securities regulations by posting any amendments of, or waivers to, the Business Conduct Policy on our website.

The information appearing under the caption “Committee Charters, Corporate Governance Guidelines, Business Conduct Policy and Code of Ethics” in the Proxy Statement is incorporated by reference in response to this Item 10.

EXECUTIVE OFFICERS AND KEY EMPLOYEES

Maxine Clark, 61, has been our Chief Executive Bear since she founded the Company in 1997. She was our President from our inception in 1997 to April 2004, and has served as Chairman of our Board of Directors since our conversion to a corporation in April 2000. She was initially elected to our Board of Directors pursuant to the terms of a stockholders’ agreement which terminated upon the closing of the Company’s initial public offering in 2004. Ms. Clark was re-elected as a director at our 2005 and 2008 Annual Meetings of Stockholders. Prior to founding Build-A-Bear Workshop, Ms. Clark was the President of Payless ShoeSource, Inc. from 1992 until 1996. Before joining Payless, Ms. Clark spent over 19 years in various divisions of The May Department Stores Company in areas including merchandise development, merchandise planning, merchandise research, marketing and product development.

Eric Fencil, 47, joined Build-A-Bear Workshop in July 2008 as Chief Bearrister—General Counsel. In March 2009, he assumed responsibility for international franchising and human resources. He now holds the title of Chief Bearrister, General Counsel and International Franchising. Prior to joining us, Mr. Fencil was Executive Vice President, General Counsel and Secretary for Outsourcing Solutions Inc., a national accounts receivable management firm from August

1998 to June 2008. From September 1990 to August 1998, he held legal positions for Monsanto Company, McDonnell Douglas Corporation and Bryan Cave LLP. Mr. Fencil began his career in 1984 as an auditor with Arthur Young & Company.

Dave Finnegan, 40, joined Build-A-Bear Workshop in December 1999 as Director Inbearmation Technology and was named Chief Information Bear in January 2007, adding logistics responsibilities in March 2009 to become Chief Information and Logistics Bear. Prior to joining the company, Mr. Finnegan held information systems management positions at Novell, Inc. in Provo Utah and Interchange Technologies Inc. in St. Louis, Missouri. Mr. Finnegan is a member of the St. Louis Regional Chief Information Officer Forum and the NSB Executive Client Advisory Board. He was instrumental in the development of buildabearville.com—the company’s virtual world stuffed with fun. The online community received a 2009 “Best of the Web” award from WiredSafety at the 9th Annual Wired Kids Summit and a 2008 iParenting Media Award.

John Haugh, 47, joined Build-A-Bear Workshop in March 2009 as President and Chief Marketing and Merchandising Bear. Prior to joining Build-A-Bear Workshop, Mr. Haugh served as President of It’s Sugar, LLC, a candy and confectionary retailer. Previously, Mr. Haugh served as President of Mars Retail Group from January 2004 to December 2007, where he led all retail business operations for this subsidiary of Mars, Incorporated. Prior to this position, he was Chief Marketing Officer and Senior Vice President, Worldwide Business Development at Payless ShoeSource, Inc. From 1998 to 2000, Mr. Haugh was Executive Vice President, Marketing and Sales for Universal Studios, Inc. Early in his career Mr. Haugh held marketing and sales positions at General Mills, Inc.

Tina Klocke, 50, has been our Chief Financial Bear since November 1997, our Treasurer since April 2000, and Secretary since February 2004. In March 2009, she assumed responsibility for store operations. She now holds the title of Chief Operations and Financial Bear. Prior to joining us, Ms. Klocke was the Controller for Clayton Corporation, a manufacturing company, where she supervised all accounting and finance functions as well as human resources. Prior to joining Clayton Corporation in 1990, she was the controller for Love Real Estate Company, a diversified investment management and development firm. Ms. Klocke began her career in 1982 with Ernst & Young LLP.

Teresa Kroll, 55, joined Build-A-Bear Workshop in September 2001 as Chief Marketing Bear and was named Chief Entertainment Bear in March 2009. Prior to joining us Ms. Kroll was Vice President—Advertising for The WIZ, a unit of Cablevision, from 1999 to 2001. From 1995 to 1999, Ms. Kroll was Director of Marketing for Montgomery Ward Holding Corp., a department store retailer. From 1980 to 1994 Ms. Kroll held various administrative and marketing positions for Venture Stores, Inc.

Notes to Consolidated Financial Statements	46

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Build-A-Bear Workshop, Inc.

We have audited the accompanying consolidated balance sheets of Build-A-Bear Workshop, Inc. and subsidiaries (the Company) as of January 2, 2010 and January 3, 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended January 2, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Build-A-Bear Workshop, Inc. and subsidiaries as of January 2, 2010 and January 3, 2009, and the results of their operations and their cash flows for each of the years in the three-year period ended January 2, 2010, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of January 2, 2010, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 18, 2010 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Notes to Consolidated Financial Statements

(1) DESCRIPTION OF BUSINESS AND BASIS OF PREPARATION

Build-A-Bear Workshop, Inc. (the Company) is a specialty retailer of plush animals and related products. At January 2, 2010, the Company operated 345 stores (unaudited) located in the United States, Canada, Puerto Rico, the United Kingdom, Ireland and France. The Company was formed in September 1997 and began operations in October 1997. The Company changed to a Delaware C Corporation on April 3, 2000. The Company previously operated as a Missouri limited liability company.

During 2001, the Company and a third party formed Build-A-Bear Entertainment, LLC (BABE) for the purpose of promoting the Build-A-Bear Workshop brand and characters of the Company through certain entertainment media. Prior to February 2003, the Company owned 51% and was the managing member.

During 2002, the Company formed Build-A-Bear Workshop Franchise Holdings, Inc. (Holdings) for the purpose of entering into franchise agreements with companies in foreign countries where Build-A-Bear Workshop, Inc. does not have company-owned stores. Holdings is a wholly-owned subsidiary of the Company. As of January 2, 2010, 65 Build-A-Bear Workshop franchise stores are open and operating in 13 countries (unaudited).

During 2003, the Company formed Build-A-Bear Retail Management, Inc. (BABRM) for the purpose of providing purchasing, legal, information technology, accounting, and other general management services for Build-A-Bear Workshop stores. BABRM is a wholly-owned subsidiary of the Company.

