#### Build-A-Bear Workshop, Inc. Reports a 38% Increase in First Quarter Fiscal 2015 Diluted Earnings Per Share

- Consolidated comparable store sales increase 2%
- Pretax income increases \$1.7 million to \$7.1 million
- Retail gross margin improves 330 basis points to 46.8%

ST. LOUIS--(BUSINESS WIRE)--May 5, 2015--Build-A-Bear Workshop, Inc. (NYSE:BBW) today reported results for the 2015 first quarter ended April 4, 2015.

#### First Quarter 2015 Highlights (13 weeks ended April 4, 2015 compared to the 13 weeks ended March 29, 2014):

- Consolidated net retail sales were \$91.7 million, compared to \$96.8 million in the 2014 first quarter reflecting the negative impact of the one-week calendar shift due to fiscal year 2014 having a 53rd week. In addition, foreign currency exchange rate fluctuations negatively impacted net retail sales by \$1.9 million primarily due to the strengthening of the US dollar;
- Consolidated comparable store sales increased 2%, which included a flat performance in North America and a 13% increase in Europe. First quarter fiscal 2015 comparable store sales are compared to the thirteen-week period ended April 5, 2014;
- Retail gross margin improved to 46.8% from 43.5% in the 2014 first quarter;
- Pretax income improved to \$7.1 million compared to \$5.3 million in the 2014 first quarter. The 2015 results include a negative foreign currency impact of \$1.5 million related to the re-measurement of the Company's balance sheet;
- Net income increased by \$1.8 million to \$6.8 million, or \$0.40 per diluted share, an improvement from \$5.0 million or \$0.29 per diluted share in the 2014 first quarter; and
- Adjusted net income was \$8.3 million, or \$0.49 per diluted share, compared to adjusted net income of \$5.1 million or \$0.29 per diluted share in the 2014 first quarter. (See Reconciliation of Net Income to Adjusted Net Income.)

Sharon John, Build-A-Bear Workshop's Chief Executive Officer commented, "Our year is off to a solid start highlighted by positive consolidated comparable store sales growth, expansion in retail gross margin and a 38% increase in first quarter diluted earnings per share. This quarter represents our ninth consecutive period of improved operating performance demonstrating ongoing momentum due to the successful execution of our stated strategies.

"Our priority is to continue to focus on evolving to a position of sustained profitable growth and in the quarter, we made progress on several of our 2015 objectives including reaching an expanded consumer base more profitably with the introduction of successful proprietary and licensed product stories," Ms. John continued. "We believe we are well positioned to continue our progress toward our stated goals through the balance of the year."

## Additional First Quarter Operating Highlights (13 weeks ended April 4, 2015 compared to the 13 weeks ended March 29, 2014):

- Total revenues were \$93.4 million compared to \$97.9 million in the 2014 first quarter reflecting the negative impact of the one-week calendar shift due to fiscal year 2014 having a 53rd week;
- Consolidated e-commerce sales rose 9% excluding the impact of foreign exchange; and
- Selling, general and administrative expenses totaled \$37.2 million, or 39.9% of total revenues, including foreign currency losses of \$1.5 million from the re-measurement of the Company's balance sheet and \$250,000 in management transition costs. This compares to \$37.8 million or 38.6% of total revenues in the 2014 first quarter including \$250,000 in management transition costs and \$200,000 in foreign currency gains.

#### **Store Activity**

During the quarter, the Company closed eight stores and opened one location to end the period with 317 company-owned stores, including 257 in North America and 60 in Europe. The Company's international franchisees ended the 2015 first quarter with 69 stores in 13 countries.

#### **Balance Sheet**

The Company ended the 2015 first quarter with cash and cash equivalents totaling \$54.7 million and no borrowings under its revolving credit facility. In the quarter, the Company invested \$3.0 million to repurchase 154,000 shares of its common stock. Total inventory at quarter end was \$51.2 million compared to \$44.1 million in the prior year. Inventory per square foot increased 16% compared to the prior year period due, in part, to early receipts of second quarter product launches.

In fiscal 2015, the Company continues to expect capital expenditures to be between \$20 million to \$25 million to support the refresh and repositioning of stores as well as investment in infrastructure. Depreciation and amortization is expected to be approximately \$16 million to \$18 million.

#### 2015 Key Strategic Objectives:

To increase shareholder value, the Company expects to continue to execute its "MORE x 4" strategic plan which includes continuous improvement and strategic expansion initiatives in four key areas:

#### **Expanding into More Places**

The Company intends to continuously improve its real estate model by strategically evolving its store portfolio to align with market trends while selectively opening new locations and systematically refreshing its store base. To this end, the Company plans to open additional stores in high potential destinations such as tourist locations, outlet malls and shop-in-shops, which have proven more productive than traditional mall stores. In the first quarter, the Company solidified plans to open four stores in outlet centers with the first location expected to open in July in Rehoboth Beach, Delaware.

The Company expects to strategically expand its international presence by leveraging the improving strength in its company-owned stores to restructure and extend its international footprint. In 2015, the Company plans to enter new markets with both a redesigned franchise model and organic corporate expansion. In the first quarter of fiscal 2015, the Company successfully converted a previously franchised store to an owned location in Tivoli Gardens a popular tourist destination in Copenhagen, Denmark.

#### **Targeting More People**

The Company intends to continuously grow its business with its core three to twelve year-old consumer segment which represents a majority of current revenue. The Company will focus on initiatives that drive trial and increase repeat visits with an evolved segmentation, product development and marketing strategy. For example, during the important Valentine's Day period, the Company saw positive results across all consumer segments, including the core, with its "Share your Heart" integrated product and marketing campaign.