On April 2, 2006, we acquired all of the outstanding shares of The Bear Factory Limited, a stuffed animal retailer in the United Kingdom, and Amsbra Limited, our former U.K. franchisee (the UK Acquisition). During 2006, the Company formed Build-A-Bear Workshop UK Holdings, Ltd (UK Holdings) as the parent company to The Bear Factory and Amsbra. UK Holdings is a wholly-owned subsidiary of Holdings. The results of the acquisitions' operations have been included in the consolidated financial statements since the date of acquisition. Also during 2006, the Company formed Build-A-Bear Workshop Ireland, Ltd. and Build-A-Bear Workshop France SAS as wholly-owned subsidiaries of Holdings. We currently operate 36 of the acquired stores, having permanently closed four locations during transition. The Company currently has 54 stores in the United Kingdom, Ireland and France.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Company's significant accounting policies applied in the preparation of the accompanying consolidated financial statements follows:

(a) Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Build-A-Bear Workshop, Inc. and its wholly-owned subsidiaries: Holdings, BAB Canada, BABE, and BABRM. All significant intercompany accounts are eliminated in consolidation.

(b) Fiscal Year

The Company operates on a 52- or 53-week fiscal year ending on the Saturday closest to December 31. The periods presented in these financial statements are the fiscal years ended January 2, 2010 (fiscal 2009), January 3, 2009 (fiscal 2008), and December 29, 2007 (fiscal 2007). Fiscal years 2009 and 2007 included 52 weeks while fiscal year 2008 included 53 weeks. References to years in these financial statements relate to fiscal years or year ends rather than calendar years.

(c) Cash and Cash Equivalents

Cash and cash equivalents include cash and short-term highly liquid investments with an original maturity of three months or less held in both domestic and foreign financial institutions.

The majority of the Company's cash and cash equivalents exceed federal deposit insurance limits. The Company has not experienced any losses in such accounts and management believes that the Company is not exposed to any significant credit risk on cash and cash equivalents.

(d) Inventories

Inventories are stated at the lower of cost or market, with cost determined on an average-cost basis. Inventory includes supplies of \$4.2 million and \$8.3 million as of January 2, 2010 and January 3, 2009, respectively.

(e) Receivables

Receivables consist primarily of amounts due to the Company in relation to tenant allowances, corporate product sales, franchisee royalties and product sales, and licensing revenue. The Company assesses the collectability of all receivables on an ongoing basis by considering its historical credit loss experience, current economic conditions, and other relevant factors. Based on this analysis, the Company has determined that no material allowance for doubtful accounts was necessary at either January 2, 2010 or January 3, 2009.

Notes to Consolidated Financial Statements (continued)

(f) Property and Equipment

Property and equipment consist of leasehold improvements, furniture and fixtures, computer equipment and software, building and land are stated at cost. Leasehold improvements are depreciated using the straight-line method over the shorter of the useful life of the assets or the life of the lease which is generally ten years. Furniture and fixtures and computer equipment are depreciated using the straight-line method over the estimated service lives ranging from three to seven years. Computer software is amortized using the straight-line method over a period of three years. New store construction deposits are recorded at the time the deposit is made as construction-in-progress and reclassified to the appropriate property and equipment category at the time of completion of construction, when operations of the store commence. Maintenance and repairs are expensed as incurred and improvements are capitalized. Gains or losses on the disposition of fixed assets are recorded upon disposal.

(g) Goodwill

In accordance with Financial Accounting Standards Board Accounting Standards Codification (ASC) section 350-20-35, goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. This testing requires comparison of the carrying value of the reporting unit to its fair value, and when appropriate, the carrying value of impaired assets is reduced to fair value. The calculation of fair value requires multiple assumptions regarding our future operations to determine future cash flows, including but not limited to, sales volume, margin rates, store growth rates and discount rates. Based on the annual impairment test performed for the Company's reporting unit as of January 2, 2010, the Company has determined that there was no impairment of goodwill in 2009. If the assumptions used in the analysis were less favorable, it is possible that the Company may have been required to impair goodwill.

(h) Other Intangible Assets

Other intangible assets consist primarily of initial costs related to trademarks and other intellectual property and key money deposits. Trademarks and other intellectual property represent third-party costs that are capitalized and amortized over their estimated lives ranging from one to three years using the straight-line method. Key money deposits represent amounts paid to a tenant to acquire the rights of tenancy under a commercial property lease for a property located in France. These rights can be subsequently sold by us to a new tenant. Key money deposits are amortized to their residual value over the term of the lease.

(i) Other Assets

Other assets consist primarily of deferred leasing fees and deferred costs related to franchise agreements. Deferred

leasing fees are initial, direct costs related to the Company's operating leases and are amortized over the term of the related leases. Deferred franchise costs are initial costs related to the Company's franchise agreements that are deferred and amortized over the life of the respective franchise agreement. Amortization expense related to other assets was \$0.5 million, \$0.5 million and \$0.4 million for 2009, 2008 and 2007, respectively.

(j) Long-lived Assets

Whenever facts and circumstances indicate that the carrying value of a long-lived asset may not be recoverable, the carrying value is reviewed. If this review indicates that the carrying value of the asset will not be recovered, as determined based on projected undiscounted cash flows related to the asset over its remaining life, the carrying value of the asset is reduced to its estimated fair value. See Note 4 – Property and Equipment and Note 6 – Other Intangible Assets for further discussion regarding the impairment of long-lived assets.

The calculation of fair value requires multiple assumptions regarding our future operations to determine future cash flows, including but not limited to, sales volume, margin rates and discount rates. If different assumptions were used in the analysis, it is possible that the amount of the impairment charge may have been significantly different than what was recorded.

(k) Deferred Rent

Certain of the Company's operating leases contain predetermined fixed escalations of minimum rentals during the original lease terms. For these leases, the Company recognizes the related rental expense on a straight-line basis over the life of the lease and records the difference between the amounts charged to operations and amounts paid as deferred rent. The Company also receives certain lease incentives in conjunction with entering into operating leases. These lease incentives are recorded as deferred rent at the beginning of the lease term and recognized as a reduction of rent expense over the lease term. In addition, certain of the Company's leases contain future contingent increases in rentals. Such increases in rental expense are recorded in the period that it is probable that store sales will meet or exceed the specified target that triggers contingent rental expense.

(l) Franchises

The Company defers initial, one-time nonrefundable franchise fees and amortizes them over the life of the respective franchise agreements, which extend for periods up to 25 years. The Company's obligations under the contract are ongoing and include operations and product development support and training, generally concentrated around new store openings. Continuing franchise fees are recognized as revenue as the fees are earned.

Notes to Consolidated Financial Statements (continued)

(m) Retail Revenue Recognition

Net retail sales are net of discounts, exclude sales tax, and are recognized at the time of sale. Shipping and handling costs billed to customers are included in net retail sales.

Revenues from the sale of gift cards are recognized at the time of redemption. Unredeemed gift cards are included in gift cards and customer deposits on the consolidated balance sheets. The company escheats a portion of unredeemed gift cards according to Delaware escheatment regulations that require remittance of the cost of merchandise portion of unredeemed gift cards over five years old. The difference between the value of gift cards and the amount escheated is recorded as income in the consolidated statement of operations.

The Company has an automated frequent shopper program in North America, the Stuff Fur Stuff® club, whereby guests enroll in the program and receive one point for every dollar or partial dollar spent and after reaching 100 points receive a \$10 discount on a future purchase. An estimate of the obligation related to the program, based on historical redemption rates, is recorded as deferred revenue and a reduction of net retail sales at the time of purchase. The deferred revenue obligation is reduced, and a corresponding amount is recognized in net retail sales, in the amount of and at the time of redemption of the \$10 discount.

Management uses actual redemption rates and historical results to estimate how much revenue to defer. Management reviews these redemption rates and assesses the adequacy of the deferred revenue liability at the end of each fiscal quarter. Due to the estimates involved in these assessments, adjustments to the deferral rate are generally made no more often than bi-annually in order to allow time for more definite trends to emerge.

Based on the assessment at the end of fiscal 2009, no adjustment was made to the deferral rate.

Based upon an assessment at the end of fiscal 2008, the deferred revenue account was adjusted downward by \$1.8 million, effective at the beginning of fiscal 2008, with a corresponding increase to net retail sales, and a \$1.1 million increase in net income (\$0.06 per diluted share). Additionally, the amount of revenue being deferred for future periods was decreased by 33 basis points as a percentage of net retail sales (bps), to give effect to the change in redemption experience and the increased visibility of the redemptions with the automated system.

In 2007, the Company reduced the estimated liability by \$0.4 million. Based on the assessment at the end of fiscal 2007, no adjustment was made to the deferral rate.

(n) Cost of Merchandise Sold

Cost of merchandise sold includes the cost of the merchandise, including royalties paid to licensors of third party branded merchandise; store occupancy cost, including

store depreciation and store asset impairment charges; cost of warehousing and distribution; freight costs from the manufacturer to the store; cost of warehousing and distribution; packaging; stuffing; damages and shortages; and shipping and handling costs incurred in shipment to customers.

(o) Selling, General, and Administrative Expenses

Selling, general, and administrative expenses include store payroll and related benefits, advertising, credit card fees, and store supplies, as well as central office management payroll and related benefits, costs related to the review of strategic alternatives, travel, information systems, accounting, insurance, legal, and public relations. It also includes depreciation and amortization of central office leasehold improvements, furniture, fixtures, and equipment, as well as amortization of trademarks and intellectual property.

(p) Store Preopening Expenses

Store preopening expenses, including store set-up, certain labor and hiring costs, and rental charges incurred prior to store openings are expensed as incurred.

(q) Advertising

The costs of advertising, promotion and marketing programs are charged to operations in the first period the program takes place. Advertising expense was \$24.4 million, \$33.4 million and \$35.2 million for fiscal years 2009, 2008 and 2007, respectively.

(r) Income Taxes

Income taxes are accounted for using a balance sheet approach known as the asset and liability method. The asset and liability method accounts for deferred income taxes by applying the statutory tax rates in effect at the date of the consolidated balance sheets to differences between the book basis and the tax basis of assets and liabilities. The noncurrent deferred tax is reported on a jurisdictional basis. Accordingly, noncurrent deferred tax assets are included in other assets, net and noncurrent deferred tax liabilities are included in other liabilities.

The Company accounts for its total liability for uncertain tax positions according to the provisions of ASC section 740-10-25. The Company recognizes estimated interest and penalties related to uncertain tax positions in income tax expense. See Note 8—Income Taxes for further discussion.

(s) Earnings (Loss) Per Share

Basic earnings (loss) per share is determined by dividing net income or loss allocated to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings or loss per share reflects the potential dilution that could occur if options to issue common stock were exercised. In periods in which the

Notes to Consolidated Financial Statements (continued)

inclusion of such instruments is anti-dilutive, the effect of such securities is not given consideration.

(t) Stock-Based Compensation

The Company has share-based compensation plans covering the majority of its management groups and its Board of Directors. The Company accounts for share-based payments utilizing the fair value recognition provisions of ASC section 718. The Company recognizes compensation cost for equity awards on a straight-line basis over the requisite service period for the entire award. See Note 12 – Stock Incentive Plans.

For fiscal 2009, 2008 and 2007, selling, general and administrative expense includes \$4.3 million (\$2.6 million net of tax), \$3.6 million (\$2.2 million net of tax) and \$3.1 million (\$1.9 million net of tax), respectively, of stock-based compensation expense. As of January 2, 2010, there was \$8.2 million of total unrecognized compensation expense related to nonvested restricted stock awards and options which is expected to be recognized over a weighted-average period of 1.6 years.

(u) Comprehensive Income (Loss)

Comprehensive income (loss) is comprised of net income or loss and foreign currency translation adjustments.

(v) Fair Value of Financial Instruments

For purposes of financial reporting, management has determined that the fair value of financial instruments, including cash and cash equivalents, receivables, accounts payable and accrued expenses, approximates book value at January 2, 2010 and January 3, 2009.

(w) Use of Estimates

The preparation of the consolidated financial statements requires management of the Company to make a number of estimates and assumptions relating to the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The assumptions used by management in future estimates could change significantly due to changes in circumstances, including, but not limited to, challenging current economic conditions. Accordingly, future estimates may change significantly. Significant items subject to such estimates and assumptions include the valuation of long-lived assets, including goodwill and deferred income tax assets, inventories, and the determination of deferred revenue under the Company's customer loyalty program.

(x) Sales Tax Policy

The Company's revenues in the consolidated statement of operations are net of sales taxes.

(y) Foreign Currency Translation

Assets and liabilities of the Company's foreign operations with functional currencies other than the US Dollar are translated at the exchange rate in effect at the balance sheet date, while revenues and expenses are translated at average rates prevailing during the years. Translation adjustments are reported in accumulated other comprehensive income, a separate component of stockholders' equity.