The Company expects to strategically grow sales to consumers over twelve years-old with a focus on key categories including gift-giving, affinity and collectibles. This consumer segment currently represents over 20% of sales and has a tendency to over-index on less price-sensitive "gift-able" and on-line purchases. Therefore, the Company intends to leverage its e-commerce business to efficiently target these consumers. During the first quarter, the Company pre-launched online and subsequently in stores its Cinderella bear, the first in a series of limited edition collectible Disney princess bears. The Company successfully attracted the over twelve year-old affinity consumer as well as its core younger girls segment while establishing a new price-point threshold for the complete Cinderella product package.

#### **Developing More Products**

The Company intends to continuously improve and extend its efforts to develop high impact product stories coupled with integrated marketing programs that tend to garner higher price points, drive add-on purchases and create "play beyond the plush". Shortly after Easter, the Company successfully introduced a proprietary Promise Pets collection with strong initial consumer response from the targeted segments of older girls and boys. Promise Pets is supported with a free mobile app that allows the child to virtually bring their furry friend to "life", further building on the Company's goal of extending brand interaction and creating "play beyond the plush".

The Company also plans to strategically expand its presence and create new revenue and profit streams by launching an out-bound licensing program to leverage its strong brand equity. Out-bound licensing will enable the Company to extend its brand reach with new offerings in relevant categories and will provide consumers with "products beyond the plush". During the first quarter, the Company signed agreements to sell Build-A-Bear branded products in key areas including fashions, confections, snack food and non-competitive toy categories. The Company expects to begin to realize limited revenue from royalties associated with the licensing agreements in the second half of the 2015 fiscal year with greater impact expected in the following year.

#### **Driving More Profitability**

The Company intends to continuously improve its value engineering initiatives to further optimize product margins while implementing new systems that should facilitate sales growth, increase efficiency and improve long term profitability. Through these efforts, the Company delivered pre-tax income of \$7.1 million, an increase of \$1.7 million over the prior year period, driven by a 330 basis point improvement in retail gross margin.

The Company expects to strategically expand its profitability by prioritizing incremental growth initiatives, like those discussed above, that leverage existing infrastructure, are primarily royalty-based, and/or allow for discrete pricing and are therefore comparatively margin-accretive.

#### **Forward-Looking Statements:**

This press release contains forward looking statements that involve risks and uncertainties and the Company's actual results may differ materially from the results discussed in the forward-looking statements. These risks and uncertainties include, without limitation, those detailed under the caption "Risk Factors" in the Company's annual report on Form 10-K for the year ended January 3, 2015, as filed with the SEC, and the following:

- general global economic conditions may deteriorate, which could lead to disproportionately reduced consumer demand for our products, which represent relatively discretionary spending;
- customer traffic may decrease in the shopping malls where we are located, on which we depend to attract guests to our stores;
- we may be unable to generate interest in and demand for our interactive retail experience, or to identify and respond to consumer preferences in a timely fashion;
- our marketing and on-line initiatives may not be effective in generating sufficient levels of brand awareness and guest traffic;
- we may improperly obtain or be unable to adequately protect customer information in violation of privacy or security laws or customer expectations;
- we may be unable to generate comparable store sales growth;
- we may be unable to effectively operate or manage the overall portfolio of our company-owned stores;
- we may be unable to renew or replace our store leases, or enter into leases for new stores on favorable terms or in favorable locations, or may violate the terms of our current leases;
- we may not be able to operate our international company-owned profitably;
- the availability and costs of our products could be adversely affected by risks associated with international manufacturing and trade, including foreign currency fluctuation;
- our products could become subject to recalls or product liability claims that could adversely impact our financial performance and harm our reputation among consumers;
- we may lose key personnel, be unable to hire qualified additional personnel, or experience turnover of our management team;
- we are susceptible to disruption in our inventory flow due to our reliance on a few vendors;
- we may be unable to effectively manage our international franchises or laws relating to those franchises may change;
- we may fail to renew, register or otherwise protect our trademarks or other intellectual property;
- we are subject to risks associated with technology and digital operations;
- we may suffer negative publicity or be sued due to violations of labor laws or unethical practices by manufacturers of our merchandise;
- we may be unable to operate our company-owned distribution center efficiently or our third-party distribution center providers may perform poorly;
- high petroleum products prices could increase our inventory transportation costs and adversely affect our profitability;
- our plans to leverage the Build-A-Bear brand to drive strategic expansion may not be successful;
- our market share could be adversely affected by a significant, or increased, number of competitors;
- we may suffer negative publicity or negative sales if the non-proprietary toy products we sell in our stores do not meet our quality or sales expectations;
- · poor global economic conditions could have a material adverse effect on our liquidity and capital resources;
- fluctuations in our quarterly results of operations could cause the price of our common stock to substantially decline; and
- we may be unable to repurchase shares of our common stock at the times or in the amounts we currently anticipate or the results of the share repurchase program may not be as beneficial as we currently anticipate.

#### \* Non-GAAP Financial Measures

In this press release, the Company's financial results are provided both in accordance with generally accepted accounting principles (GAAP) and using certain non-GAAP financial measures. In particular, the Company provides historic earnings and earnings per diluted share adjusted to exclude certain costs and accounting adjustments, which are non-GAAP financial measures. These results are included as a complement to results provided in accordance with GAAP because management believes these non-GAAP financial measures help identify underlying trends in the Company's business and provide useful information to both management and investors by excluding certain items that may not be indicative of the Company's core operating results. These measures should not be considered a substitute for or superior to GAAP results.