(3) PREPAID EXPENSES AND OTHER ASSETS

Prepaid expenses and other current assets consist of the following (in thousands):

	January 2, 2010	January 3, 2009
Prepaid rent	\$ 9,736	\$ 8,918
Prepaid income taxes	6,600	2,538
Other	2,993	4,695
	\$19,329	\$16,151

(4) PROPERTY AND EQUIPMENT

Property and equipment consist of the following (in thousands):

	January 2, 2010	January 3, 2009
Land	\$ 2,261	\$ 2,261
Furniture and fixtures	41,135	41,054
Computer hardware	22,146	21,665
Building	14,970	14,970
Leasehold improvements	138,894	139,723
Computer software	24,165	20,153
Construction in progress	1,886	2,820
	245,457	242,646
Less accumulated depreciation	144,413	119,453
	\$101,044	\$123,193

For 2009, 2008 and 2007, depreciation expense was \$26.7 million, \$27.1 million and \$24.9 million, respectively.

During 2009, the Company reviewed the operating performance and forecasts of future performance for the stores in its Retail segment. As a result of that review, it was determined that several stores would not be able to recover the carrying value of certain store leasehold improvements through expected undiscounted cash flows over the remaining life of the related assets. Accordingly, the carrying value of the assets was reduced to fair value, calculated as the net present value of estimated future cash flows for each asset group, and asset impairment charges of \$3.3 million were recorded in the fourth quarter of fiscal 2009, which are included in cost of merchandise sold as a component of net loss before income taxes in the Retail segment. The inputs used to determine the fair value of the assets are Level 3 inputs as defined by ASC section 820-10. In the event that we decide to close any or all of these stores in the future, we may

Notes to Consolidated Financial Statements (continued)

be required to record additional impairment, lease termination charges, severance charges and other charges. The Company recorded asset impairment charges of \$1.8 million in the fourth quarter of fiscal 2008.

(5) GOODWILL

Goodwill is accounted for in accordance with ASC Section 350-20 and is reported as a component of the Company's retail segment. The following table summarizes the Company's goodwill (in thousands):

Balance as of December 29, 2007	\$ 42,840
Reversal of valuation allowance on pre-acquisition net operating loss carryforwards	(817)
Effect of foreign currency translation	(11,543)
Balance as of January 3, 2009	\$ 30,480
Effect of foreign currency translation	3,300
Balance as of January 2, 2010	\$ 33,780

There was no tax-deductible goodwill as of January 2, 2010 or January 3, 2009.

(6) OTHER INTANGIBLE ASSETS

Other intangible assets consist of the following (in thousands):

	2009	2008
Trademarks, customer relationships and other intellectual property	\$11,659	\$9,499
Key money deposits	1,002	2,089
Less accumulated amortization	9,060	7,685
Total, net	\$ 3,601	\$3,903

Trademarks and intellectual property are amortized over three years. Amortization expense related to trademarks and intellectual property was \$1.3 million, \$1.3 million and \$0.9 million in 2009, 2008 and 2007, respectively. Estimated amortization expense related to other intangible assets as of January 2, 2010, for each of the years in the subsequent five year period and thereafter is: 2010—\$1.3 million; 2011—\$0.9 million; 2012—\$0.4 million; 2013—0- and 2014—0-.

During 2009, the Company reviewed the operating performance and forecasts of future performance for the stores in its Retail segment. As a result of that review, it was determined that certain stores would not be able to recover the carrying value of certain key money deposits, included in other intangible assets and other store deposits, included in other assets, net, through expected undiscounted cash flows over the remaining life of the related assets. Accordingly, the carrying value of the assets was reduced to fair value, calculated as the net present value of estimated future cash flows for each asset group, and asset impairment charges of \$1.8 million were recorded in the fourth quarter of fiscal 2009, which are included in cost of merchandise sold as a

component of net loss before income taxes in the Retail segment. The inputs used to determine the fair value of the assets are Level 3 inputs as defined by ASC section 820-10. In the event that we decide to close any or all of these stores in the future, we may be required to record additional impairment, lease termination charges, severance charges and other charges.

(7) ACCRUED EXPENSES

Accrued expenses consist of the following (in thousands):

	2009	2008
Accrued wages, bonuses and related expenses	\$ 4,881	\$ 4,957
Sales tax payable	5,812	6,947
Accrued rent and related expenses	492	689
	\$11,185	\$12,593

(8) INCOME TAXES

The components of the provision for income taxes are as follows (in thousands):

	2009	2008	2007
Current:			
Federal	\$ (6,272)	\$ 1,303	\$11,484
State	(410)	567	1,868
Foreign	405	1,316	2,043
Deferred:			
Federal	(2,610)	(1,389)	(2,345)
State	(332)	(93)	(350)
Foreign	(2,148)	959	(186)
Income tax expense	\$ (11,367)	\$ 2,663	\$12,514

A reconciliation between the statutory federal income tax rate and the effective income tax rate is as follows (in thousands):

	2009	2008	2007
Income (loss) before income taxes	\$ (23,840)	\$7,227	\$35,023
Statutory federal income tax rate	35%	34%	35%
Income tax expense (benefit) at statutory federal rate	(8,344)	2,457	12,258
State income taxes, net of federal tax benefit	(482)	313	987
Valuation allowance on net operating loss carryforwards	(1,758)	613	(181)
Effect of lower foreign taxes	(154)	(286)	(96)
Release of state tax reserves	(595)	(405)	—
Other items, net	(34)	(29)	(454)
Income tax expense (benefit)	\$ (11,367)	\$2,663	\$12,514
Effective tax rate	47.7%	36.8%	35.7%

Notes to Consolidated Financial Statements (continued)

Temporary differences that gave rise to deferred tax assets and liabilities are as follows (in thousands):

	2009	2008
Deferred tax assets:		
Deferred revenue	\$ 5,198	\$ 4,681
Accrued rents	3,228	3,659
Deferred compensation	1,397	1,108
Intangible assets	1,597	1,886
Stock compensation	179	179
Receivable and investment write-offs	949	—
Net operating loss carryforwards	3,550	3,038
Other	1,002	557
	17,100	15,108
Less: Valuation allowance	1,877	1,773
Total deferred tax assets	15,223	13,335
Deferred tax liabilities:		
Depreciation	(3,006)	(5,072)
Other	(649)	(688)
Total deferred tax liabilities	(3,655)	(5,760)
Net deferred tax asset	\$11,568	\$ 7,575

The Company has not made a provision for United States income taxes on the accumulated but undistributed earnings of its non-U.S. subsidiaries of \$16.2 million and \$11.5 million as of January 2, 2010 and January 3, 2009, respectively, as the Company intends to permanently reinvest these undistributed earnings. However, if any portion were to be distributed, the related U.S. tax liability may be reduced by foreign income taxes paid on these earnings. Determination of the unrecognized deferred tax liability related to these undistributed earnings is not practicable because of the complexities with its hypothetical calculation.

The Company has net operating loss carryforwards in foreign jurisdictions which do not expire of \$11.6 million and \$10.4 million as of January 2, 2010 and January 3, 2009, respectively. It is more likely than not that some portion of the related deferred tax asset will not be realized. Therefore, a valuation allowance of \$1.9 million and \$1.8 million was recorded at January 2, 2010 and January 3, 2009, respectively. In addition, in 2009, the Company recorded a \$2.8 million reduction in the valuation allowance on net operating losses associated with its UK operations as a result of management determination that it is more likely than not that the benefit of these losses will be recognized.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

Balance as of January 3, 2009	\$ 993
Increases related to current year tax positions	149
Lapse of statute	(512)
Settlements	(60)
Balance as of January 2, 2010	\$ 570

As of January 2, 2010 and January 3, 2009, approximately \$0.6 million and \$1.0 million respectively, of the unrecognized tax benefits would impact the Company's provision for income taxes and effective tax rate if recognized. In the normal course of business, the Company provides for uncertain tax positions and the related interest and penalties and adjusts its unrecognized tax benefits and accrued interest and penalties accordingly. During the next fiscal year, it is reasonably possible to reduce unrecognized tax benefits by \$0.3 million either because the tax positions are sustained on audit or expiration of statute of limitations.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. There was approximately \$0.1 million and \$0.2 million of accrued interest related to uncertain tax positions as of January 2, 2010 and January 3, 2009, respectively. In 2009, the accrued interest decreased by \$0.1 million upon the expiration of statute of limitations and audit settlement and was partially offset by the accrual of additional interest for the current year. In 2008, accrued interest remained unchanged.

The Company's income before income taxes from domestic and foreign operations (which include the United Kingdom, Canada, France and Ireland), are as follows (in thousands):

	2009	2008	2007
Domestic	\$ (23,500)	\$ 3,046	\$ 30,966
Foreign	(340)	4,181	4,057
Total	\$ (23,840)	\$ 7,227	\$ 35,023

The following tax years remain open in the Company's major taxing jurisdictions as of January 2, 2010:

United States (Federal)	2006 through 2009
United Kingdom	2006 through 2009
Canada	2005 through 2009
France	2007 through 2009
Ireland	2007 through 2009

(9) LONG-TERM DEBT

On October 28, 2009, the Company amended its previous line of credit with a bank that provides borrowing capacity for the first half of the fiscal year of \$40 million and a seasonal overline of \$50 million. The seasonal overline is in effect from July 1 to December 31 each year. Borrowings under the credit agreement are secured by our assets and a pledge of 65% of our ownership interest in our foreign subsidiaries. The credit agreement expires on December 31, 2011 and contains various restrictions on indebtedness, liens, guarantees, redemptions, mergers, acquisitions or sale of assets, loans, transactions with affiliates, and investments. It also prohibits us from declaring dividends without the bank's prior consent, unless such payment of dividends would not violate any terms of the credit agreement. Borrowings bear

Notes to Consolidated Financial Statements (continued)

interest at LIBOR plus 2.05%. Financial covenants include maintaining a minimum tangible net worth, maintaining a minimum fixed charge cover ratio (as defined in the credit agreement) and not exceeding a maximum funded debt to earnings before interest, depreciation and amortization ratio. As of January 2, 2010, there were no borrowings under our line of credit and there was a standby letter of credit of approximately \$1.1 million outstanding under the credit agreement. Giving effect to this standby letter of credit, there was approximately \$38.9 million available for borrowing under the line of credit.

(10) COMMITMENTS AND CONTINGENCIES**(a) Operating Leases**

The Company leases its retail stores and corporate offices under agreements which expire at various dates through 2030. The majority of leases contain provisions for base rent plus contingent payments based on defined sales as well as scheduled escalations. Total office and retail store base rent expense was \$45.9 million, \$49.8 million and \$45.8 million, and contingent rents were \$0.9 million, \$1.2 million and \$1.8 million for 2009, 2008 and 2007, respectively.

Future minimum lease payments at January 2, 2010, were as follows (in thousands):

2010	\$ 50,651
2011	47,107
2012	42,345
2013	35,469
2014	31,319
Subsequent to 2014	75,686
	<u>\$282,577</u>

(b) Litigation

In the normal course of business, the Company is subject to certain claims or lawsuits. Management is not aware of any claims or lawsuits that will have a material adverse effect on the consolidated financial position or results of operations of the Company.

(11) EARNINGS (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except share and per share date):

	2009	2008	2007
Net income (loss)	\$ (12,473)	\$ 4,564	\$ 22,509
Weighted average number of common shares outstanding	<u>18,874,352</u>	<u>19,153,123</u>	<u>20,256,847</u>
Effect of dilutive securities:			
Stock options	—	36,366	141,355
Restricted stock	—	34,784	50,591
Weighted average number of common shares outstanding – dilutive	<u>18,874,352</u>	<u>19,224,273</u>	<u>20,448,793</u>
Earnings (loss) per share:			
Basic:	\$ (0.66)	\$ 0.24	\$ 1.11
Diluted	\$ (0.66)	\$ 0.24	\$ 1.10

In calculating diluted earnings per share for fiscal 2009, options to purchase 805,347 shares of common stock were outstanding at the end of the period, but were not included in the computation of diluted earnings per share due to their anti-dilutive effect. An additional 1,450,308 shares of restricted common stock were outstanding at the end of the period, but excluded from the calculation of diluted earnings per share due to their anti-dilutive effect under provisions of ASC 260-10.

In calculating diluted earnings per share for fiscal 2008, options to purchase 328,772 shares of common stock were outstanding at the end of the period, but were not included in the computation of diluted earnings per share due to their anti-dilutive effect. An additional 702,493 shares of restricted common stock were outstanding at the end of the period, but excluded from the calculation of diluted earnings per share due to their anti-dilutive effect.

In calculating diluted earnings per share for fiscal 2007, options to purchase 137,856 shares of common stock were outstanding at the end of the period, but were not included in the computation of diluted earnings per share due to their anti-dilutive effect. An additional 328,784 shares of restricted common stock were outstanding at the end of the period, but excluded from the calculation of diluted earnings per share due to their anti-dilutive effect.

Notes to Consolidated Financial Statements (continued)

(12) STOCK INCENTIVE PLANS

On April 3, 2000, the Company adopted the 2000 Stock Option Plan (the Plan). In 2003, the Company adopted the Build-A-Bear Workshop, Inc. 2002 Stock Incentive Plan, in 2004, the Company adopted the Build-A-Bear Workshop, Inc. 2004 Stock Incentive Plan and in 2009, the Company amended and restated the Build-A-Bear Workshop, Inc. 2004 Stock Incentive Plan (collectively, the Plans).

Under the Plans, as amended, from January 3, 2009, up to 3,230,000 shares of common stock were reserved and may be granted to employees and nonemployees of the Company. The Plan allows for the grant of incentive stock options, nonqualified stock options, stock appreciation rights

(SAR) and restricted stock. Options granted under the Plan expire no later than 10 years from the date of the grant. The exercise price of each incentive stock option shall not be less than 100% of the fair value of the stock subject to the option on the date the option is granted. The exercise price of all options shall be the fair market value on the date of the grant. The vesting provision of individual options is at the discretion of the compensation committee of the board of directors and generally ranges from one to four years. Each share of stock awarded pursuant to an option or subject to the exercised portion of a SAR reduces the number of shares available by one share. Each share of stock awarded pursuant to any other stock-based awards, including restricted stock grants, reduces the number of shares available by 1.27 shares.

(a) Stock Options

The following table is a summary of the balance and activity for the Plans related to stock options for the periods presented:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding, December 30, 2006	529,200	\$16.10		
Exercised	74,442	7.48		
Forfeited	33,877	33.07		
Outstanding, December 29, 2007	420,881	16.25		
Exercised	—	—		
Forfeited	66,109	17.72		
Outstanding, January 3, 2009	354,772	15.98		
Granted	480,967	5.04		
Exercised	—	—		
Forfeited	30,392	14.25		
Outstanding, January 2, 2010	805,347	\$ 9.51	6.8	\$137
Options Exercisable As Of:				
January 2, 2010	340,524	\$15.62	3.5	\$115

The expense recorded related to options granted during fiscal 2009 was determined using the Black-Scholes option pricing model and the provisions of Staff Accounting Bulletin (SAB) 107 and 110, which allow the use of a simplified method to estimate the expected term of "plain vanilla" options. The assumptions used in the option pricing model during fiscal 2009 were: (a) dividend yield of 0%; (b) volatility of 65%; (c) risk-free interest rates ranging from 2.3% to 3.1%; and (d) an expected life of 6.25 years. There were no new stock options granted in fiscal 2008 or 2007.

The grant date fair value of options granted in 2009 was approximately \$1.5 million.

No options were exercised in 2009 or 2008. The total intrinsic value of options exercised in fiscal 2007 was approximately \$1.4 million. The Company generally issues new shares to satisfy option exercises.

Shares available for future option, non-vested stock and restricted stock grants were 2,726,913 and 1,039,511 at the end of 2009 and 2008, respectively.

Notes to Consolidated Financial Statements (continued)

(b) Restricted Stock

The following table is a summary of the balance and activity for the Plans related to unvested restricted stock granted as compensation to employees and directors for the periods presented:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding, December 30, 2006	227,164	\$29.88
Granted	259,622	26.28
Vested	78,430	28.81
Forfeited	29,406	28.25
Outstanding, December 29, 2007	378,950	27.77
Granted	558,694	7.92
Vested	130,680	26.21
Forfeited	93,208	17.75
Outstanding, January 3, 2009	713,756	13.82
Granted	1,144,343	4.72
Vested	294,545	12.47
Forfeited	113,246	9.72
Outstanding, January 2, 2010	1,450,308	\$ 7.23

The vesting date fair value of shares that vested in 2009 and 2008 was \$1.6 million and \$1.1 million, respectively.

During 2009, 564,045 shares of non-vested restricted stock were granted to employees of the Company. The shares vest over a period of four years from the grant date at grant date fair values ranging from of \$4.41 to \$5.14. An additional 460,990 shares were granted to certain employees at grant date fair values ranging from of \$4.25 to \$4.49. These shares cliff vest three years from the grant date. Various members of the Company's board of directors were granted an additional 119,308 shares in the aggregate of non-vested restricted stock as compensation for services. The shares were issued subject to a restriction of continued service on the board of directors and all restrictions lapse one year from the grant date or upon a director's retirement upon the completion of his or her term, if earlier.

During 2008, 454,288 shares of non-vested restricted stock were granted to employees of the Company. The shares vest over a period of four years from the grant date at a grant date fair value of \$8.75. Various members of the Company's board of directors were granted an additional 104,406 shares in the aggregate of non-vested restricted stock as compensation for services. The shares were issued subject to a restriction of continued service on the board of directors and all restrictions lapse one year from the grant date or upon a director's retirement upon the completion of his or her term, if earlier.

During 2007, 224,228 shares of non-vested restricted stock were granted to employees of the Company. The shares vest over a period of four years from the grant date at a grant date fair value of \$27.45. An additional grant of 8,400

shares was made to employees in the UK who were employed at the time of the acquisition, as no grants were made to UK employees in 2006. These shares vest over a period of three years from the grant date at a grant date fair value of \$27.82. Various members of the Company's board of directors were granted an additional 26,994 shares in the aggregate of non-vested restricted stock as compensation for services. The shares were issued subject to a restriction of continued service on the board of directors and all restrictions lapse one year from the grant date or upon a director's retirement upon the completion of his or her term, if earlier.

The aggregate unearned compensation expense related to options and restricted stock was \$8.2 million as of January 2, 2010. Based on the vesting provisions of the underlying equity instruments, future compensation expense related to previously issued restricted stock at January 2, 2010 was as follows (in thousands):

2010	\$4,160
2011	2,589
2012	1,237
2013	233
	<u>\$8,219</u>

The outstanding restricted and non-vested stock is included in the number of outstanding shares on the face of the consolidated balance sheets, but is treated as outstanding stock options for accounting purposes. The shares of restricted and non-vested stock, accounted for as options, are included in the calculation of diluted earnings per share using the treasury stock method, with the proceeds equal to the sum of unrecognized compensation cost and amounts to be collected from the outstanding loans related to the restricted stock, where applicable.

(c) Associate Stock Purchase Plan

In October 2004, the Company adopted an Associate Stock Purchase Plan (ASPP). Under the ASPP, substantially all full-time employees were given the right to purchase shares of the Company's common stock, subject to certain limitations, at 85% of the lesser of the fair market value on the purchase date or the beginning of each purchase period. Up to 1,000,000 shares of the Company's common stock were available for issuance under the ASPP. The employees of the Company purchased 56,144 shares at \$5.72 per share through the ASPP during fiscal 2008 and 30,105 shares at \$17.38 per share during fiscal 2007. The expense recorded related to the ASPP during fiscal 2008 and 2007 was determined using the Black-Scholes option pricing model and the provisions of ASC section 718-50. The assumptions used in the option pricing model for fiscal 2008 were (a) dividend yield of 0%; (b) volatility ranging from 45% to 65%; (c) risk-free interest rate ranging from 0.08% to 1.68%; and (d) an

Notes to Consolidated Financial Statements (continued)

expected life of 0.25 years. The assumptions used in the option pricing model for fiscal 2007 were: (a) dividend yield of 0%; (b) volatility of 50%; (c) risk-free interest rate of 6.0%; and (d) an expected life of 0.25 years.

The ASPP was terminated, effective December 31, 2008.

(13) STOCKHOLDERS' EQUITY

The following table summarizes the changes in outstanding shares of common stock for fiscal 2006, 2007 and 2008:

	Common Stock
Shares as of December 30, 2006	20,537,421
Shares issued under employee stock plans, net of shares withheld in lieu of tax withholding	315,436
Repurchase of shares	(176,500)
Shares as of December 29, 2007	20,676,357
Shares issued under employee stock plans, net of shares withheld in lieu of tax withholding	487,465

(14) EMPLOYEE BENEFIT PLANS

401(k) Savings Plan

During 2000, the Company established a defined contribution plan that conforms to IRS provisions for 401(k) plans. The Build-A-Bear Workshop, Inc. Employees Savings Trust covers associates who work 1,000 hours or more in a year and have attained age 21. The Company, at the discretion of its board of directors, can provide for a Company match on the first 6% of employee deferrals. For 2009 and 2008, the Company provided a match of 15% on the first 6% of employee deferrals totaling \$0.2 million in each year. For 2007, the Company provided a match of 30% on the first 6% of employee deferrals totaling \$0.3 million. The Company match vests over a five-year period.

(15) RELATED-PARTY TRANSACTIONS

The Company bought fixtures for new stores and furniture for the corporate offices from a related party. The total payments to this related party for fixtures and furniture amounted to \$0.1 million, \$1.6 million and \$2.5 million, in 2009, 2008 and 2007, respectively. No amounts were due to this related party as of January 2, 2010 or January 3, 2009.

The Company made charitable contributions of \$0.9 million, \$1.2 million and \$0.8 million in 2009, 2008 and 2007, respectively, to charitable foundations controlled by the executive officers of the Company. The foundations support a variety of children's causes, domestic animal shelters, disaster relief and other concerns. The foundations distribute grants to

qualifying charitable organizations based upon decisions of their respective contribution committees most of whose members are employees of the Company. The total due to the charitable foundations as of January 2, 2010 and January 3, 2009 was \$0.7 million and \$0.3 million, respectively.

(16) INVESTMENT IN AFFILIATE

The Company holds a minority interest in Ridemakerz, LLC, which is accounted for under the equity method. Ridemakerz is an early-stage company that has developed an interactive retail concept that allows children and families to build and customize their own personalized cars. In 2006, the Company invested \$0.6 million, which represented an ownership interest of approximately 10%. The Company invested an additional \$2.4 million in 2007 and \$2.5 million in 2008. The Company also entered into a series of agreements whereby the Company agreed to perform advisory and operational support services for Ridemakerz in exchange for additional equity. The Company received \$0.7 million, \$0.9 million and \$1.2 million in equity in exchange for support services provided in fiscal 2009, 2008 and 2007, respectively. The Company also purchased a call option from a group of other Ridemakerz investors for \$150,000 for 1.25 million Ridemakerz common units at an exercise price of \$1.25 per unit. The call option was immediately exercisable and expires April 30, 2012. Simultaneously, the Company granted a put option to the same group of investors for 1.25 million common units at an exercise price of \$0.50 per unit. The put option was exercisable on April 30, 2008 and expires on April 30, 2012.

Under current agreements, the Company is the sole member of an equity class that is allocated losses only following the allocation of losses to all other common and preferred equity holders to the extent of their capital contributions. All of the priority equity members' capital was reduced to zero in the fiscal 2009 second quarter. As a result, for fiscal 2009, the Company recorded non-cash pre-tax losses of \$7.5 million. In the 2009 fourth quarter, the Company determined that its investment in Ridemakerz had experienced an other than temporary decline in its fair value due to continued significant losses and uncertainty as to the ultimate results of their restructuring. Accordingly, an additional non-cash charge of \$1.0 million was recorded. Additionally, the Company wrote-off \$1.1 million in receivables from Ridemakerz. All charges related to Ridemakerz are included in "Losses from investment in affiliate" in the Consolidated Statements of Operations and are part of the Retail segment. As of January 2, 2010, the book value of the Company's investment in Ridemakerz had been reduced to zero. No income or loss allocations, impairments or other charges related to Ridemakerz were recorded in fiscal 2008 or 2007. The Company still retains an ownership interest of approximately 25%. Under the

Notes to Consolidated Financial Statements (continued)

current agreements, the Company could own up to approximately 33% of fully diluted equity in Ridemakerz.

As of January 2, 2010 and January 3, 2009, outstanding receivables from Ridemakerz were \$-0- and \$0.4 million, respectively.

A summary of Ridemakerz results of operations for 2009 follows (in thousands):

	2009
Total revenue	\$ 7,347
Gross margin	577
Store closing costs	3,021
Net loss	\$(11,373)
Losses allocated to Build-A-Bear Workshop	7,512

(18) SEGMENT INFORMATION

The Company's operations are conducted through three operating segments consisting of retail, international franchising, and licensing and entertainment. The retail segment includes the operating activities of company-owned stores in the United States, Canada, the United Kingdom, Ireland, France and other retail delivery operations, including the Company's web store and non-traditional store locations such as baseball ballparks. The international franchising segment includes the licensing activities of the Company's franchise agreements with store locations in Europe, outside of France, Asia, Australia and Africa. The licensing and entertainment segment has been established to market the naming and branding rights of the Company's intellectual properties for third party use. The operating segments have

(17) MAJOR VENDORS

Three vendors, each of whose primary manufacturing facilities are located in China, accounted for approximately 80%, 81% and 82% of inventory purchases in 2009, 2008 and 2007, respectively.

discrete sources of revenue, different capital structures and different cost structures. These operating segments represent the basis on which the Company's chief operating decision maker regularly evaluates the business in assessing performance, determining the allocation of resources and the pursuit of future growth opportunities. Accordingly, the Company has determined that each of its operating segments represent one reportable segment. The reportable segments follow the same accounting policies used for the Company's consolidated financials statements.

Following is a summary of the financial information for the Company's reporting segments (in thousands):

	Retail	International Franchising	Licensing & Entertainment	Total
Fiscal 2009				
Net sales to external customers	\$ 388,552	\$ 3,353	\$ 2,470	\$ 394,375
Net income before income taxes	(27,726)	1,913	1,973	(23,840)
Capital expenditures	7,879	269	—	8,148
Depreciation and amortization	28,045	442	—	28,487
Fiscal 2008				
Net sales to external customers	460,964	4,156	2,741	467,861
Net income before income taxes	2,876	2,376	1,975	7,227
Capital expenditures	22,202	1,013	—	23,215
Depreciation and amortization	28,122	752	9	28,883
Fiscal 2007				
Net sales to external customers	468,168	3,577	2,616	474,361
Net income before income taxes	31,032	1,888	2,103	35,023
Capital expenditures	36,902	333	—	37,235

Total Assets as of:				
January 2, 2010	\$ 276,779	\$ 3,959	\$ 3,535	\$ 284,273
January 3, 2009	\$294,187	\$3,131	\$2,834	\$300,152

Notes to Consolidated Financial Statements (continued)

The Company's reportable segments are primarily determined by the types of products and services that they offer. Each reportable segment may operate in many geographic areas. The Company allocates revenues to

geographic areas based on the location of the customer or franchisee. The following schedule is a summary of the Company's sales to external customers and long-lived assets by geographic area (in thousands):

	North America ⁽¹⁾	Europe ⁽²⁾	Other ⁽³⁾	Total
Fiscal 2009				
Net sales to external customers	\$ 318,502	\$ 72,520	\$ 3,353	\$ 394,375
Property and equipment, net	87,860	13,184	—	101,044
Fiscal 2008				
Net sales to external customers	388,213	75,492	4,156	467,861
Property and equipment, net	109,305	13,888	—	123,193
Fiscal 2007				
Net sales to external customers	411,781	59,003	3,577	474,361
Property and equipment, net	120,145	19,687	9	139,841

(1) North America includes the United States, Canada and Puerto Rico

(2) Europe includes company-owned stores in the United Kingdom, Ireland and France

(3) Other includes franchise businesses outside of the United States, Canada, Puerto Rico, the United Kingdom, Ireland and France

(19) CLOSURE OF FRIENDS 2B MADE CONCEPT

In September 2008, the Company announced plans to close its Friends 2B Made concept, a line of make-your-own dolls and related products. The closure plan affected the Company's nine Friends 2B Made locations, all but one of which were inside or adjacent to a Build-A-Bear Workshop store, separate Friends 2B Made fixtures in approximately 50 Build-A-Bear Workshop stores, and the concept's Web site. As of January 2, 2010, all nine locations were closed and the fixtures had been removed from all Build-A-Bear Workshop stores. During the fiscal 2009, the Company recorded pre-tax charges of \$1.0 million related to the closures, which consisted of lease termination charges, construction costs and inventory write-offs, and are included in "Store closing" expenses in the Consolidated Statements of Operations. During fiscal 2008, the Company recorded a pre-tax charge of \$3.0 million, respectively, related to the closures, which consisted primarily of asset impairment charges. These charges are a component of net loss before income taxes in the retail segment.

(20) SUBSEQUENT EVENT

On March 3, 2010, the Company announced the extension of its previously announced \$50 million share repurchase program until March 31, 2011, subject to further extension by the Company's Board of Directors. The Company currently intends to purchase up to \$50 million of its common stock in the open market (including through 10b5-1 plans), through privately negotiated transactions or through an accelerated repurchase transaction. The primary source of funding for the program is expected to be cash on hand. The timing and amount of share repurchases, if any, will depend on price, market conditions, applicable regulatory requirements, and other factors. The program does not require the Company to repurchase any specific number of shares and may be modified, suspended or terminated at any time without prior notice. Shares repurchased under the program will be subsequently retired.

Exhibits

(a)(2) Financial Statement Schedules

No additional Financial Statement Schedules are filed as a part of this report pursuant to Item 8 and Item 15(d).

(a)(3) Exhibits.

The following is a list of exhibits filed as a part of the Annual Report on Form 10-K:

Exhibit Number	Description
2.1	Agreement and Plan of Merger dated April 3, 2000 between Build-A-Bear Workshop, L.L.C. and the Registrant (incorporated by reference from Exhibit 2.1 to our Registration Statement on Form S-1, filed on August 12, 2004, Registration No. 333-118142)

Annual Meeting

The annual meeting of shareholders will be held at 10:00 a.m. St. Louis time (CDT) on Thursday, May 13, 2010, at the company's World Bearquarters, 1954 Innerbelt Business Center Drive, St. Louis, Missouri 63114. A formal notice of the meeting and a proxy statement will be sent to each shareholder as of March 31, 2010.

BBW Build-A-Bear Workshop[®]
LISTED common stock is traded
NYSE on the New York Stock Exchange. Our symbol is BBW.

As of March 31, 2010, there were approximately 10,500 shareholders. That number is based on the actual number of holders of record and an estimated number of beneficial holders of the company's common stock.

Certifications

The most recent certifications by our chief executive officer and chief financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits to our Form 10-K. We have also filed with the New York Stock Exchange the most recent Annual CEO Certification, as required by the New York Stock Exchange.

A GLOBAL COMMUNITY

HUGS AROUND THE WORLD

We are a powerful global brand with broad appeal across many cultures. With franchised stores in Europe, Asia, Australia, Africa and the Middle East, we truly know the hug of a teddy bear is understood in any language.
